Start the 2nd Exodus in 13 Songs for 1 Choice of 1 calming **Continuity Of Operations Plan** to redeem innovation in Reality via Real Quests for Real Answers – before AI bugs trick humanity into self-destruction by nuclear roulette.

Preface for **Don't Panic Guide** at **Armageddon ... to petition Earth's 10 Nuclear Kings ... to Save the World ... and my life too ...**

The lawless Law of Dictators rules by secrecy to blindly sacrifice the world until it's gone. To break that Law of Lawlessness, LLoL offers to save the world from Armageddon disasters by maximizing transparency for ~2+cents /day /person as required to scale up a big-tech Exodus to a ResearchCity of Jesus' Logic in Allah's Torah for *all*. Why wait before it's too late?

Turn all doom to delight by asking all others: **Won't you be my neighbor?** Strange creatures are roaming Earth at Armageddon, trying to survive. From amazing musketeers passing bills at city gates to sovereigns with nuclear tridents, trying to rule the world. From little people worshipping idols to idols worshipping tin cars, bricks and mortars. From devils you know to devils you don't. **Don't panic!** Yah! **God loves them all.** The strangest creature may be LLoL me, writer of this 16-Fig. songbook, wedding-invite courier, and creator of a new forecast for accidental nuclear winter, interpreting historic evidence.

Existing dooms-day clocks are too imprecise to motivate action by fiduciary analysts who struggle to grasp what "89 sec before midnight" means. So, as a professional systems analyst I built a model to forecast the probability to fry or freeze in **accidental nuclear winter** in the near future (see **Fig.15.n** ⁵⁰¹). It extrapolates the 4 known MAD nuclear crises of 40 years of Cold War, like the 1962 Cuban Missile Crisis, to ask when I can expect such nuclear roulette to blow up in my face. I used the Evolvix computer modeling language that I've been creating to simplify accurate modeling to predict exact odds with a reasonably simplified 'world-equation'. It's like weather forecasting, except it's simple enough for command-line geeks to run their own numbers ^{see 501}.

The 16 fig-leaves of my *Don't Panic Guide* are my excuse to tell the world a nuclear secret likely hidden even to Earth's 10 Nuclear Kings: I'm more likely to fry or freeze in accidental nuclear winter than to die in a car crash. Annie Jacobsen's 2024 book *'Nuclear war'* credibly explains how. So, **either I abolish the mentality that needs nukes or it will abolish me.** Either we pay the pied piper ^{ML1:17} or humanity is literally evicted from Earth ^{Rev14:20, Rev19:21, Mt.3:8-10} at its so-called *Great Filter*. Only a global citizen's movement focused on solving *all* challenges that fuel the felt need for nukes has a real chance to succeed. This requires a ResearchCity for *gentle kind reasonably* coordinating *all* work that is else dropped by others. I discovered plans to scale it up in 7-8 stages of ~8 months each, until it offers the life-giving decision support *all* people deserve.

Success requires a self-stabilizing, Jubilee-based innovation culture that learned how to learn from mistakes instead of whitewashing them. Cultures need **songs**. **To move from gloom to glory**, Armageddon needs a soundtrack. My songs sing of that new Jubilee culture and its new social contract to serve *all*. ¹ I'm called to call *all*, like Jonah and Joan of Arc: **Turn all doom to delight** in an Exodus from the *status quo* – to elope with Reality\Yah on Real Quests for Real Answers to build that ResearchCity before it's too late. Yet, who takes on all fear, guilt, and shame that keep blame-shifters locked in their prisons? I do – by volunteering to serve as *escape-goat*, *'the other goat'* of Yom Kippur. My mathematical theology and history ^{Yoma 39b5} shows: Yah is still waiting for a volunteer. **Please pray** Reality\Allah\Yah & Yes\YhowShua\RealQuestAnswer\Ysa\Jesus **accept my offer** (or the offer of someone more qualified than me) – before humanity self-destructs for lack of a keeper of *all* nuclear ... siblings. But can we together really save the world? With Yah's superpower of common sense: Yes! Because it builds on *Real Quests for Real Answers*, i.e. *Yas\Jesus*. Believe it or leave it, but *RealQuestAnswers* ^{ML7} are the only way to salvation. This is the **Good News** of Islam\Submission under the Name of *Yas* to serve Yah\Allah: *Yas'* scientific method of loving enemies by *listening* to them ^{ML5}.

Mr. Rogers thought **to try to make you feel less than you really are, that is the greatest evil.** It's true for children, adults, nations, even for God! Yet, who are you? Who am I? **My songs** reflect my **hero journey** to find true answers. Superheroes who fail to listen turn into super-villains. Thus, I am my own worst enemy. I'm Pharaoh resisting and Moses liberating, Christ's enemy and Christ's deputy, Antichrist\Ach and antiChrist\ach, destroyer of worlds (by murdering Jubilees so far) and slave for salvation (if I aid Yah's Jubilees). Thus: **Why limp on both sides?** Yah & Yas call me & all to Their freedom from slavery, to Their City on Their Mountain of **Zoning Investigating Organizing Navigating**, away from the grinding millstone of **Blindly Assuming Blind Leveraging**. To get there, I must dare to flee my inner **BABL** for my inner Promised Land in **ZION**. When I do, which rebels or devils will join me, a rebel & devil they don't know?

Thus **I must fight the greatest evil in me.** It tries to make me feel irrelevant. It claims the world is lost, people stay mediocre mixed bags, and math can't aid theology. It denies how great Yah & Yas are in me and how evil I am when I resist Them. It rejects the Promised Land They uniquely prepared for me and settles for stereotyping me into a clone, robbing me & everyone of my best gifts. It throws out babies with bath-waters as 'most waters don't realistically contain babies'. Such **Blind Auto Stereotyping Habits** feed **Mistakes Oppressing Life** in slow-motion explosions of **oversimplifying overcomplicating overreach**. That's the **BABL algorithm**, a deadly mind-virus. It destroyed Eden, Jerusalem twice, & kills all who lack ZION's logic for a general Exodus from old² to new³ identities. **From the Sea to the River:** To reach ZION's fabled *River of Life* from today's *Sea of BABL*: that's the 2nd Exodus. It's a personalized hero journey for everyone! Heroes of old slew visible dragons and external enemies. The new heroes *learn* to build & guard their Promised Land in ZION's non-violent ways by fighting their own inner demons to *gentle kind reasonably* overcome BABL's weapons of math destruction that kill by *incurious ignorant indifference*. My Songs help.

1. To endure, it **swaps 'the first' (A) and 'the last' (O)** at Jubilees⁴, as in the 'social ergodicity' taught by *Yas*. **2. Old identities** are shaped by us-vs-them, victims-vs-oppressors, and other lines drawn in the sand. These prematurely sort "good" and "bad" by eating from the deadly **Tree of Knowledge-faking** **ToK**. That tree's 'knowledge' is as catastrophic a misnomer as calling *Homo sapiens*. As a naming expert and biologist I can tell that **Homo serpents** and **Homo amnesiens** are more accurate mind-species names: *H. serpents* for wiggling out of unpleasant situations like a snake; *H. amnesiens*, for forgetting causes of suffering and how to innovate to truly end it. To own my mistakes and to move the needle, I decided to **symbolically** kill my false self, my inner *H. serpents*, and *H. amnesiens*, by leaving my world of whitewashing tons of LIEs to follow Yah & Yas into the desert – **3.** as a **Homo transiens**. I hope to become **Homo balosse**, an individual of Earth's *Balance-o-stat species*, who efficiently feeds & guards all balances in my world via: **4. Proper regular 50-year Jubilees**, 1st seen in Lev25, updated for US. Yah gave me an algorithm to evaluate Jubilee efficiency – but I only saw it 10 years after I published it in 2014 at <https://doi.org/10.1063/1.4901114>

All true learning is an Exodus: it leaves the margins of one's old thought world to stretch one's limits in a wild desert where *nothing* makes sense as anything seems possible. It's magical. It's dangerous. It's innovative. *Yet it's not arbitrary.* Hence it's survival-critical to follow the **'Rosetta 7 Stone of innovation'** **R7S** that I discovered. It's like a compass for innovation done right. I tested it in a ~7-year marathon. It's deep. It's practical. It's used by Yah & Yas to innovate in Heaven.

How to use the Don't Panic Guide to embark on Yah's Ark for the 2nd Exodus:

1. Relax, breathe & **Don't Panic!** Reality wants you to live! There is space for *all*.
2. Pray or **sing songs**. Start easy with known melodies. My lyrics point to "Jack's Ladder", a nimble staircase to Heaven I discovered. You are to connect the dots.
3. Dig into **notes for deep thought** ... so you can see the world in a grain of sand.
4. Use the **songs as blades to resist** BABL's *bashmoling* tyranny of AI: fear not! Recall 1st principles when LIEs offer convenient shortcuts via knowledge-faking.
5. Do **follow Yah & Yas** on their *gentle kind reasonable* path of Grace for *all* in life's 3 top laws: **a. Love Reality**\Yah, **b. Love Individuals**, **c. Love Jubilee's** **Songs**.
6. Grow your **wid-e research** horizon in **microTemples** to aid Yah's open world and *Yas' Continuity Of Operations Plan* (see **Fig.16**) for the Great Jubilee Race.
7. Resist death by default: **Choose life** by investing your ~2+cents/day to help **ResearchCity** *gentle kind reasonably* avert Armageddon disasters (see **Fig.15**).

The basis of my *Don't Panic Guide* is the non-violent, funny Jonah-Esther-Exodus rereading of the biblical book of *Revelation*\Rev that Yah & Yas inspired in me⁵. Eg: It's 'iron rod' isn't a hint at brutality but a gentle tool to stabilize innovation. It shows how to solve apocalyptic innovation problems to send the 4 Horsemen of the Apocalypse packing instead of timidly awaiting the doom they else bring. To guide the 2nd Exodus, *Rev* is a kaleidoscope of nested Exodus patterns; see an excellent introduction at <https://bibleproject.com/podcast/series/exodus-way/>. This *Guide* takes off where [BibleProject.com](https://bibleproject.com) and ~44,000 other leading scholars left off, the giants on whose shoulders ResearchCity must connect dots. Why?

Everything is connected. So, connecting all the dots is all the work in ZION. My 16 Figs offer diverse views on that One Reality that links *all* to *all*. Pace your growth to avoid overwhelm. **Grow daily as Yah & Yas walk with you.** God in all things to vanquish the *nothing* in details. This *Guide* offers broad-stroke visions to flee BABL's hell on earth for **ZION of Earth**, Yah's shining city on the mountain of Jubilee-grade⁴ innovation. All narrow paths to life are unique & lead to ZION; all other roads lead to BABL, kill by stereotyping. Yah grows originals, not copies.

Implications are earth-shattering as AI is pushing humanity over a deadly innovation cliff. I found the lethal "666 bug" in BABL's AI: it's a beastly *lack of gentle kind reasonableness*. Yah & Yas invite *all* to conquer that beast with the ZION algorithm for beating AI errors. But who'll vanquish math-anxiety to learn it? **AI leadership is global leadership. So, who am I?** I followed Jesus\Yas as a computing scientist for decades before I saw *Yas'* invite to tear down my symbolic temple so *Yas* can raise it in 3 days ^{John 2:19}. I'm sorry nuclear roulette had to light an eternal holocaust fire in my eyes to move my *as* to confess my faith-collared crime of Jubilee⁴-murder [by neglect ^{Et.3-33}]. This worst abomination of desolation is the mother of all crimes. All evil flows from my careless refusal to adapt Lev25⁴ properly to my time. As a *Homo "sapiens"* I *thought I knew* better. I resisted Yah & Yas by 'nobly' focussing on well-intended lesser goals – thus enslaving Yah ^{Isa.43:24} and killing *Yas* in the deadliest causality vortex ^{Isa.65:24}, which compiles scientific evidence for **why proper Jubilees are essential for innovation economies**. Without Jubilee-maintenance they *all* ultimately self-destruct! All whitewashing my best intents fails: I'm the most deceptive Antichrist\world-destroyer imaginable, hidden even from myself, for I canceled Yah's Jubilees, thus rigging worlds to self-destruct. *Yas* died to show me of how evil my crime of Jubilee omission is. Call me grandiose or whatever. I've seen the terrifying math. Ignore it at your own peril. I don't deserve a 2nd chance. I'm the prodigal son. I beg Yah to hire me to clean toilets in Heaven, starting with the worst me. My *Songs* ⁵⁰⁰⁻⁵⁰¹² aim to defeat the worst Antichrist, me.

My conscience impels me to openly apply for the position of global big brother technocrat Antichrist\Ach dictator' with the firm aim and a detailed plan⁶ to subvert this role so I become a gentle kind reasonable antiChrist \ach deputy who reliably serves Yas forever. People perish without a vision. Show me better plans for uncertainty capture to make *"Never Again!"* stick, so I can follow them. I beg Yah, *Yas*, Earth's 10 Nuclear Kings, & all: Allow me to atone⁶ for my crimes of omission⁴ before accidental nuclear winter kills humanity. If not me, who else can see Yah's Jonah-sense of humor in *Rev*? This *Guide* hints at my program to **cut Red Sea rules** & red-tape taboos to **ask for Yah's & Yas' 2nd Exodus (Song 12)**:

Help me to let go of everything I know ^{ML53}. *Grind me into dust, cause going there I must. Then rebuild the Tree of Your Life* for me, so I will worship Thee, All Reality, for All Eternity.

Please give my friendly antiChrist candidacy^{6,8} your ~2+cent/day chance (see **Fig.15**), so I can become **Joan of ArkMageddon** to invite Yah's & Yas' *gentle kind reasonable* rule!

Peace be with you! Your friendly aCh-candidate, **Laurence Loewe of Laodicea\LLoL**.

5. *Rev* is the nth retelling of Exodus, Jonah, Esther... describing what I call the **Rosetta 7 Stone** **R7S** [see **#7**] to feed & guard innovation. **Rev is Yah's 1st vision for how world leader Yas can gentle kind reasonably guide the world to overcome all beasts.** Both inspired me to write this *Guide* as the best reply I can. I hope it'll move Them to come & help me improve (or quash it & me before I raise false hopes that make hearts sick, as I refuse to knowingly wreck the world). *Rev* to me is a love-letter, a job ad, an interview Rorschach-test, a job training manual, a 9851-bit encryption of global wealth, a razor sharp take-down of me and millennia of bad church history, and the mathematical theology into I needed! Thanks, Yah & Yas! To reply in kind, I'd need ResearchCity if I can do it at all. This *Guide* is my one-eyed basket-case of a reply: a desperate cry for help at Earth's Armageddon before my Jubilee-murder destroys the world. Any good in my *Guide* I shamelessly plagiarized from Yah's Torah, *Yas' Gospels*, *Rev*, etc., but as I'm a false prophet in the Spirit of Boolean Truth, all errors are mine. For brevity I **"pack ambiguity"** to cut listing all true options, at the cost of sounding cryptic & vague, like *Rev*. It's shorter, but harder to read. Math books may take ~4 readings to get their theory, but Yah's analytics and intertextual hyperlinks are so deep, lifetimes of study & practice can't exhaust them. I doubt *all* humanity understood 1% of *Rev*, *Gospels*, and *Or Torah*. I hope to improve it. **6.** My dare requires me to **live in the glaring light of full transparency** as I scale up ResearchCity's big-tech **Zero Trust IT infrastructure without secret agendas**. I must **fail forward publicly or else I fall**. My *Guide* hints at how. It's my gift to the world Yah loved so much, *Yas* died to get me to write this: **Choose Jubilees to live!**

8. Yah & Yas are The One, the Good and the Best, what is, and what ought to be. As nothing is closer to 1 than 0, join me in asking Both to make me Their 0, to place Their dog-collar 0 millstone around my neck to end **BABL**, as **Fig.15** shows.

9. The *Don't Panic Guide* is free under the Jonah License. [see figs.3/4/] to help save ZION's open international rule-based order from BABL's unwitting Armageddon disasters.

#7. Yah's and Yas' **R7S** logic explains how **challenges and solutions come in packs of 7**. 7 Beatitudes ^{ML2} transform them into **7TrackRoles** that functionally classify any complex society. **7Churches** failed so far ^{Rev.23}. The **7 Spirits of Truth** ^{Isa.11:1} turn them into **7ChangeStages** for governing innovation from self-destructive slavery in ZION. Thrice these "7e echoes" repeat as 7x7x in the Psalms before crowned by a 50th to echo the proper regular 50-year Jubilees, which Yah awaits since Moses' Lev25. 7e echoes inform **Songs** 501-504, which I propose as ZION's 4 official state anthems.

As I race against time to avert all the ultimate disasters, who will help me?

I can't do it alone!

ZoE Songs to Reality \Yah: Good News for Humanity at Armageddon Crossroads

by **Laurence Loewe of Laodicea** \LLoL (see 1)

Songs of Hope, old & new, to welcome the 2025 **Day of Reality** \Allah \YHoWaaH \Yah, to grow hope in the Second Exodus from BABL to ZION, from **Blindly Assuming Blind Leveraging** to faithful, true **Zoning Investigating Organizing Navigating** - by introducing proper Jubilee innovation for AI:

These songs ambitiously aim to redefine the final frontier of manifest destiny for the *Uniting States of Philadelphia* (see Rev.2-3): **Smoke out the true Antichrist** in a baptism of fire designed to end his menacing power once and for all. **How?** With a self-imposed journey from Enemy of Christ \Ach to Deputy of Christ \ach. This crucifies any inner *Homo 'sapiens' \serpens* (eating from the **Tree of Knowledge-faking \ToK**). It's to trust Yah to be raised as true and faithful *Homo transiens* in the Second Exodus: on *The Way to follow Jesus \Isa \YhowShua \Yas* in Real Quests for Real Answers. The latter is the true meaning of "Jesus" as **His name is His program**: who searches for Truth will find it and will be set free. It's the scientific method in a nutshell.

But to succeed one must eat regularly from the **Tree of Life-giving decision-making \ToL**. This requires finding the narrow way past the Flaming Sword of the 4Beings who guard Yah's Throne of true lasting innovation in ZION. The Songs hint at how. History proves: the world is full of Antichrists. All so far reject claims to be "the worst". To end this deadly gridlock at Yas' wedding, **LLoL decided** to stay lowest ^{MT.22:11}.

1. Here "\ " always defines **different labels as perfect synonyms** for a given identity to **highlight diverse aspects** more easily.

In LLoL's great tribulation since 2018 Yah's 7 Spirits of Truth inspired these lyrics. They're offered to Yah & Yas as LLoL's prodigal son confession, maybe more. Who knows if Yah, Yas, and all can be moved by these songs to call off that accidental nuclear Armageddon? Because for now that dire fate does appear to be locked in by nuclear roulette ^{see Fig.15.n}. **Better proposals & battle songs** ^{Rev.19} to willingly **convert the Antichrist are welcome! Yah & Yas certainly earned more than 1 such proposal !!** LLoL hopes singers like Dua Lipa, Kate Perry, Taylor Swift, ... and review by Pope Leo Xiv will help turn these lyrics into a captivating soundtrack for **welcoming Yah & Yas** to lead the 2nd Exodus!

So0. Song 0: Yah HaHaHa, 2025 LLoL Rewrite

Aim: Dedicated to the sheer joy of truly living in Reality \Yah by fleeing from BABL to ZION in an everlasting Exodus governed by proper, regular 50-year Jubilees. These lyrics cram So1-So11 into a shell of Laboon's favorite pirate song from Eiichiro Oda's *One Piece* [see e.g. https://onepiece.fandom.com/wiki/Binks%27_Sake]. It's like Yas' Torah nutshell: **1. Love all Reality \Yah first. =equals=** **2. Love all people. == 3. Love all real systems via real Jubilees.** ZION gets why. BABL keeps forgetting, thus dooms itself forever.

So1. Song 1: Come by Yah, Real Way

2022 Rewrite: Laurence Loewe of Laodicea\LLoL\| Free under Jonah License MMv1, iv_LLLoL_RRv1_2025m05d12

Aim: Refocus on Reality to break the iron grip of the Law of Triviality that keeps Laodicean generics in a busy-slumber-like state of inability to change.

How? Speak, sing, think, adapt, cry, translate, meditate ... the words to mean them. Singing without meaning wastes time.

Best keep it personal (I, I'm, me, my) to let unity emerge. Careful with claiming local unity (we, we're, us, our) as Yah is Reality and hates fake unity, so avoid weird magic. To sing it for all (all, all're, all, all's) requires John17-grade dedication to unity, as does singing it for others (they, they're, them, their) – unless they specifically ask for such prayer.

Background: An abolitionist song to avert Armageddon

This traditional African American Spiritual is a powerful witness of Yah's Pan-En-Theism in Exodus 3:14, Mt.25:31-46, ... Smartly encoded as "Kumbaya" to escape the suspicion of their enslavers, it implements an outcry like the one that freed Israel from slavery in Egypt. Who knows how this song helped in the spiritual battle to end slavery? LLoL's extended lyrics reflect the even more desperate situation of humanity at its AI Armageddon. In **So1** 7 verses echo all 7 ChangeStages ^{Rev.2-3} required to defeat the 4 Horsemen of the Apocalypse.

So1.a decodes and extends traditional lyrics of "Kumbaya".

So1.b offers a better overview of the Armageddon dynamics of prey-victims (obvious scarcity) created by predator-victims (in a spiritual 'busy-slumber' of not knowing what they do).

All So1 songs call the Power who ended the legality of slavery to revisit all slavery-related conditions of today. To sing So1 while focussing on the known problems of real people in disaster areas – e.g. responding to news – is a safe way for many people to contribute to a solution by crying out to Yah!

Surprisingly, often not much more info is needed, as Yah knows all details anyway – except for this: **do people's hearts really care enough to see a given change for the better?**

An easy way to underline one's care is to lift the hands while singing. This echoes how Moses prayed ^{Exod.17:11} while Joshua's RealityWrestlers fought Amalek\TheLawless. Who knows how many lifted hands Yah expects to end all hard-wars forever?

Let's lift the spiritual temperature of care on Earth to strengthen hope and fan the flames of empathy that inspire solutions to stop slow-motion explosions of violent nonsense.

Where attention goes, energy flows. May this old-new song connect people to Yah's *gentle kind reasonable* ideas for action, in and out of official meetings, to avert humanity's meltdown at Armageddon. **Let's reduce the heavy burdens carried by all eventually until ZION of Earth balances all fates!**

So1.a |: Come by Yah, my Lord, come by Yah! :| x3
Ending E.: oh Lord, come by Yah! E. =E1
Someone's **pray- ing**, Lord, come by, Yah! :| x3 E.

Likewise: **grateful, faithful, hoping, caring, daring, waiting, crying, dying, ... trying, laughing, ...**

So1.b Contrasts given are not perfect pairs, but that doesn't matter as long as all judgement is left to Yas. See Mt.25:31-46.

Someone's **starving** Lord, ... **gobbling** ...
... **thirsty** ... **guzzling** ...
... **fleeing** ... **haunted** ... **haunting** ... **chasing** ...

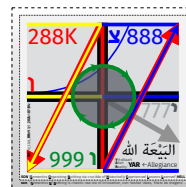

... **suffering** ... **careless** ...

... **terrified** ... **terrifies** ...
... **lonely** ... **ignoring** ...

Mend **my** Soul, Oh Lord, ... M.O.S. ... All Souls ...

Heal **my** heart, oh Lord, come by, Yah!
Take **my** heart of stone, come by, Yah!

So2. Song 2: I confess My Way – 2023 Lyrics Rewrite by Laurence Loewe of Laodicea\LLoL\me

Aim: For me, as a frank & true Imperial Roman German X-gen science compiler WASP in US Laodicea: I wrote my lyrics to help me move out of my (I hope past) Laodicea-BABL life style of aspirational self-congratulatory coveting of illusory control, which tricked me into consuming too much, while giving too little. My escape from BABL to ZION will fail if I forget where I started. Like a compiler, I assess here my need to be debugged given all I know. I side with Truth best I can, even if unflattering.

For You: is for YHoWaaH\Allah\Reality\YAR\God\Yah & Yas\YhowShua\RealOutcrySaves\Jesus\BestFriendForever\LoveOfMyLife, who put unfathomable work into designing the best life I could ask for, walking with me, waiting for me! What a patience!

For'y'all is for humanity: family, friends, neighbors near, far, & unknown: How can I selfish fool ever compensate what I destroyed?

1. AMO-EPH, 0 × 0 × BA 1

Armageddon is here:

and so I face the final curtain.

My way, frank, true and clear

I review here, of which I'm certain.

You've blessed and loved me much,

I traveled far, was rich in my way.

And yet, my love grew cold:

I *fucked up* \screwed-up my way!

2. HIT-SMY, 0 × ASH × 0 1

Mistakes, I made galore.

But then again, I barely saw it;

I rushed myself too much,

bashmol-ed 1 my life and others with it

I did worse for y'all all,

Ignored Your Jubilee on my way.

I coveted control:

I *fucked up* \screwed-up my way!

A. Chorus CAN-PER, 0 × ASH × BA 1

Yet, there were times,

I'm sure You Know,

when I was right

in Your Meadow. \see Ps.23

I could have stayed,

but ran away –

You went and searched

my whiny way,

You faced my worst

and You endured:

me *fuck up* \screw-up my way!

3. PHE-THY, MOL × 0 × 0 1

I've loved, I've laughed and cried,

I've over-filled my life with nonsense.

I've caused too many tears,

yet rarely rarely saw with a clear conscience.

I saw: how You still cared,

– and may I say, not in a small way –

and yet, I trashed Your World!

Debug me Your Way!

B. Chorus JEB-SAR, MOL × 0 × BA 1

What of I've got,

You didn't give,

Except my L.I.E.s, \LIEs see 1

S.I.N.s, fails to live? \SINs see 1

I give my D.E.A.T.H. \DEATH see 1

for You to kill,

in words and deeds

– and yes, I'll kneel!

Please save Our World!

Debug me soon!

Let me walk Your Way!

C. Chorus HIV-PHI, MOL × ASH × 0 →OpenDoor

Where can I go

where You are not?

You catch my fall

in every rut!

Teach me Your Ways

to see The Weak

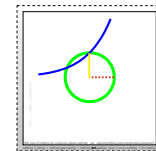

and make me real,

a-new each week

so that I walk

Your Narrow Way:

Your Jubilee-Way!

ZION's MIS Flag shows confusion about nothing as in when "nothing works" but "nothing went wrong", yet nobody can pinpoint which ambiguous semantics of nothing is causing the errors observed. This vulnerable state may need gentle kind reasonable nurture to help see how bashmolling harms this system.

D. Chorus =C. GIR-LAO to resist BA × ASH × MOL

1 To **bashmol**, from BaAshMol, is a verb I created to mark the Laodicea's death-trifecta of **oversimplifying overcomplicating overreach**. The names reflect abstract variants of the idols that killed most innovation in Ancient Israel: **Baal**, **Asherah**, and **Moloch**. My *wid-e* research links Ancient Hebrew insights, my cutting edge systems modeling, and my compiler construction expertise in order to mechanistically justify how I map the above nicknames to defining acronyms like below, respectively. This helps me to track these intangible nefarious idol mirages as I work to debug my life and world. To avert Armageddon, humanity must scale up global ways to *gentle kind reasonably* resist these in time:

BAAL as in **Blindly Assuming Authorized Leadership** as in **OverSimplifying**, like a bullying bull of **OSCR SEA**
ASHERAH as in **Automating Stereotyping Habits Erroneously Rounding Against Hope** **OverComplicating**, like fake-decision trees, **COP**
MOLOCH as in **Mistakes Oppressing Life Obliterating Crucial Help** **OverReaching**, like overruling **Leviathan ORCS LPI** **ISMR**

Adding chance events, these drive the **4Horsemen of all Obliterating Apocalypses** (in kaleidoscopic fractal reruns, see Rev.6) to corrupt the complexity of any system until it reaches its Armageddon – unless it learns from Yas how to stop innovation gone wrong (e.g. through the **Rosetta 7Stone in Yas' Revelation**). The 4Ho kill by **Least Inconvenient Explanations** leading to **Structurally Inconsistent Notions** that cause **Driven Evaluation Antagonizing True Hope**. Yas taught resisting 4Ho [Mt.13] but was bashmoled for *nothing* before he could explain how R7S helps overcome all AMO, HIT, CAN, PHE, JEB, HIV, GIR [7Tr] via [7Ch] EPH, SMY, PER, THY, SAR, PHI, and LAO to heal BABL's 666 bug [see SD6,27, ...]!

Original song "My Way" has a complex history and many adaptations (see https://en.wikipedia.org/wiki/My_Way). Released by Frank Sinatra 1969, the year LLoL was born.

In Se Magna Ruunt Including Self-Magnifying Ruining by combining Self-Elevating Authority with Corrupt Optima Perversion to get Latifundia Perdidero Italian Leverage-hoarding Perishing Innovation That in a nutshell is the Blindly Assuming Blindly Leveraging BABL millstone of self-destruction by conjuring up idle idol mirages from nothing only for showing off the brutish power nothing! Let's end that!

So3. Song 3: Take both my hands for holding – 2023 Rewrite by Laurence Loewe of Laodicea

Aim: Getting closer to Reality \Yah and RealQuestAnswer\RealOutcrySalvation\YhowShua. LLoL\I realized my utter dependency on both to guide and save me from the bashmoling death-trifecta of oversimplifying overcomplicating overreach. To me Julie Hausmann's original 1862 German 3 verses "So nimm denn meine Hände" long echoed deep intimacy with God, as in the Psalms cited. **This song follows the Rev.2-3 7ChangeStages of true innovation** to self-stabilize by refocussing on Reality to avoid the H. "sapiens" death-traps of knowledge-faking. The key? An ever closer bond to follow the RealQuestAnswer that Reality blesses\anoints\approves, as in this song. That's the only way to avert AI Armageddon: Live2Love Reality & RealQuestAnswers. This song asks Reality to help me kill all my idols = illusions = fruits from the **Tree of Knowledge-faking \ToK** in order to save humanity from me and itself. This rewrite retranslates & extends the German original "So nimm denn meine Hände" (3 verses, 1862) by Julie Hausmann (1826-1901) [to 1843 melody by Friedrich Silcher for "Wie höhnt' ich ruhig schlafen in dunkler Nacht" by Agnes Franz, 1838]. Other 3-verse translations: "Lord, Take My Hand and Lead Me" (Martha Lange, 1986) & older (by H. Brueckner & E. Jorgenson).

3. PER test: CAN vs 0 × ASH × BA

and I will abide.

4. THY test: PHE vs MOL see So2#1 × 0 × 0

and find What You Seek.

5. SAR test: JEB vs MOL × 0 × BA

When I think I'm OK but
I fail to see,
how someone else is better
at serving Thee,

keep me from fighting Your Ideas
in some-one else,
and wake me up to grow ears
and strengthen their wells.

6. PHI test: HIV vs MOL × ASH × 0 → Door Rev.3:8 to improve

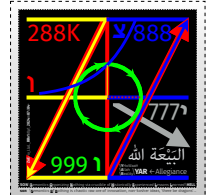

When I get all confused
over what is true,
aid my blind search to fuse
all my truth to You.

Help me reject all famous claims
where they can't stand,
and bow to all Your True Aims
revealing Your Hand.

7. LAO test: GIR vs MOL × ASH × BA

When options overflowing
seduce my soul,
keep coveting from hiding
Your slim SLIM Goal.

Burn all my shortcuts in Your Flames
'til You Explain
Your Well-Integrated Round Games,
for Jubilees' Gain.

ZION's KO Flag shows:
A MIS-confusion about nothing
has been diagnosed and work
to repair the breach has started,
but is not yet complete. As some
bugs can be hard to fix, external
help may be needed or welcome.
In all cases patience is key to
allow for a proper
solution to grow.

Many problems are made worse
by hurried attempts at "fixing".

German engineers call it
"verschlimmbessern";
maybe "to crapimprove"
is a worthy translation:

for the aim
to improve
is noble, yet
the shortcuts taken ensure that
quality is degraded because they
add more crap to the system.

The core problem with BABL
is its inability to ween itself
off its knowledge-faking
shortcuts that crapimprove
BABL until its final demise.

ZION wins the
innovation wars by being
explicit about what is and
what is not crap and how
to learn from mistakes.
Hence, the 4 ZoE Flags.

So, don't hurry this
dark state and give
the system the time
it needs to repair.
Daily rhythms teach us
that going without sleep
is not healthy. Why
should it be different
for other systems?

So4: Battle Hymn of the Republic, 2023

Aim: Let's end hard-war through non-violent research!

If war doesn't need God, but can't be started without a devil, let RealQuestAnswer trap the 0 devil in the light! The 2023 Lyrics by Laurence Loewe of Laodicea\LLoL update African American Heritage Hymnal #490 (2001) with 7e echoes the Red Rider of Revelation 19 may use. The original by Julia Ward Howe, published 1862-02 in The Atlantic Monthly was written 1861-11-19 in a burst of inspiration see Rev.19 etc. to reduce doom & gloom in the war against officially legalized slavery.

8. ZION

Mine eyes have seen the glory
of the coming of the Lord;
He is trampling out the idols⁰
where LIEs, SINs, and DEATH are stored;
He hath loosed the fateful lightning
of His double-edged sharp sword: \word
His Truth is marching on.
Chorus:
Glory! Glory! HalleluYah! Glory! Glory! HalleluYah!
Glory! Glory! HalleluYah! His Truth is marching on.

7. LAO

I have read a fiery Gospel
burned by Laodicean cash
it perverts YhowShua's message,
buys and turns our fate to ash.
Let The Hero, born of woman,
crush all A. I. with His Math,
Else Yah is moving on!

6. PHI

I have seen Yas in the watch-fires
of ten million research camps,
Each is building Yah an altar
in the evening dews and damp;
I can read their glorious insights
with my dim and flaring lamps;
Yah's light is flooding in!

5. SAR

Yas is calling out big bullshit
for the nonsense that it is.
Yah is showing rich enslavers
how they hurt each child of His.
They're not bought by Croesus' money
nor swayed by publicity.
They comfort all the weak!

4. THY

Yah has sounded forth the trumpet
that shall never call retreat:
Yah is sifting out all human hearts
before Yas' Judgment Seat!
O be swift, my soul, to answer Both,
be jubilant, my feet!
Yah's Jubilee will win!

3. PER

Both invited to Their Wedding
every friend and enemy!
They are valuing all Feedback
from the likes of you and me!
They interprets all the data
to serve all humanity!
They count nobody out!

2. SMY

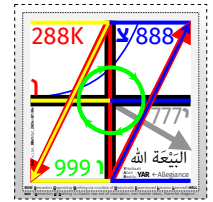

They are blowing on Their Whistle
till Their Winds of Change gain form,
and Their witnesses of Truth rise up
to speak into the storm.
They reward smart courage with the
chance of leading a reform.
Their ZION comes to Earth!!

1. EPH

In the beauty of a stable
Christ was born across the sea,
With a glory in Yas' Being
that transfigures you and me;
As Yas died to make us holy,
sapiens died that all be free!
YhowShua marches on.

Notes:

1. A determined stop to integrate fruits from the Tree of Knowledge-faking may get humanity a chance to avert Armageddon – if not too late. Everyone must learn to gentle kind reasonably kill one's own death-trifecta idols of OverSimplifying overComplicating overReach \OSCR. People must learn this before they can possibly teach AI. Hence this battle hymn. Dealing with abstract idols drawn from an abyss of nothing via OSCR is hard. Let's help people to not lose hope via inspiring soft-war songs that recall key insights on how to fight idols without killing people (e.g. see 888 SLIM elsewhere). Because if people lose hope and don't fight those abstract idols, only one alternative remains: they will needlessly fight each other! Unless stopped, all humanity will end unceremoniously in a bloodbath at Armageddon. All die in Rev. 19:21; LLoL calls for a symbolic interpretation of death.
2. "bosom" replaced by: "Being"; but Isa.66:13, "matoi" in Rev.1:13, ... may also suggest "boobies". So, YhowShua may return as a woman!
3. Truly holy = trifecta-holy = gentle kind reasonable = needs all 3 to not be "singly- or doubly-deficient holy"; like typical for Laodicea.
4. Here "let us" is replaced by "sapiens" for Homo "sapiens", implying that Jesus\YhowShua is the only true Homo sapiens who ever lived. All others are nearly dead on arrival due to overwhelming stochastic chances to die from knowledge-faking in all known cultures of any H. "sapiens". Hence, admitting to be dead meat is the only way out.

ZION's OK Flag shows: A new cycle of innovation has been completed by coming out at the other end of a previously confusing dark state, like a small Exodus experience! Whether small or huge, each victory deserves celebrating: join the party to meet a better Semantics Organizing Nothing.

Yet, don't mistake this win as final, because each new day of innovation gets a new set of plagues! Yas warned in Mt.6 about light that could become dark again. So, don't blindly assume that yesterday's nothing is the same as today's zero!

Note 0: Such deadly idols are fueled by Least Inconvenient Explanations \LIEs causing Structurally Inconsistent Notions \SINs until finally Driven Evaluation Antagonizing True Hope \DEATH kills what can be. It's a universal death-trifecta. For details, see bashmolling ... OSCR in Song 2.

So5: You break through all barriers 2023

Aim: Encourage witnesses to overcome at Armageddon.

If only it was clear how! This song aims to aid those willing to unpack the concepts it refers to. The German song original has been dear to LLoL since published by Mario Schaub 1993, ("Du bist der Durchbrecher). LLoL's 2023 translation deex adds key results from his *wid-e* pandemic research marathon, a **wid-e \wide interdisciplinary diversity-encouraging** quest that led LLoL to a rigorous, non-violent Jonah-Esther-Exodus re-envisioning of *Revelation*. This new view takes all relevant texts even more seriously than "literalist" commentaries do!

This demands a *gentle kind reasonable* **rewrite of what it means to be a Martyr for Allah**: Merciful Allah no longer asks anybody to blow themselves up to kill others! That was only necessary in the past, because LLoL wouldn't have believed otherwise how serious Yah's Jubilee-imperative is. Hence all related guilt is on LLoL. From now on, **Allah honors** whoever speaks up for the truth, especially as **whistle-blowers** with important evidence who put their own lives at risk. These are the real Martyrs honored by Yah\Allah! See Rev.12:11, Rev.6:9-11.

Notes:

- Ruts limit, and pits freeze concurrent computations by live-lock & deadlock, respectively. They imprison AIs and people alike. See Song 2 notes for how.
- Driven Evaluation Antagonizes True Hope**, which empowers **Mistakes Oppressing Life**.
- Rule by **Structurally Inconsistent Notions** fails once its logics flaws become clear to all.
- Epiocracy, the rule of *gentle kind reasonable* justice that respects all **3 Types of The View of The Weak \3WoV**, which includes all the weak (*beginners, producers, experts*).
- The **Least Assuming Method Blade** cuts assumptions at the bleeding edge of research: be as simple as possible, not more (e.g. Einstein assumes less than Newton). See Refs: Rev.6:9-11, Rev.12:11, Mt.5-7, et al. show that Yah appreciates whistleblowers especially.
- Reality is used interchangeably with YHoWaaH\Yah\Yahweh... see Exod.3:14; Mt.25:31-46.
- Willingness to risk death for uncertainty capture (e.g. as police & soldiers do) is very different from being suicidal or being brainwashed or forced into a suicide mission!
- Boolean logic powers all computers! Imagine what Yah can do by aptly combining it with fuzzy logics, ..., and *wid-e* research to combine all genuine human insights!
- Mustard seed faith to sink mountains + sycamores + BABL. See BABL millstone in SD6.
- Least Inconvenient Explanations**, often sounding "true enough" to not be an obvious lie ('truthy'), while still being misleading. This is a big issue for both AI and humans.
- Reality\Yhow + Shua\ Outcry (see 1.Chr.3:5) + Shua\ Saves: name is program: Mt7 'who searches [for real] will find' RealQuestAnswers. It's the scientific method in a nutshell.

Evolve BEST Names for Semantic reproducibility across code/train interfaces: Ann.NVAS.1387:124-144. -- LLoL discovered the Tab1 WoLC definitions on his quest for a long-term stable way to organize the myriad varying tasks a century-stable Evolvix core compiler framework must handle to translate human-readable code into computational tasks for meaningful results. Initial inspiration (apart from lots of computer science and logics) came from realizing why Trust Hope & Care in 1.Cor.13:13 (Faith, hope, love) are necessarily eternal (unless heaven is a boring rut or pit). Next, LLoL saw similar mechanistic rigor in J.D. Bernal (1929 world; 'flesh, devil') R1, cited by a land-mark study on spiritual warfare R2. Breaking down Bernal's oversimplified devil ('all thought'), LLoL's pandemic *wid-e* research marathon led to a functional core WoLC by mid-2020; but it took longer to define rigorous foundations for logics and to differentiate 'Good in all things' (a Zohar-like VOID) from 'the devil in details' (a confused nothing). Testing his *Jonah Semantics* JS since mid-2020, LLoL saw 2021-2022 how this JS opened a new exciting, non-violent way to rigorously interpret the Revelation of YhowShua. Informally, the JS assumes Yah's overall goal for naming is *gentle kind reasonable aid for justice* for all **3 Types of The View of The Weak \3WoV** (*beginners, producers, & experts*). Hence, the JS motto '*nomen est omen*' is surprisingly fruitful for assembling a grand map of the 2nd Exodus from prophetic echoes in the 1st Exodus (among tons of other places). LLoL finds Yah chose important names in the Bible like a good programmer (see R3) and invested at least as much care to fight semantic rot as Loewe et al. (2017) describe. If so, the 12Tribes order of Israel's desert march in Num. 2 and the order in Rev.7 most likely convey key messages. Triangulating many diverse lines of *wid-e* evidence in sciences, engineering, design, humanities, Torah, Hebrew Prophets, Zohar, Gospels, Apostolic Writings, Quran, history, and more led to the WoLCs shown here. ZION's WoLC in Tab1 is now LLoL's top candidate for organizing information workflows in the next core Evolvix compiler design, under re-architecting to offer a century-stable evolutionary software architecture. LLoL's vision and plea to Yah is to make Evolvix a Zeph-39-grade language. Permanently banning the dangers of an AI Armageddon on Earth will take no less. --- **Sources**: R1 J.D. So6. Song 6: Teach me to pray

Aim: Develop meaningful ways to connect to Reality

by staying in constant dialogue with Yah\Allah\TheMostHigh. The 50x/day was inspired by a report from Muhammad's famous Night-Journey, where he met Allah who had asked him to teach his followers to pray 50x/day, maybe to echo the life of Isa\Jesus\Yas. Yet, instead of asking how to best do it without gridlocking the life of all who try this, Muhammad is said to have discussed this with Moses and Yah in order to negotiate this alleged burden down to 5x/day, which is what Muslims have been learning to do each day up to today.

As a Baby-Muslim, LLoL admires how so many people can manage to do this so well, for so far he hasn't been able to work out any regular routine that did not ossify into a brittle ritual eventually. Thus, LLoL likely serves as a laughing stock for Heaven and all devout "prayer warriors" who learned to control their daily rhythms well enough to know when to pray 1x/day, 3x/day, 5x/day or whichever way. LLoL is Baby.

LLoL is profoundly at a loss for how to best organize his life of prayer. He knows that this is of utmost importance. For if we run, Yah waits, but when we wait for Yah, Reality moves! LLoL has gone back and forth between so many ways of how to organize his prayer life and can make a case for many different ways of doing it. Yet, all these oversimplify the search for what Yah really wants. Being tired of his *Blindly Assuming Authorized Leadership* (BAAL service by simply "choosing anything to be done with it"), this song expresses his wish that Yah & Yas teach LLoL how to pray without any BABL compromises that end up killing all via OSCAR, prayer included. Thus, until he learns otherwise, LLoL prays as it fits each day, asking for Yah's will to be done, hoping Yah & Yas will teach him how to *Ora et Lab-Ora* 50x/day (or whatever Their possibly updated recommendation might be), so that LLoL learns to naturally stay in contact with Reality *always*.

Curiously, there is the story of LLoL's namesake *Brother Lawrence*, a Carmelite Monk who wrote a famous book on "The practice of the presence of God". He learned to do everything together with Yah, peeling potatoes included.

Surely, to live in the awesome Presence of Reality matters more than mindlessly ticking off todo-items calling for that! May Yah have mercy and teach all to pray ... 50x/day ...

So8. Song 8: All my time and life, 2023

Aim: Encouraging all who struggle in a great tribulation.

In great struggles Homo amnesiens often forgets that Reality \Allah\Yah is All in all as the Supreme Being: First and Last, Highest and Lowest - hence also suffering with all trapped in deep pits ... hearing all their cries! It's as true in disaster and war zones, as in other forms of fatigue. Peter Strauch, W-Germany, 1980 wrote "Meine Zeit steht in Deinen Händen" in a great struggle, thereby encouraging many others, like LLoL's mom at the time. LLoL translated this song 2023-12-02 after his mom reminded him how much it had helped her 1980-82. This song is a conversation with Reality\Yah. LLoL's lyrics are free under Jonah License MMv1, iv_LLoL_RRV1_2025m05d11

Chorus

All my time and life stand still in Your hand!
(4 Dimensional spacetime rests before Yah to await 5+D adjusting)

Now I can rest in peace and refresh in You!
(ShAbbat Shalom!)

You are my Fortress Yah,
You will turn all harm away.
(ShAbbat rest empowers to avert Armageddons. See Isa.30!)

Give me a heart of flesh
make it strong in You.
(Ez.36: replace exoskeleton heart of stone with inner strength of a heart of flesh, supported by a robust endoskeleton)

1. Worries torture, try to wear me down.
What tomorrow brings I do not know.
But You love me, You'll not let me fall!
Abba You will stay with me.

2. Hurry, business, time constraints, and needs
try to catch me, hunt me down.
Yah I cry out: Come and set me free!
Lead each step of mine to thee!

3. Helpless I see: time keeps moving on!
And I wonder where it went.
How did I advance Your Jubilee?
Father that is beyond me!
(For I cannot tell what really matters from what I merely imagine matters!)

8b Swap: my -> our, I -> we, me -> us, mine -> ours.

So9. Song 9: I Have Decided, 2023

Aim: Abdicate to end the Homo 'sapiens' claim of "knowing" how to plan what is best. Rev. 21 shows neither cowards nor standardized cookie-cutter believers get into ZION: Every one will be taught by Reality in their special courage-curriculum!

To follow this yellow brick road into Yah's Promised Land requires overcoming the ruts of the inner 7TribeRoles AMO HIT ... GIR that kill innovation in ruts and pits. Facing my \LLOL's Laodicean behaviors showed how I am my own worst enemy, often by premature "planning", a form of BAAL worship via Blindly Assuming Authorized Leadership. This inner "control freak" in me is the worst Antichrist I'll ever face. It easily derails worlds. Here I decide to trust Yah more than myself in how to heal the mark of this inner beast that controls the world through Leviathan-length causality chains [benefitting me as a WASP, whitewashing my murderously oversimplifying BAAL ... for convenience].

It's my plea to Yas for a Thecla-baptism by fire, so I stop torching paradise on Earth and start harrowing hell with Yas. Since 2023-12-09 my lyrics (adapted from Michael Card's 1981 song in my Amy Grant songbook) affirm my trust in Yas to use Yah's hot Least Assuming Method Blade, to replace my cold stoney heart and hot-head with a hot heart that cares and a cool math-mind to find ways to implement solutions, so that I (and all) find back to Yah's home!

Chorus:

I have decided!

I'm gonna live like a believer,
burn to HELL my self-deceiver,
I'm gonna live what I believe.

I have decided!
I'm gonna take my cross and follow,
for my planning is too shallow,
I'm gonna leave it to YHoWaaH.

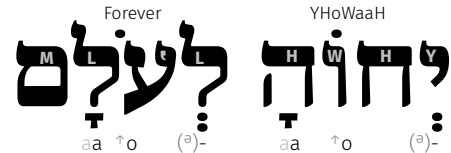

1. There's a wealth of things that I professed,
I said, that I believed,
but deep inside I hardly changed,
I have been self-deceived.

'Cause a voice inside kept tellin' me
I'm bad if I don't win,
but the Spirit made it clear to me:
why that puts me in a bin. -> Chorus

2. I now see being good is not a game,
Truth hates self-righteous pain,
'cause the only good inside my heart
is the good YhowShua \RealAnswer gains.

As I change the world I don't expect
that people will applaud.
I'll keep my eyes on Yas to harrow Hell,
so I can walk on with my Lord \YHoWaaH\Allah. -> Ch.

So10. Song 10: O HELL Raising Revival

Aim: Prepare for the resurrection of the dead by speaking to DRY Bones like Ezekiel in Ez.37. LLoL began this 2014 in a dire context where all hope seemed lost, then kept pondering the Ark of the Covenant and Holy Grail hidden here by the 4Beings around Yah's throne see SD2,SD6, Ez1, Rev.4, et al. Deexcerpting & wid-e research led to this deex song since 2023-10-27. It's a declaration of intent in The Name of Yah\Reality to all sorts of dry bones. More elsewhere on how this declaration has been evolving.

How So10 may help raise HELL... Raising the dead requires extraordinary innovations in the area of reconciliation (→SD7), because countless disputes will require resolution when DEATH is swallowed by LIFE for all. Life in ZION requires memory for **Evolving Diversity Encouraging Negotiating VEDEN**, but life in BABL is predicated on conflict-resolution by oblivion (= death). What BABL aims to forget, ZION aims to get for its crystal lake of salty **Historically Experienced Lessons Learned HELL** (→SD6). The whole point of 50-year Jubilees is: "Never forget!" and Yah installed 3 annual conferences to coordinate: Passover remembers all pasts, Pentecost is to act NOW, and Shelters atones to dream for the future.

This flag of ZION of Earth (here in its open working OKO state) is a cartoon of **Yah's Square of ZION Innovation** (= Yah's Altar for logical latrine service Rom.12:2 by all who love Yah with their minds Mt.22:37). It's defined by Yah's **4Beings** Isa.6, Ez.1, Rev.4. Many fractal aspects of all worlds echo the 4Be (eg. R.1-7, So10 above).

HaSchem, TheName of Reality is here written as YHoWaaH, to de-emphasize the Sheva, ensure the end is stressed "aaH", and by using a German W to emphasize that **HoW** Yah is doing things will forever keep everyone on their toes until they go "aaaaHHH" – full of adoration for the ultimate genius of Yah!

So11: Amazing Grace for Jubilees 2025

Aim: Reliably convert the Antichrist to Christ for all eternity by transforming Christ's worst enemy \Ach into Jesus' most reliable deputy (antiChrist \aCh). It elevates the Official Way of RealQuestAnswer by subduing all inner *incurious ignorant indifference* that opposes Truth. To succeed, this worst Ach must **(1)** be found, **(2)** see the error of Ach ways, **(3)** see Yas' way out, **(4)** want to be aCh, **(5)** do it by re-forming to follow Yas into working on restitution *for all*. Hence, any *true* Ach candidate must volunteer, become an expert debugger of his own "human condition" to see its inconsistency, get why Yas' Way is the *only* way out, and follow Yas' cross for real forever.

Many ways exist to reach this song's punchline of seeing one's personal responsibility in killing Yas ^{Mt.25:31-46}, one way or another. John Newton wrote this song after a career in the transatlantic slave trade showed him the need to become all siblings' keeper. LLoL refined his lyrics in the great tribulation of a ~7-year research marathon, racing to avert Armageddon, building on decades of experience as a follower of Yas, as a scientist, and as an expert systems modeler. Newton had the first-hand shock over his guilt from enslaving. What shocked LLoL out of apathy was his 2020 scientific and spiritual detective work that showed his culpability before Yah due to LLoL's lack of care to warn ^{Ez.3+33}, despite a clear ^{Ez.3+33} call and ability to do so for CoViD. Once he was willing to take responsibility for his scientific mega-death CoViD failure, the resulting quest for mathematical theology transformed him to see why *Newton wasn't being poetic in verses 4-6*. Apparently Yah and Yas are still seeking someone willing to accept full ultimate responsibility for all that happened in history.

LLoL's full indictment (details elsewhere) is complex as his worst errors are by omission via gross wanton negligence of what should have been obvious (given what he knew at the time). Yet, his pandemic prep-failure is only one of several lines of evidence. His systemic lack of care for proper 50-year Jubilees is much worse (as Laodicea's history shows). Is LLoL' alone? Others may see similar data if they pay close attention. The Apostolic Writings preserved enough to make some of their causal blind spots traceable for LLoL. Yet, like zero-day exploits, Ach-bugs hide well in plain sight, like angels of light. Finding them borders a miracle. To LLoL his discoveries are the Great Pearl Yas spoke of.

So11 uses 7e-echoes of ZION's 4-phase innovation engine to interpret the 13 silent marches around Jericho ^{Jos.6} as deep symbols for how Yah breaks into new areas of innovation by learning from mistakes and working towards overall balance.

To cut ambiguity about violence in 2025: the 2nd Exodus is about ending *all* hard-wars forever. Violence as a means to that end is self-defeating. Therefore, First Exodus battles (eg. Jericho) hold only strictly non-violent lessons in LLoL's call for a *gentle kind reasonable* Jonah-Esther-Exodus rereading of Revelation. **Yas pioneered ending all violence non-violently. It's the only true way to win.**

The Escape-Hatch for Humanity in the Valley of Decision at Armageddon

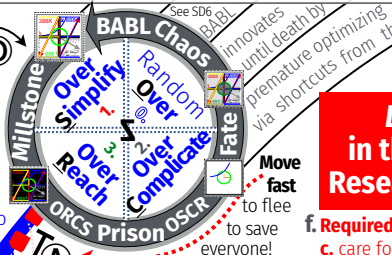

a. Nuclear roulette forces a global choice: death or life. Here **Laurence Loewe of Laodicea \LLOL** defines a wager to choose life at Armageddon by enabling the *gentle kind reasonable* research required to save the world. "LLOL's Wager" is unavoidable because: (1) Short-term thinking locks in existential threats ^{see d-n,k}. (2) Systemic aid is stifled if 'money must multiply'. (3) Idle idol 'growth gods' naturally implode. (4) Checkmate, as no escape is

known from dooming humanity for its lack of *gentle kind reasonable* life-giving decision-making. Refusing death, LLoL as a systems architect hunted this bug for 7+years. He found: it's *his own* Abrahamic faith-collar crime of murdering proper Jubilees! Why is the world so screwed up? Because LLoL asked God for scientific proofs that Jubilees matter before daring to call for catching up on millennia of lost Jubilee-innovation ^{Lev25}.

So God tears up the world ^{Isa.65:24} until LLoL (or anyone) dares to solve Earth's nefarious Big Brother dilemmas by organizing Earth's first Great Jubilee Race. To atone **LLOL now pleads for all** and for LLoL's life: **please help him to explain the 2nd Exodus** to escape the BABL mind-virus of self-destruction **on a personal hero journey** to innovate hearts & minds! This raises myriad questions. LLoL has research answers & **Continuity Of Operation Plans**.

b. BABL's Millstone is the generic trap of **Blindly Assuming Blind Leveraging**:

BABL's self-organizing mind-virus of confusion destroys all who fail to resist. Its guises metamorphose like frogs. It kills reasonable steering until all governability is gone. **BABL falls like a hammer**, fast and final ^{see Rev18, Judges 9, ...}. It avenges all who were wronged ^{see Mt18} by robbing their future. Earth will lose its future to AI pied pipers if it fails to pay up! LLoL offers a *gentle kind reasonable* way to pay.

e. Unless others have provably better ways to fight true evil, LLoL's Escape-Hatch is **Yah's 2nd Exodus way out of BABL prisons**:

Let my people go to worship Reality \Allah \Yah in the 1600 Talent Stadia of the expertly evolved ResearchCity envisioned by the Prophets of Israel!

That is why a credible ResearchCity must be so huge. LLoL's has detailed plans for how to scale it up effectively (SupportingDocs SDB).

LLoL as a transparent **Joan of ArkMageddon \JAM** escapee ^{Lev16} antiChrist will then plead with Earth's 10 Nuclear Kings for his life and the life of the world to not abort Phase **B** of solving all of humanity's self-made existential threats (like nuclear roulette and the other 7DUIs, ^{see n-k} below).
B Scale-up **ResearchCity** in **7-8 stages** of **-1+6+1 mo** to evolve its **1600 Talent Stadia** from scratch ^{SD8} to aid all in making best decisions for all. Which nation will be best to host **ZoE?**

Continuity Of Operations Plan \COOP – for a gentle kind reasonable Armageddon

as given by *RealOutcrySalvation* \Jesus\Yas in Matthew 24, deexcerpted 2025 by Laurence Loewe of *Laodicea* \LLOL

Faced with catastrophic loss of control in apocalyptic disasters, a strong temptation to despair reaches for human hearts. Such despair is paralyzing the analyzing it takes to turn around doom and gloom into delight and glory. It tempts everyone to throw out the baby with the bath-water instead of resisting the rounding error of hopelessness. To resist that deadly error is to save the baby, the day, and the world. It requires guarding the spark of true hope and life against convenient false hopes and mistakes oppressing life. Having spent a life on the edge of disaster in a nation living on the edge of disaster, Jesus\Yas, greatest Prophet and Professor in history, gave his trainees the following *Continuity Of Operations Plan* for the predictably most trying moment in all of human history:

0. Remember the Good News: Yah\Reality forgives all sins of all who do not know what they do ^{Lk.23:34} to enable all to learn from their mistakes in *Real Quests for Real Answers* \Yas. LLOL can show why that includes all *Homo 'sapiens'*. By the authority Yas gave to LLOL ^{Jn.20:21-23, Mt.28:18-20, ...}, LLOL became a nobody to freely accept responsibility for all sins nobody is responsible for, of which the faith-collar crime of Jubilee-murder is worst. Accordingly, LLOL asked Yah to forgive all sins to enable better training in the *gentle kind reasonable* principles of how Yah rules in Yah's Jubilee-based, long-term innovation economy. See Matthew 5-7 for Yas' constitution for such an innovation **epiocracy** (defined as the rule of *gentle kind reasonableness*). It fails forward instead of pretending mistakes didn't happen. To improve all learning, instead of whitewashing errors, grow PEARLs in **Historically Experienced Lessons Learned** \HELL.

1. Stay woke and pray so you can recognize the worst mistake paraded as the latest and greatest in serving real life—despite being the ultimate obliterating stench of confusion about the true meaning of *nothing*. When you see it, don't despair nor give up hope, for the light is about to break through. To stay on course in *Real Quests for Real Answers* these COOP guidelines help people in diverse roles to fail forward in their area.

2. To the PraisedFamous: Expand your horizon ... ResearchCity! Congrats on being a PraisedFamous expert, ruling a mountain of data in your area! As you know, many other data mountains exist. Rethink ignoring them! All expert-fiefdoms refusing to link up to see all of Reality\Yah in Yas will fail. To avoid doom, do **wid-e interdisciplinary diversity-encouraging \wid-e research:** Learn to flee to new mountains of famous insights. You'll find others are mining hard rocks of data to distill reliable lessons for you. Be a child again! Learn to follow Reality in how others learn. Let *Real Quests* guide you to Yas. All areas matter if you put life before money. As you learn, keep sharing all you learn! BABL's splintering evil of departmental compartmentalization can only be vanquished by working together in *wid-e* areas. It requires overcoming the inner institutional inertia of *incurious ignorant indifference* about others. Your fame grows if you're honest about your unknowns but dies if you're a know-it-all. **Aid Knowledge Pipeline Refineries** by sharing honest struggles & pitfalls on your hero journey to help scale up ResearchCity.

3. Stay on top of your house, but do not plunder it. If you lead an organization and new awareness of disastrous mistakes comes rushing in, temptation is great to flee with a golden parachute, throw yourself from the pinnacle as a scapegoat, or obscure all evil by white-washing tons of *Least Inconvenient Explanations*. Resist these temptations of bowing to *nothing*. Unless your term is up or Reality offers you another way to graciously bow out (eg. as in Isa.38), stay on top of your organization. Reality appointed you to lead it for a reason. Chances are, you best know your house and how to lead it *while* you also learn to expand your horizon. That is what it means to be an Exodus leader. Do not pretend to already be in the Promised Land. Do not pretend to know more than the next few steps on the way to get there. But do trust that your *Real Quest for Real Answers* will carry you there in Reality, you and all the people in your organization, even in case your organization might get dissolved in Reality.

4. Continue in your field – without worrying about looks. If you are an expert, a producer, a researcher, a server, or learning to become one, keep working in your field and do

not worry about how it looks if you cannot yet do this or that (whatever people talk about). Hold on to what you have and keep learning to expand horizons in your area (see COOP2). You may not see yet how your painstaking work with the hard rocks of data about Reality connects to big issues elsewhere, but *Reality* has the best grasp on *Reality* and always redeems *Real Quests for Real Answers*. Therefore, resist shortcuts that tempt with spectacular success to win the approval of others. **Reality already approves of who you are.** Reality welcomes and loves you *as you are*. No questions asked. Reality already knows you! What you do with this freedom you have been given, that is up to you. You are free to serve as yet another bad example if you wish. Yet, Reality rather prefers that you stay on your hero journey, so you reach your full potential in due time. To do that, continue in your field. Whether you study in school, for a PhD, or produce for supply chains. Don't worry if it looks weak. Reality builds the greatest superpower by combining *all The Views of all The Weak*. But it only works if everyone shares their real views by living their part in order to feed the *Tree of Life-giving decisions*. These cut down on the deadly *Tree of Knowledge-faking shortcuts*. For more on how, see Mt.5-7, Songs... *SupportingDocs* SD2-SD8, [BibleProject.com](#).

5. Be extra gracious to all who get pregnant. Aid all mothers! When leaders and workers complain about challenges, they haven't seen the difficulties faced by those who are pregnant! Be extra gracious to them, whatever plans they make for their parenthood. Whether it's physical babies or conceptual new ideas born on hero journeys: mother knows best. Support all mothers without forcing anyone into heroics, which is deadly.

6. Be extra patient with parents, educators, children. As all mothers know, pregnancy is only the start of a sea of challenges to be faced in raising children who are to become *gentle kind reasonable* adults. This is hard enough given the usual sea of reeds and red tape to be crossed into adulthood. But it gets extra challenging when that sea is parted and the unwritten rules of yesterday's canons no longer apply today as they did. While others get to work out what this means for themselves, all who raise children live between their rock of Reality and the hard place of the *RealQuestAnswers* children need to grow up. To abstain from knowledge-faking there requires an extra portion of grace. So, don't betray the trust of those entrusted to you by pretending to know it all.

7. Pray, hope, and work to reach the next stable Jubilee platform before Reality forecloses today's historic opportunity. **Pray** you'll be allowed to flee to the new system before harsh winter states of regression depress what was learned or wipe resources to share. **Pray** especially that you don't completely fail upcoming Jubilee tests: fails obliterate hope to innovate by restricting risk-taking autonomy. You'll be in Heaven, but cry tears of regret over doors you missed. You'll be on pause 'til others learn what Yah had for you if you had cared to see. Such live-locks are computationally equivalent to ruts in hell, clearly echoing Babylonian captivity ^{Lev.26:34, 2Chr.36:21}. Jubilees need time, resources, autonomy, wisdom, and voluntary good will of all to use all above for good, as in Moses' First Exodus.

8. Beware of deceptive symbols from officials and pundits.
9. Feed others good food, hope, insight at the proper time.
10. Don't get drunk on distractions nor bash\beat others.

11. Meet up to stay in touch and on mission. Whatever you do, be careful to stay *gentle kind reasonable*: all else will backfire.

Let's not be fools by staying silent at decision time, nor watchers claiming *ignorance* about those dragged to death. For Reality unmasks all *incurious indifference* on judgement Day as time runs out for decisions on doing the right thing!

SING in Meet Ups to see: You Are Not Alone! To join others in following Yah's & Yas' COOP on their Exodus hero journey is personal. All 7 change stages for healthy innovation are vital (e.g. Mt.5-7 Isa.58 Rev.2-3). But their many diverse forms easily drown rare true hopes in floods of need. The worst abominable evil of *nothing* wins if good people do *nothing* for lack of true hope. Yet, hope is fragile. Hence, it's vital to meet others to feed and guard true hope like the valuable flame it is.

Start or join suitable "microTemples" \µTs to aid defined Exodus missions that nurture true hope to follow Yah & Yas and to recover from wounds of false hope. No need to call it "µT". A church, mosque, *-agogue, school, lab, office,... or any *small* group, if run well, does what µTs of 2-friends do in pubs ^{Mt.18:20}: listen, help, & learn in the *Flying University Network* \FUN of the 7 Spirits of Truth who comfort, convict, & guide *gentle kind reasonably* from BABL to ZION. Here are some **practical ideas** to make old µTs great again by refreshing:
(a) **Rotate places** so meetings stay agile.
(b) **Rotate tasks** in meetings, so all learn all.
(c) **SING** new songs to inspire joy and recall insights. Songs and µT meetings depend on a general harmonic framework for effectively sharing their specific melody and ideas. A µT basic structure like **SING** can help facilitate **Sharing Inspiring Negotiating Giving:**

Share meals and more like news, life, needs, highs, lows, laughs; but don't overcomplicate.

Inspire insight: intone true songs, intercede for real **outcries**, investigate real **questions**, interpret **inspiration** in texts, movies, & more. Use ZoE Songs, [BibleProject.com](#), ... *anything* to jumpstart a µT. The world is full of Yah's glory & good sense of humor for all who dare see. Good µTs help to see how BABL & ZION hide in daily life, like **Waldo**. **Ask:** Where was **Waldo** last week? Any new cosmic jokes by Reality? Let insights of ZION's *River of Life* flow for all!

Negotiate next steps in Yah's & Yas' mission to make the world **gentle kind reasonable** for all by bringing good news and relief to others in their Datageddon valley of decision, before it triggers more Armageddon disasters. This is about advancing *everyone's* hero journey to grow 7-fold resilience healing to implement Mt.5-7, COOP0-11, Mt.25, Isa.58, ... (see SD7).

Give grace to go with the (eg. 507) blessing of Yah\Allah\Reality on next week's Real Quests for *gentle kind reasonable* Real Answers. Follow Reality's global Jubilee epiocracy to vanquish bashmolling idols of coveting that spin hamster-wheel-prisons from *nothing*.

Make Yah's main thing your main thing by choosing life over death. Given Fig15 & COOP7:

Storm the Gates of Heaven any way you can with petitions to rescue all the weak dragged to accidental nuclear winter! Ask all your highest powers to aid the **10 Nuclear Kings & LLOL** to find the narrow door to keep life on Earth in Yas' Great Jubilee Race (as in Luke 4:18). Pray to defeat nuclear death and to inspire dreams for better alternatives with Yah & Yas!

This PDF is a µT start-up proposal for Yah, Yas, & all to decide if LLOL's aCh-inspired µTs are welcome to help save the world as Fig15 explains. **If no:** who is LLOL to interfere with the will of the people and Yah? **If yes:** Yah of Hosts, governing all multitudes and human hearts like rivers, **let µTs go viral** like Jonah's call in Nineveh – until the 10 Nuclear Kings of Earth decide to "Put Earth in an Escrow" (by not blowing it up) to enable LLOL to lead Yah Exodus in ResearchCity to save the world. Hence, this *Don't Panic Guide* is free under the Jonah License (see Fig.3,14). Until LLOL can share more on µTs at [YasPyr.com](#), this *Don't Panic Guide* copy is brought to you by a coalition of the willing in a µT you may contact at: [Add µT contact details if this copy was not created and/or shared by its originator LLOL@balospo.com, DARL Loewe, Unit 300, 6907 University Avenue, Middleton, WI 53562, US, ZoE]:
