# Critical Roles of Prophecy

## in shaping *work-logic cascades* of personal plans over decades

by Laurence Loewe of Laodicea \LLOL

following RealQuestAnswer \YhowShua \Yas

\Jesus since L. started age 9, 1978 in Erlangen, to believe ...

an earlier version of <http://www.4laws.com/laws/englishkqp/default.htm>

1. God \Yah\Allah\ Reality loves you and has a good plan for your life.
2. SINS \Structurally Inconsistent Notions are destroying that plan.
3. Jesus \RealQuestAnswer came to resolve SINS by unmasking Least Inconvenient Explanations \LIES.
4. You have to trust and follow RealQuestAnswer to find Reality.

The examples included below document a few of very many important personal words of prophecy, however widely defined, which somehow stuck with LLOL's mind for shaping expectations, which have been shaping LLOL's choices over decades in how to grow his contribution to the great Tree of Life-giving decision-making \ToL.

The sources are remarkably diverse and include proper charismatic prophecy, prophetic writing in news, ads on bill-boards, spontaneous poetry, science ideas, textbooks, logics, sudden 'knowing' without apparent reason, ... and even *nothing*. In particular *nothing*.

**LLOL is the Apostle of *nothing*. Since 2024-08-06 he is called by *nothing* to warn the world about *nothing* as a paid-a-Gog.**

**Because he realized how *nothing* is destroying the world through *oversimplifying overcomplicating overreaches***

... in one big slow-motion explosion of compounding self-interest ... until nuclear andOr other roulette kills all.

**"There is a certain kind of liberty that comes from knowing that your financial future is secure ..."**

~2007 ~Fall approximate text of some financial services ad before the banking crisis on a local billboard in Edinburgh, as seen on walk to work while worried about **what research might L. be able to still allow himself to do for the common good in order to not starve.**

As he kept pondering this liberty over the years while writing grants and applying for positions, **he started to realize the vast deadly power of a stranglehold by this subtle threat of starvation.**

He knows he is not alone, but he must decide what to do. So he decided to reject that death-threat in order to follow RealQuestAnswer to Reality, one RealQuest and RealAnswer at a time.

This insight, combined with the work and focus of his career prove **the categorical imperative necessity of properly funding Fiduciaries Sharing Futures \FiShFus to properly serve Life on Earth.**

"Suchet das Reich Gottes zu Erlangen ..."  
Mt.6:33

... was the joke-reason of L.'s grandfather to study theology in Erlangen, where L. grew up. **What an apt cosmic joke for someone determined to properly fund FiShFus...**

I will live in the liberty of knowing that my financial future is sorted.

Mt.6:33  
Resolution of LLOL as **Fiduciary Sharing Futures**

3800 Jahre mit dir in der Welt: No Circumstance will ever separate you from me

Mein Sohn, Ich kenne dein Herz und ich habe Wohnung gemacht in dir, Und so will ich dich führen und leiten, auf dass mein Heiliger Geist allezeit zu dir ruhet, allezeit dich leitet, dass mein Heiliger Geist dir den Weg kundtut und deine Schritte lenkt und leitet, auf dass du getreulich wirst für mich, Darum folge in Gehorsam meinem Wort, und ich werde dich setzen zu einem grossen Segen, Ich werde vor dir hergehen, und du wirst meine Herrlichkeit sehen, du wirst meine Herrlichkeit verkünden in deiner Stadt, an deinem Platz und durch viele Länder der Erde, Ich will dich schauen lassen meine Wunder und deine Zeichen und du wirst sie erleben in deinem Leben, und dein Leben wird überströmend werden für viele; denn Ich habe dich lieb, Ich werde meine Liebe auf dir ruhen lassen und in dir wohnen lassen, auf dass du meine Liebe den anderen Kindern und auch den Menschen kundtun sollest; denn du bist mein Kind, Ich bin dein Gott und dein Herr, und ich führe dich und ich segne dich, So spricht der Herr.

Gelobt sei der Herr täglich.  
PSALM 68, 20

# 1980 Personal Baptism Prophecy for LLoL

**My son, I know your heart and I have made a home place in you. And so I want to guide and lead you, so that my Holy Spirit always talks to you, always leads you, that my Holy Spirit tells you The Way and guides and leads your steps, so that you become useful for Me. Therefore follow in obedience to My Word and I will set you to become a great blessing, I will walk ahead of you, and you will see My Glory, you will announce \proclaim\herald\introduce\preach\teach...\explain My Glory in your city, at your place, and throughout many countries of the Earth. I will let you see My Wonders and My Signs and you will experience them in your life, and your life will become overflowing for many; because I do love you, I will let My Love rest on you and let it dwell in you, so that you shall make known My Love to the other children and also to the humans; because you are My Child, I am Your God and Your Lord, and I lead You and Bless You. Thus says Yah\TheLord.**

Received 1980-07-20 by **Johannes\GodIsGracious Löffert\Spoonmaker\Mule\Shepherd** for Laurence, age 11, at his baptism by JL after L came up from the water. This was a 'back-yard baptism tub' at the home of JL & Lydia\Beautiful\Noble in **Langen\MakeLong\Longing**, near *Frankfurt on the River Main* "The shallow crossing place on the Main River, where Rocks in the otherwise Deep Water allow Crossing and where the Frank\Courageous people live", in Germany \Neighbor, DE\LandOfPeople. While JL received this prophecy it was taped, later typed, and given to L with Ps.68:20<sup>a</sup> "**Praise Yah daily!**" It took years before L saw what the fine print of the rest of the verse implies: "**For Yah heaps upon us ... (what seems overwhelming trouble but actually turns out to be) ... our Salvation!**" Ps.68:20<sup>b</sup>.

**This has been a bright beacon of hope for L growing up and a subtly guiding light in decades since**, like a sublime sword in some decisions as a reminder that GodIsGracious and to expect great things from Yah. Graduating as a biologist in **1995** L asked God to help him stop a major pandemic through a cutting edge understanding of how evolution works mechanistically. Given L's understanding of **Ezekiel 3+33** at the time, L was effectively asking to become a pandemic lookout (today he would add on the walls of *ZION on Earth*). God replied with a long series of career miracles (for lack of a better term), which catapulted L into position (see his scientific CV) and encouraged him to learn *simplifying accurate modeling* of evolution in his Evolvix language. God kept reminders of pandemic issues always around. Yet, with much to learn and typical career worries growing, L got distracted and forgot about his original career vision. He 'dozed off' while driving on the highway of his life, cruising along in a strange 'busy-slumber' he only later identified as 'akedia', the main SIN of **Laodiceans**, namely **ignoring the major by focus on the lesser**. In **2014** God send him a clear warning via **Isa.30:12-17** on his lack of rest on the Shabbat. He tried to correct course, but week after week some 'ox fell into a well'; so L failed to meet God in rest, while 'busy for God'. So, the dark magic of 1.Sa.15:22-23 rippled through his live while he was too busy "for God" to see his Mistake Oppressing Life. Like Jonah 1 he slept in traveling. His rude awakening? The Coronavirus jolted him to use his Evolvix code to model the pandemic. By ~2020-08 he had the science answer to his 1995 prayer. Now he lacked the spiritual side to credibly do what he asked for in 1995! That is how **ignoring of Shabbat killed his creative edge!** He killed his window of opportunity and **7+million died because of it!** --- Yet as of 2024-08-21 LLoL is still waiting and hoping for Yah to fulfill the more visible parts of seeing and spreading the Glory of Yah worldwide and to make L's life overflowing for many. It has been slowly dawning on him that maybe his precious PEARL, the one to sell everything for is the truth about the reality of what happened in his catastrophic failure. L knows Yah can help to turn it all around. If such a disaster can be cleaned up by Yah and Yas to shows the world how, then **those who gave up on themselves can hope again too!**

**Great are the works of YHoWaaH \Yah\Reality –**

*they are to be researched  
by all who delight in them.*

Ps 111:2

Some time late 1985,  
interested in participating in the German  
Jugend-Forscht science talent search,  
L. wondered whether it would be worth  
taking all that time to plan and do those  
experiments he was interested in ...

Stumbling over Ps.111:2 accidentally  
answered that question ever since:

**If you delight in it, study it.**

So he did ...

1986 ... Landes-Competition München, 2. Place

1987 ... Regional competition

1988 ... Regional competition

1989 ... Regional competition

1990 ... Landes-Competition Stuttgart, 3. Place

... no longer eligible as a student in biology.

2020 ... L. realized that **this was his introduction to the less obvious of the Two Great Witnesses of God** in Rev.11

By 1990 he liked it so much that ever since he kept  
saying ~~joking-predicting-prophesying...~~

**When I am old, I will start "Senioren Basteln"**  
**[to open such exciting science fairs for everyone]!**

**The time has come:  
it's now or never!**

## **How will you move next,**

having favors that the world has never seen  
as a daughter of TheMostHigh?

LLoL response:

- 1 I will live in the liberty of knowing that my financial future is sorted.
- 2 I will learn His Heavenly Language for HUman-MAchine-Negotiation and translate it into English so it lasts >100 years.
- 3 I will write 24 pages of Revelation about it and write it like I'm writing the Word of God like the Prophets of old OLT.
- 4 I will tame Datageddon in my life and on planet Earth.
- 5 I will fulfill my Destiny  
so my words will change worlds to set people free.

# Do Not Give Up! You have no time to lose and can't win any back!

2020-03-05 Day 38. Do Not Give Up! [ writing the ESB19 paper no matter what ]

Do You Hear Me? 10:37pm.  
Yes. Loud and Clear [ as a Signal ].  
No matter what?

No matter what!  
OK. Will do.

Do not compromise the quality you know.  
Do not fear mistakes you cannot see.  
I will guide you at all times, so  
you will always know what comes next.  
For example, right now its the AimsPlotter.  
Then its the draft text about it.  
Then the rest structure will become clear through the Igniter.  
H2H, R2Q!  
You'll c.

Do not fear timing. I am the I am of Time. You have no time to lose and can't win any by accelerating anything back. You could though kill it all if you wanted to. I know you don't, because that is why you paid the price for this muddy field.  
So, fear not. Keep walking. I'm with you.

Thank You.

And yes of course I do know the rest of the current laundry list of things. I'll take care of it or show you how to. No worry.

Thank You.

You.

!

Therefore,  
I will not give up,  
Until I see whatever  
it is that Yah & Yas  
want me to see!

# A beautiful blue marble has been entrusted to humanity

We have been asked to govern this marvel responsibly<sup>1</sup> and to keep it for our children

as careful stewards of its changes, and by not losing our marbles of trust, hope, love, and logic.

We need those to check if our governing models, rules, data, and machines for sustainability are as *gentle kind reasonable* as necessary to guard that marble through *humane equal dignity* from Armageddon.

Avoiding Armageddon requires escaping datageddon through Work-Logic Cascades<sup>2</sup> that ease balancing the main task of keeping everybody's main task their main task, and develop the mental wealth of all via Zoning Investigating Organizing Navigating.<sup>3</sup>

1. To respond anytime without fear or favor to anybody (to our children's generations, to the past, to others near & far, to the future, to God, to guarding humane equal dignity across space & time), and not fearing any blamer.
2. In WoLCs: *Logics* preserve what we *Care* for; *Care* governs what we *Hope* for; *Hope* governs what we *Trust* is worth working for; *Trust* governs how we use *Info* on *Tech*. All cascading levels end by affecting *Tech* > *Life* > *Space*.
3. Respective WoLCs to be defined and implemented in a unique proposal: a 2cent mustardshield to resist Armageddon with 1600 stadia for wide interdisciplinary diversity-encouraging \wid-e research on how to best follow Reality. See [balospe.org](http://balospe.org)

### Reality and *the view of the weak*

1: “Reality leaves a lot to our imagination. Reality keeps defying our expectations. Reality reflects our decisions, but not our models, especially not those we idolize. Reality would melt our brains in nanoseconds if we could see it for all that it is. So, reality is veiled, showing our brains only what we want to see – and a little bit more, stimulating curiosity and research, inviting us to a world beyond ourselves. Reality unveils itself to each of us uniquely as we unwrap *the veil* in our own way. Reality retreats if we prefer lies, confirms bias if we ignore truth, yet patiently invites us to changes of mind. But make no mistake. Reality isn’t harmless and will destroy those who destroy the Earth. Why? Because Reality reacts to *the view of the weak* – *all* the views from *all* the viewpoints of *all* the weak! Models ignore most – and fail. They mislead, unless we see more of reality by seeing more of the delight and glory in *the view of the weak*. Thus: Reality tests our imagination.” :12

May my next lines help chisel forever into hearts & minds of everybody  
Yah's promised **merits of non-violence** from following ZION's ways &  
**non-merits of violence in Blindly Assuming Blindly Leveraging BABL.**

Paid for in rivers of blood when Germans lacked courage to resist.  
Composed as a *Dedication to Nonviolence* on 2023-10-03 by LLoL on  
German Unity Day, 33 years after Germany Reunification 1990-10-03:  
Undeservedly born despite the fear, guilt, shame, grief, lies, illusions  
and many other evils deep in my nation's Laodicean history,  
Yah\Reality was so kind to let us find a better way through enough  
safety, joy, will to live, love, truth, insight, & more good, which  
Yah and Yas' witness so tenderly and patiently grew among my  
dear sword-, ax-, & knife- before gun-wielding Saxon ancestors.

Let me always:

**Remember Remember the 9th of November,** [1938]

when too many silent were a famous church member,  
when tender true splendor found no defender,  
when fighting like hell inflamed each party member,  
to "take back their country", the weak to dismember. –  
– So, their country lost beauty, became hell's contender,  
by boosting their blinders to split truth in each dissenter.

**Remember Remember the 9th of November!** [1938]

**Remember Remember another 9th of November,** [1989]

when each noble church member was a dissenter,  
when tender true splendor had a courageous defender,  
when fighting like hell inflamed no party's member,  
when love, truth, and roses fought another hell's contender,  
when courage for weakness didn't allow truth to dismember. –  
– Their country chose the Views of the Weak to remember:  
prison-grey ended, so truth grew it into a beauty contender –  
– that's if they continue to remember this lesson of that November!

**Remember Remember this most unusual 9th of November!** [1989]

**Because to 'fight like hell' turns counties into hell.  
But taking the world by weakness is the hallmark of true greatness.**
