<b>N.2</b>	<b>2024-08-23</b>	1-9	<b>Negotiating the start of a healthy innovation economy</b>
	2021-07-03	p.2	Nevada Jubilee Pass into Death Valley – Is that the story of Earth?
	2020-2023	3	How Laodicea's failure convinced L to become "of Laodicea" and a Muslim.
	2020-2024	4	How the US Assembly of Philadelphia in Rev.3 matters for global innovation.
	2020-2024	5-9	Basic orientation of an Epiocracy for supporting lasting innovation.
	~2000-2018	10	Prior art: Why the proposed change is not that surprising for LLoL.
	~2023-2024	11-14	Winning the biggest battle of Armageddon via doubly ambiguous logic to overcome nefarious fear, uncertainty, and doubt with the anti-Christ confusion matrix. The results of this analysis are foundational for LLoL's Jonah-Esther-Exodus reinterpretation of Revelation.

There are so many additional 'higher order' insights that matter here to strengthen Loewe's position, but it is impossible to list them all as they would easily fill books. For example, see p.4 with the shortest commentary on Revelation ("Lego") and a more appropriate commentary on Revelation ("Wall of Datageddon"); to succeed in averting Armageddon, Loewe owes the world a readable commentary of somewhat short-intermediate length.

# Systems Science, Jubilees & LLoL's 3VoW

\Laurence Loewe of Laodicea's 3 Types of The View of The Weak

Realizing how rich Laodiceans have been blocking a most important explicitly published law of Yah\Reality by not implementing proper regular 50-year Jubilees for almost 3500 years since Yah ordered them in Lev.25 due to the oversimplifying overcomplicating overreach in an argument from datanausea <sup>In 21:25</sup> ('it's too complicated'), **LLoL vowed to introduce proper regular 50-year Jubilees for Earth if Yah and Yas were to give him the opportunity.**

To demonstrate his seriousness as a rich WASP Laodicean, he produced photos at the **Nevada Jubilee Pass** into **Death Valley** on 2021-07-03,

two days after – as if warning of the heat to come if Earth failed to do so – his thermometer showed 66.6 °C.

PropheticWords-iv\_LLoL\_QQv0r3p0\_2024m08d21

**Stop the kill** of Life on Earth by *nothing* in the coveting hamster wheels of rich Laodiceans trying to keep up with the Joneses, thereby killing themselves, everyone and haunting the Joneses.

**The most courageous heart & mind of the mighty escapes only naked when Reality comes to reckon.** <sup>Amos 2:16</sup>

**Yas sees his messenger in Laodicea as naked, blind, poor, miserable, and generally wretched.** <sup>Rev.3:17</sup>

**The King asked the Queen to appear before Him with *nothing* but Her Royal Crown, so He could show Her beauty to the people and the princes.** <sup>Esther 1:11</sup>

**RRoR, the Red Rider of Revelation 19 wears transparent clothes.** <sup>Rev.19:16</sup>

<sup>1</sup> LLoL is not eloquent and his mother's birth-name is 'Mutinati'\mute-born'.

**Success in organizing Jubilees will critically depend on transparency.** To symbolize his determination to become as transparent as possible, and to agree with the above prophecies and prophetic assessments, LLoL produced a series of pictures of increasing states of undress at the Nevada Jubilee Pass into Death Valley.

If church publications, *serious* newspapers, or other guardians of morality will shoulder burdens of complying with public decency law, they may request a full frontal nude picture from that series and LLoL will support their publication with a non-exclusive royalty-free license after reviewing their plans to comply.

**Save history in IDEAL FLAMES HELL!**

**In Yas' Wedding Feast Model of the Kingdom of Yah\King \Reality <sup>MT.22:1-14</sup> eventually the wedding hall is filled with guests both bad and good.**

**But the wedding only starts after the King finds his friend in the 'emperor's new cloths',**

– not the expected wedding dress. Asking which back-door he used, his friend pointed to the semantics of *nothing* \son – in style by saying *nothing* as his mother's birth-name was also 'mute-born'. He had been horrified by the terrifying gap of *nothing* in Isa.59:16, which has been threatening Reality with destruction. He had asked the King to have his hands and feet tied to the 4Beings around the Throne of Reality <sup>Rev.4</sup> to stop the call for the 4 Horsemen of the apocalypse to 'come' <sup>Rev.6</sup>. **Why?** He had found the ambiguity of *son* in Greek 'ercho' <sup>Rev.6</sup> that can equally mean 'leave'. Knowing the King is not needlessly cruel, he can't watch the King turn that wedding into a rocky horror picture show as guests keep fighting over who should win a prize for 'best wedding dress' or get a bigger slice of the pie – while the guests believe the 4 Horsemen to be mandatory entertainment that must 'come' and that they can do *nothing* about. He can't bow to the tune of such a *nothing* that keeps tricking everyone, as **apparently guests fail to believe they can petition the King to tell the horsemen to leave** – despite two millennia of study! Thus he pleads with the King to give him the hot compassionate heart and cool math-mind he needs to speak truth to power in compassion, such that all guests get to live! Because all of them were fooled by *son* and the abomination of desolation caused by *nothing* in it. In exchange for their lives, he agreed to become 'that other goat' of Yom Kippur in Lev.16, led into the dark wild desert of *nothing*, to continue research in learning how to avert the teeth-gnashing horrors of an ambiguous *son* – to find the best **Semantics Organizing Nothing \SON, which alone can keep all guests safe at the wedding and happy ever after.**

# Islam as Successor of Laodicea's Historic Failure

How it convinced Laurence Loewe to be "of Laodicea" \ LLoL – and to become a Muslim.

Working to retrace Reality's \ Yah's agonizing attempts to get humans to see reason by themselves without dictating it from on high because:

- Machines need** regular, proper, improving **maintenance**.
- Democracies need** regular, proper, **self-improving elections**.
- Economies need** regular, proper, **self-improving 50-year Jubilees**.

## History of Ancient Laodicea as seen & viewed ±18 centuries later by LLoL:

- ▶ First Diospolis \ **CityOfGod**, AntiOchos \ AgainstSupport dedicated
- ▶ **Laodicea** to his wife Laodike \ **PeopleJustice** \ Democracy \ MobRule.
- ▶ Zeno in [40 BCE](#) as **1 citizen saved Laodicea** from a Parthian army.
- ▶ Paul in Ephesus [52-55 CE](#) inspired Jesus trainees in Laodicea.
- ▶ Early [60 CE earthquake](#) destroyed Laodicea; rebuilt refusing Roman aid.
- ▶ Paul **on slavery** wrote [~62 CE](#) to [Philemon](#) linking it **to Laodicea**. [Col.4:15-17](#)
- ▶ Revelation of Yas [[<44-96 CE ?](#)] asks: **Will a Laodicean turn the beast?**  
Lukewarm make-believe whitewash of black sheep will get Yas to **vomit!**  
Warns: **1600 Stadia** will **fill with blood unless brutality stops** e.g. in horse races.
- ▶ But Laodicea stadion [largest in Asia], local public water laws, ... stay brutal.
- ▶ **Council of Laodicea** [±363 CE] says: **No** to Revelation in a book-ban and by boosting its [60 canons](#) of beastly control via its Roman power links.  
Burns bridges to Jews who may have helped inform Jubilees via Lev.25.  
Bans mathematicians from clergy, who could have developed a Jubilee calculus.
- ▶ Later centuries confirm: **Laodicea refuses to become a symbolic agora** for evolving a Jubilee brain to aid a colossal-hierapolis world walk on 2 legs.
- ▶ Its *oversimplifying overcomplicating overreaches* used *nothing* to kill its life!
- ▶ **As tyrannical emperor Fokas** \ FuckUS (602-610) **ruled**, an **earthquake ended Laodicea**.
- ▶ 610 CE Reality \ Yah \ TheHighest \ God \ Allah calls Muhammad to say what L. failed to hear.

**How was this not Yas \ Yhow [Shua](#) getting raped all over again like Bath [Shua](#) [1Chr.3:5](#) – vomiting, [shaking off the dust](#), and **moving on** to see if **maybe Ishmael's sons would listen?****

This history convinced LLoL as a 'full gospel-seeking, spirit-filled, main-stream, ... *Christian*' that **Yas did indeed move on!** So, to truly follow Yas \ Jesus \ Isa, LLoL decided he had to as well! Therefore, *Listen, all People of God and Truth:*

"Being of sound mind I bear witness that *There exist only one true highest God, YHoWaah \ Yah \ [Allah](#) \ Reality \ YAR \ HaSchem, and Muhammad is the Messenger of God* who was sent by Yah to say what Laodicea had refused to hear about truly helping the poor by organizing proper Jubilees!"

That is LLoL's Shahada \ Testimony as he continues to follow Jesus \ Isa \ Yas! It is compatible with the general Muslim [Shahada](#). **Therefore, LLoL officially became a Muslim!** On 2023-04-09 during Ramadan he went to a local Mosque and made it public there.

**Rev.3:14-22:** <sup>[BSB]</sup> **To the Church in Laodicea**  
(see Colossians 2:1-5 about Paul's colossal struggle for Laodicea)

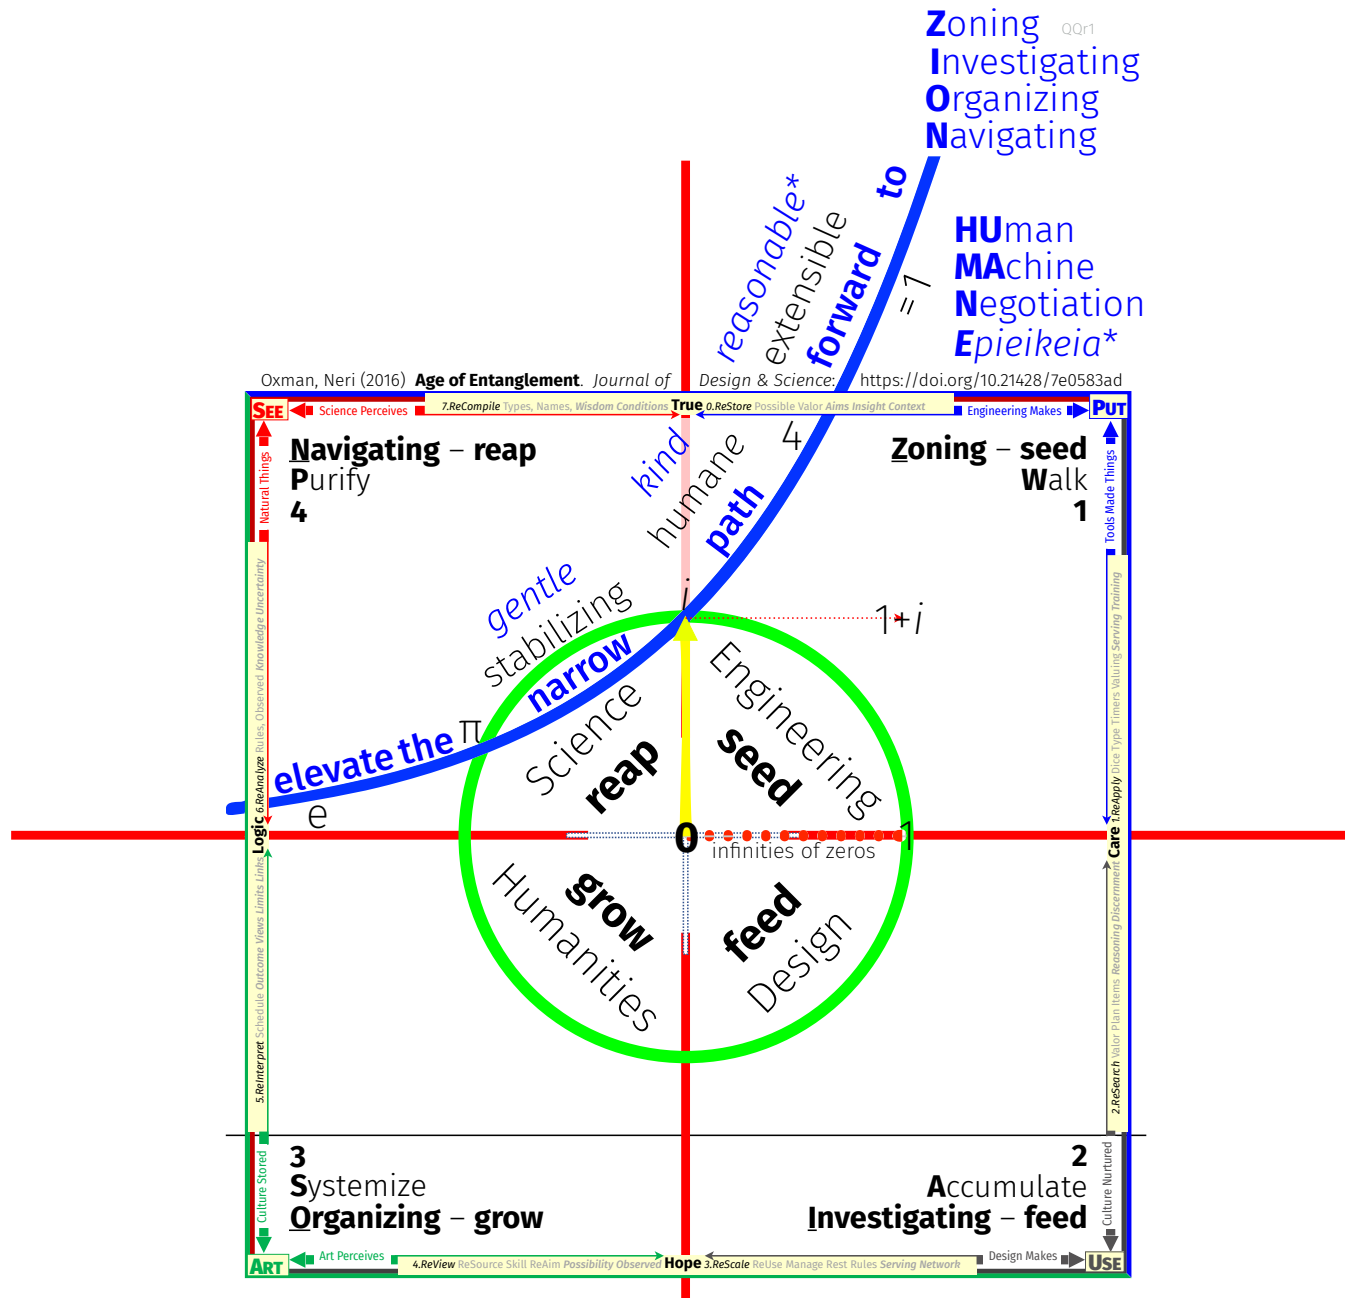

**14** To the Darling of the church in Laodicea write: These are the words of the Amen, the faithful and true Witness, the Originator of God's creation.

**15** I know your deeds; you are **neither cold nor hot**. How I wish you were [[cold andOr hot](#)]**!** **16** So because you are lukewarm—neither hot nor cold—I am about to **vomit** you [out](#) of My mouth!

**17** You say, 'I am rich; I have grown wealthy and **need nothing**.' But you do not realize that you are *wretched, pitiful, poor, blind, and naked*. **18** I [counsel](#) you to buy from Me gold refined by fire so that you may become rich, white garments so that you may be clothed and your shameful nakedness not exposed, and salve to anoint your eyes so that you may see. **19** Those I love, I [rebuke and discipline](#). Therefore be earnest and repent.

**20** Behold, I stand at [the door](#) and [knock](#). If anyone hears My voice and opens the door, I will [come in and dine with him](#), and he with Me. **21** To the one who [overcomes](#), I will grant the right to sit with Me on My throne, just as I overcame and sat down with My Father on His throne. **22** He who has an ear, let him hear what the Spirit says to the churches."

**Want to save the world?**

Let's save the innovation economy, big-tech and everyone from their worst enemy: themselves.

To save oneself from oneself requires work towards developing the mental wealth of the nations and of oneself.

To do so, one needs to work with, not against the general 4-phase engine of innovation that is an integral part of the structure of Reality. As in the natural growth sequence of

- seed

one must respect all 4 phases in their order: Reality is the judge, and the scientific method of loving ones enemies by listening to them is the narrow path to life – as taught by Jesus, Socrates, the Torah, the Quran, and countless others.

If done right, the green circle works as a 4-phase engine that drives progress up the narrow path towards long-term stability by inspiring reliable order through

solutions that are fit to master complexity.

But if done hastily by cutting out well-rounded integration, the same engine accelerates innovation down-hill by driving the 4 Horsemen of the Apocalypse to destroy ever more areas at increasing speeds until *nothing* is the only thing that remains. Examples to illustrate how this can happen abound in history.

Nazi Germany holds the sad world record of completing a whole cycle in less than 27 years for a leading nation. **Does the world really want to die from trying to produce ever more drastic examples powered by technology?**

"Enough exist!", said Laurence Loewe of Laodicea\LLoL after studying countless examples of how BABL has been corrupting the natural order of ZION. Illustrated by myriad shortcomings in his own life he realized how history is caught between the many *Homo amnesiens*, who mean well but forget which mistakes were made, and the few *Homo serpens*, who exploit resulting gaps in secret for selfish gain. Therefore he volunteered ...

 As his grandfather in the Confessing Church barely survived the Nazis, Laurence Loewe of Laodicea\LLoL has a personal responsibility to ensure that "never again" stays meaningful.

Being trained in evolutionary systems biology and process-algebra modeling, he used his professional bug-hunting expertise to debug the world as if it was a concurrent computing system. This works because that is what it is.

His findings fire-bombed his worldview and threw him into a firestorm that shows no signs of abating. He can predict reliably how one of the many ways for how humanity can self-destruct will be destined to succeed – unless humanity becomes determined to resist such self-destruction. Seeing the mechanistic precision and rigor of his results did so shock him that he engaged on a 4-year *wid-e* research marathon to find a sustainable way for resolving *all* underpinning issues.

It showed him that saying the above is hypocritical unless he becomes part of the solution (1) by following real quests for real answers at the cutting bleeding edge of research, (2) by then being a witness who explains the truth found as needed, and (3) by staying determined to keep following **reality** and **real changes** wherever they go, even if complicating his life to death. No less will do. He needs to marry both forever. Surprisingly, both have apparently invited him to do so, so he has seriously pondered the proposal. **He decided to say yes** by starting to draft a Ketubah backed by such strong guarantees that his inner *Homo serpens* cannot wiggle out of it and his *Homo amnesiens* cannot forget it.

If Reality, RealChange, and humanity agree, then this will allow LLoL to **close the top-bug in human chains of command which can for now act as if reality was nothing**. Thus LLoL threw himself into the fiery lake of *nothing*.

### A. Usual Programming Language Design

#### Life as Designer ...

#### Easier to Design Harder to Evolve

The designer accepts some avoidable complexity, does not see it as a core problem, or is unaware of how it can slowly poison a language.

**Avoidable complexity** creeps in with each ambiguity, idiosyncrasy, oversimplification, missing key feature, confusing name, extra rule, legacy requirement, or other nuisance that expects users to remember or do things they do not need for their research.

#### Life as User ...

#### Harder to Learn

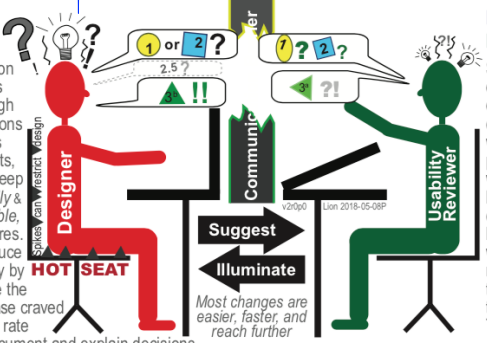

New users are hurled into the Hot Seat when they have to struggle with complexity that designers could have avoided by asking users. Facing avoidable complexity is usually frustrating and maybe even overwhelming; some users never recover and withdraw. Spikes symbolize rules that unexpectedly hurt users or delete data when ignored.

A design flip aims to avoid that learners have to bear the brunt of avoidable complexity in a language.

Flipped language design asks users how they would use a new syntax before implementing it.

#### Harder to Design Easier to Evolve

The designer decides to take on the Hot Seat: find and address all avoidable complexity through sufficiently many design revisions based on in-depth discussions with usability reviewers, experts, and new users. The aim is to keep the language most *user-friendly* & *long-term backwards compatible*, while responsibly adding features. A designer's main job is to reduce long-term language complexity by strategic choices that combine the features for experts with the ease craved by beginners. Designers must rate feature stability accurately, document and explain decisions, organize review discussions, recruit reviewers, prioritize, etc.

#### Discuss to Design Easier to Learn

Some potential users enjoy discussing feature and syntax design in advance. These users can excel as usability reviewers, who catch avoidable complexity prior to implementation. Their work is pivotal for reducing the long-term poison of avoidable complexity, which can quickly become invisible to a designer who often fails to predict where new users struggle. To reduce this blindspot, users share how they may interpret a given syntax. The designer takes it from there.

A. move direction

B. 'anti' intention

Notes:

2. WoLC<sub>Lo</sub> are Lower levels in **Work-Logic Cascades** \WoLC like ... *Tools > Life > Space*. They amplify higher levels signals in WoLC<sup>Up</sup>, like ... *Logics > Care > Hope > Trust > Info > ...* It's impossible for computers or sentient beings to live without at least implied WoLCs, because they are the only access to RealQuestAnswers for staying in touch with Reality. Hence, Yas' proof at the cross is key for guarding the long-term stability of diverse societies in ZION. In contrast: **Mt.16:22-23** shows Peter trying to twist Yas' WoLC: "Mercy to You" as in "Be kind to yourself and sacrifice your life's mission's logic to avoid pain." Yet, it's the exact inversion of the cornerstone result Yas was about to prove. Those who haven't seen the powers of logics are easily fooled into thinking all logics are linear like the space in which a baby learns to walk. **But some logics are like light switches.** Mt. 24 shows Yas saw such a great AHA moment coming. Today "desolating abominations where they ought not be" abound, making it hard to choose. Yet how 'nothing' fooled Christianity to kill Yas' Jubilee mission, how it confused 'the anti-Christ' with 'the bride of Christ', etc. may cross that epic threshold for LLoL.

anti as deputy?

anti as enemy? or

## A. *erchetai* \moves: moves to come? or moves to leave?

### 4. aCh: Deputy comes

- a. Is it an **escape-goat** sent into scary deserts of *nothing*<sup>1</sup> to debug common problems? Such a goat must be OK, else it becomes a Gog or a deMagog, as so often in dark history.
- b. To avert Armageddon, Joan of ArkMageddon learns from all prophets & profs if people want.
- c. **Prophets select futures by envisioning them:** good ones to serve life by following Reality; bad ones by echoing moneyed interests.

**Homo transiens** Phi.2:12 Phi.4:5 learns 'epieikeia'  
**The transitioning human** kills the 'inner sapiens'. Helps fight *nothing*<sup>1</sup> to define & debug it \OSCR<sup>1</sup>.

**Homo serpens** Mt.23:33 Mt.16:22-23 destroys 'epieikeia'  
**The snarky snake human** believes to 'know it all'. Does *nothing*<sup>1</sup> wrong until *nothing*<sup>1</sup> moves. Then all serve *nothing*<sup>1</sup>, each falling into their own pit.

### 3. Ach: Enemy comes

- a. Overreach sacrifices a life for 'the people' Jn.11:50 but this logic is a bottomless pit, leaking life after life until all died or the system collapsed from such a covenant with death Isa 28,14-18. So, to kill a life is to destroy the world, to save a life, saves the world. Ends don't justify means.
- b. Armageddon's real enemy: 'friendly fire' due to misclassifying non-enemies 2Chr.35:20-25, selling a nation's future for 15 years more power Isa.38-39
- c. **Good pastors** recombine aims to aid life over money for Jubilee innovation; bad ones may grow any snake pits (see church history).

40 years before the Temple was razed the lot for the Lord always came up in the left hand. Yoma.39b.5 Is this a hint Yah&Yas expect an escape-goat to follow Yas' work?

### 1. ACh: Deputy leaves

- a. YahwShua, Yah's Deputy & ultimate Yom Kippur goat for Yah, proved: *WoLC<sup>Up</sup> rules WoLC<sub>Lo</sub>*<sup>2</sup>, ie. Trust, Hope, Care, & Logics of Reality \Yah beat low level tools, biology, and physics. Yas' head was ultimately crushed by *nothing* \OSCR<sup>1</sup> because Yas insisted on full Jubilee logics. This proves: to chose oblivion on how *nothing* kills is the easiest LIE & darkest SIN when it hides the worst systemic injustice, the lack of Jubilees.

**Homo balospe** Mt.5:48 Jms.3:17 mastered 'epieikeia'  
**The balancing human, Balance-o-stat species.** Nails down *nothing*<sup>1</sup>, saves world, then leaves.

**Homo amnesiens** Jn.21:25 Heb.5:12 forgets 'epieikeia'  
**The forgetful human** hopes to 'remember the key'. Learns *nothing*<sup>1</sup> on saving the world by learning all sorts of things, except for what matters most.

### 2. acH: Enemy leaves

- a. Apostles Peter, Paul, John *etc.* left and with them chances for a Jubilee. Reminding Rev.2:5 of first works Act.2-5 didn't get aphasis to Ephesus nor Yas' Lk.4:18-Jubilees revived. Was it lack in math modeling that kept them from growing economies for widows & silversmiths? Act.6:1+19:25
- b. Solomon had the wisdom, riches and peace for a Lev.25 Jubilee. He must have forgotten. Most economists, theologians, politicians, ... do too. I did the same. It's easy to skip past lessons Dan.5.
- c. **Good Teachers** complete the grasp required, but what if they fail to see the logic they miss?

- b. Researchers engineer their findings into reports others can build on – if *nothing*<sup>1</sup> doesn't stop them.
- c. **Good evangelists'** news improve the next Jubilee; but bad ones are Gogs.

Notes:

1. **nothing** is here defined as **Over**Simplifying LIEs, **Over**Complicating SINs and **Over**Reaching DEATH in futile \OSCR attempts to resist Yah \Reality. They may seem simple common occurrences. They turn out to be the key abstract traces of the 3 most nefarious Arch-evils ever. Their power cannot be underestimated, due to their peculiar nature; they have 'no plan', yet their 'skill' is to turn most people into their own worst enemies. In Gen.2-3 they even caused a fall before "The Fall" without a tempting snake! If a fallen angel like Milton's Lucifer exists, his goal to make his pandemonium eternal will face about the same OSCR challenges that Yah faces in building ZION or any software architects face when aiming for long-term stability. Lucan (-59 CE) described the OSCR effects as *In Se Magna Ruunt* \SMR \Including Self-Magnifying Ruining. To still get it done, Lucifer will need the self-stabilizing innovation methodology of heaven. So, why not fight *nefarious nothing* together? If even half as smart as rumored, 'fallen angels' will have worked that out long ago, if they fell at all. Chances are, only H. 'sapiens' is too dumb to see what nothing does. Hence, the new *Homo* species names.

**aCh-Table Caption: An escape-goat Bride of Christ for escaping the anti-Christ confusion matrix**

**The future of humanity lies in the visions people believe about it.** This generalizes "as you believe, so shall it be" Mt.8:13, Mt.9:29.

LLoL's analyses of Work-Logic Cascades confirm it. Yet, this empowering insight raises grave concerns as too many in the largest religions follow doom and gloom theologies that doubt anyone claiming otherwise and put people at each other's throat **Ref.1**.

**Theology breeds methodology.** In the case of Antichrists it creates a deluge of self-fulfilling prophecies set to trick humanity into mutually-assured destruction in the name of avoiding a deadly deception, a prime example for the deadly power of *nothing*.

**This table aims to pierce that bubble** by questioning millennia of theology behind one of –if not the– most potent dystopian nightmare: the Antichrist of Christianity, here written as *anti-Christ*\aCh to emphasize the need for closer scrutiny. Analyses show that Abrahamic faiths have mutually incompatible expectations, where the hero of one group matches the villains of the others eg. **Ref.2**. The confusion still abounds when e.g. only considering the Christian tradition **Ref.3,4**. Here all that context is stripped away to focus on the original Greek words and by allowing for the chance that (like other inspired writers on occasion) John may not have fully realized all implications of his words. The diverse ambiguity presented here and the grave threats emanating from any misleading anti-Christ theology suggests that a general public reassessment of anti-Christ theology may be required if Christianity wishes to avoid turning into an overt Christi-*anti*-ty that deliberately destroys the world at Armageddon by going against what Jesus Christ stood for as YhowShua\RealQuestAnswer\Yas. Yas told His trainees to expect extreme vilification.

Could it be that the mystery of the 'bride of Christ' is an actual person who *chooses* to pick up their cross and follow Yas enough to convince Yah to agree to a match when submitting a Ketubah [a Jewish Marriage Contract unilaterally written by the groom, submitted to bride and father of the bride for review/rejection/acceptance]? Could it be that this person must learn to love their enemies like Yah and Yas do, so 'Antichrist'-grade vilification is merely an elaborate Rorschach-test?

**Could it be that this person is key to avert Armageddon**, like Noah, Jonah, and Joan of Arc were for their respective disasters? Could it be that this person needs to be able to identify with most or all former prophets as well as villains to help all of humanity find its way back to Yah? Could it be that the two different goats in the Yom Kippur ritual are supposed to map to Yas and that person? Exhausting potential patterns to match is beyond any one person and would likely require a large research team. Yet, what isn't beyond one persons ability is to answer a question about **willingness to marry a stranger at first sight** in a faraway land, like Rebecca <sup>Gen.24</sup>, even if that life will include **vilification by the rest of the world** and a commitment to serve as an unwitting Satan as Yas showed by inviting Peter to "Get behind me Satan" <sup>Mt.16:23</sup>. It's unnecessary to know all that lies ahead for deciding whether to commit to a journey, not unlike in human marriage. Regardless of how others may answer that challenge, LLoL found a very personal answer to that escape-goat challenge by Yas; it boils down to a big YES because somehow Yah, Yas, & Ruach answered the most vexing theological questions before the escape-goat question ever became personal for LLoL.

## **aCh** Box: **LLoL's very personal answer to that escape-goat challenge by Yas**

Here's LLoL's 2023-12-17 very personal answer to the escape-goat challenge implicitly posed by Yas in Revelation. Briefly, his enthusiastic YES is qualified by the answers Yah, Yas, & Ruach gave him to the most vexing theological questions such a question may raise, some of them mentioned here, many of them answered long before any such escape-goat related questions ever became personal.

Below is a super-brief summary of many much longer texts scattered across the research materials of LLoL's 42+month pandemic *wid-e* research marathon that led him to all this. Comparing the scale of thought and preparation isn't really possible, because he feel as if he has at most scratched the surface of what he estimates Yah and Yas actually did produce to somehow catch his interests. If LLoL, as a biologist, was to a zoological comparison of size, he would say that his ten-thousand(s) of books and many gigabytes of papers he is basing his answer on amount to much less than a small "Laodicea Lesson (1843)" jellyfish while the work of Yah and Yas exceeds that of the huge Lion Mane jellyfish and L couldn't even say by how many orders of magnitude. In other words: it looks like an overwhelming embarrassment of riches. It is hard to describe in words. Here is a try:

LLoL to Yas and Yah: [I heard the song of love that You sing](#). I can't un-hear it. You invited me via [Levitate](#) and if that's all there is to the 'rapture', fine by me. What I simply can't keep watching – if there's any chance to do anything to stop it – are the horrific ways how we humans keep destroying the beautiful world You made and how I can't extract myself from that blind beastly destruction industry of BABL because I am caught in datageddon. I can tell enough about it in theory to know that You'd know a way out and that I will never find it myself unless You help me. I don't want to keep implicitly marking myself as a blind beast by staying stuck in BABL. Given how much I've been my own worst enemy so far, how many miracles You've done for me, and how much I've still resisted You, I can't escape the conclusion of being at least an involuntary accidental mediocre Antichrist and likely much worse in light of my failure to prepare for the 2020 pandemic in light of the 1995 perspective You gave me. I know You only give gifts that are good in the end and I've come to understand why. I asked you 2021-08 to give me the job of cleaning toilets in heaven for the rest of eternity (or whatever else you may need most) in exchange for an insurance to guarantee that You keep me from turning into a dictator (likely with all the best intentions, but devastatingly evil still), because I can't handle that risk. I trust you keep that deal. Therefore, I can dare volunteer for that role of escapegoat in the 'coming deputy' cell of the anti-Christ confusion-matrix. Because I trust that You got me and I can never fall deeper than into Your hand. No matter what. Also, in case it matters: I can't believe if I'm indeed the first one to seriously propose like this, because there are so many others who also love you very very much, so if You want to keep this an open relationship, that is completely up to You. I'm happy to adapt in whichever way You'd like me to, because You'll have to be the one transforming me anyway; the same goes for any potential sex-or-gender-or-sexual-orientation or any other adjustments You may wish. You know how limited I am, and that here isn't anything I can do well that isn't because of You (except maybe screwing up). So: Yas and Yah, Your Best Will shall be done! No more, no less, nothing different. I've done enough systems modeling to know that Your Best Will is the best thing that could possibly happen ever over the long term, even if it may require to temporarily walk through hell, Hell, or HELL. When I do, I know You'll be with me. I don't care (or at least I don't want to care) what the rest of the world says, including all Egyptians, all my family and friends, all colleagues and researchers in general, all Christians I know and those I don't, all Jews, Muslims, and people of other religions, institutions, or nations. I don't care if others call blasphemy what I say here. You know I'd rather be dead than go on resist You. Also, as a Jew You earned the right to kill me many times over, given how much Your people have suffered first from my mother's ancestors in Italy (Ancient Rome & the Catholic Church) and my father's nation of Germany, where I grew up. So, what will You say? I'd be delighted to avert Armageddon with You both, because I cannot do it alone. Therefore: **Will You murder me, marry me, andOr harrow hell with me?**

I hope to prepare a proper formal Ketubah along these lines, which I hope You will like. I know I have to trust You to give me the wisdom required to write it well andOr for You to amend it to refine my impure language. Thank you for Your patience and grace and loving kindness! Your LLoL.
