CANary in Earth's Mine

Choose: (0) Let LLoL **die?** or **(1) Move all to buy in for ONLY ~\$8/yr/person** so Reality accepts LLoL's request to become Yah's "Shepherd Dog" **CANary in Earth's Mine?**

1 Canary brings global peace of mind by assuring everyone that no nefarious power has yet taken control of Earth. How? Yah allows LLoL to flip Big Brother from controller to controlled like a CANary for Earth's Mine. → CANary holds the absolute power that corrupts absolutely. → **To survive:** CAN perfects weakness or dies. → Maxes out *gentle kind reasonable* transparency. → Cuts assumptions via **Least Assuming Method Blade** that anyone can question. → Slows to see *The View of The Weak*. → CANary tied up in 24/7 transparency to fight 7DUI datageddons at Armageddon. → A CAN monitored 24/7 cannot hatch secret special interest plots. → LLoL evolves STa1-b12. **LLoL's 5+year research marathon concludes:** "My best way to avert accidental nuclear winter and global tyranny by anyone is for me to volunteer to reconcile *everyone transparently* by working for all and only against obliteration by *nothing*. Thus everyone who Wrestles with Reality gets to their Promised Land by connecting all the dots." Inspired by Zech.4:6, 2Co12:9 ML:5:3, Amos 2:16, Mt.22:11-13, Rev.19, Lev.16, Mt.10, Mk9:35, ...

Use super-rationality to end all multi-way standoffs to stop humanity's 7DUIs

Guard social ergodicity (in First↔Last switch), train all in each 7TrackRole of all 7ChangeStages of Jubilee-based innovation economies, where global security is guarded by **AIPTO**, the **Atlantic Indian Pacific Treaty Organization** that safely kills threats from tyranny and hard-wars with soft-wars of Real Quests for Real Answers in Reality\Yah.

Mission Vision

ZION on Earth is run by its *Balance-o-stat species* via social ergodicity, a Jubilee-driven innovation economy, & WoLC soft-war weapons, to kill bad AI and hard-wars.
