

# Yah's 3<sup>rd</sup> Temple \Y3T

for all of Reality \Allah \YHoWaaH

**How** can Yah, the Greatest Mathematician who runs the multiverse on time, **teach Heavenly Jubilee Math** to wild hordes of Yah's dear darling daredevils, obsessed with shiny short-term gains? Abstract math is breath-taking, but who can breathe it? The creed "*if it bleeds it leads*" leaves no time for the intangible math of a 2nd Exodus! **Knowing daredevils** prefer bleeding object lessons, Yah found best ways to encode Jubilee Math in bloody ways, to offer great loot. **Yah's hope?** Volunteers will learn to keep *all* odd siblings to let *nobody* go to hell long-term. Yet, so far Yah's Book is a Sphinx, Yah's Code an Enigma.

Now LLoL, a bloody German WASP, found the Ark of the Covenant in abstractions for self-stabilizing innovation economies against advanced persistent threats from 0. Knowing daredevils don't care, **Yah rephrased the offer:** **(0)** Do *nothing* wrong to get accidental nuclear winter ... or **(1)** **Wake up to real Jubilee Math in Yah's 3<sup>rd</sup> Temple** on Yah's 2nd Exodus as seen by the prophets of Israel. This map of **Yah's 3<sup>rd</sup> Temple \Y3T** rebuilds the tangible 1<sup>st</sup> Exodus Tabernacle in an abstract blueprint for how to best innovate responsibly. Ignore, then AI will kill all.

**Unique Self** [mind, thought life in Reality, Most Holy Place]

**U.1: 7Tr**ibes exemplify the **7TrackRoles** required by *any* general social order. If Roles are too self-centered, they forget to 'think outside of the box'. Cultures grow brittle when different roles fail to understand each other. 'Pure' 7Tr cultures will splinter any paradise. To avoid that, *each* role must innovate by wrestling with Reality (like 0=ISR):

**0** ISR := any of (1 AMO, 2 HIT, 3 CAN, 4 PHE, 5 JEB, 6 HIV, 7 GIR) as needed.

**U.2:** Reality requires a **7HeroJourney** to **7He**aringEfforts. In switching 7Tr roles, mindset is everything. A personal **7Hero** journey is essential for transforming victims into High Priests of Reality, qualified in their respective area.

**0** NOAH := any of (1 ACD, 2 TTT, 3 GAT, 4 MYM, 5 LUC, 6 RES, 7 FRE) as needed.  
More in detailed 888 SLIM intro's & Campbell's 'Hero with a 1000 Faces'.

**Warning:** One's **future innovation potential dies if Reality is approached the wrong way!** YIKAW re-envisions <sup>Lev.10+16</sup>

**Theosis:** follow *RealQuests to RealAnswers \Jesus\Yas\Isa* like YhowShua to become like Reality in one's vocation by learning to control one's thoughts and loving one's enemies like God (=follow Truth to one's cross like Yas).

**The resulting agile sanctuary of mind is critical for all else below; it requires everyone to stand before Reality alone to serve Reality directly in one's Promised Land.**

That is why a 7Hero cannot be "made" or "demanded".

**InGroup** [linked RealityWrestlers who connect local ... dots]

As *Unique Selves* guard against *oversimplifying*, so rules of *InGroup Sanctuaries* guard against *overcomplicating* to prevent overreaches that kill unwittingly. To avert all

**OverSimplifying overComplicating overReach \OSCR** due to **Blindly Assuming Blindly Leveraging \BABL** requires all to work together in evolving new Reality-based rules for **Zoning Investigating Organizing Navigating \ZION** to be shared by all in small ... large groups. This takes time, trial & error; reliability varies. The blood, sweat, & tears in working out details can't be avoided by AI or magics.

**I.1: 7Ch**urches of Revelation exemplify **7ChangeStages** of any healthy innovation process aiming for reliable ZION by rejecting wobbly BABL due to risky OSCR built on sand:

**0** ZION := any of (1 EPH, 2 SMY, 3 PER, 4 THY, 5 SAR, 6 PHI, 7 LAO) as needed.

**I.2: 7StabilityCodes \StayC** denote **7StayConstancy** of the meaning of symbols rescued in BABL for Exodus journeys to ZION's maturity in a **Staybilizing Versioning System**:

**0** TT := any of (1 MM, 2 NN, 3 OO, 4 PP, 5 QQ, 6 RR, 7 SS) as needed.  
These **7StayCs** implement a **non-violent IronRod rule** <sup>Ps.2-9 ... Rev.19:15</sup>  
extend Loewe et al. 2017 'Evolvix BEST Names.' Ann.NYAS 1387:124-144 Suppl.

Without clear 7StayCs, navigating 7Ch can be a nightmare.

**OutGroup** [all nations, tribes, groups, languages...aliens]: Apply 7e-lessons above to avoid overreach via 7Sp, 7Me:

**O.1: 7Spirits** of Boolean Truth <sup>Isa.11</sup>, like **7Sp**aceProcesses, reliably grow innovation when embraced. But success requires linking VOIDS & killing lies, which can be hard:

**0** VOID := any of (1 KB, 2 WB, 3 IB, 4 PB, 5 RB, 6 VB, 7 OB) as needed.

**O.2: 7MentorOrganizing \MentO** delivers key resources & info to nurture & guard mental wealth for outsiders too:

**0** TT := any of (1 MM, 2 NN, 3 OO, 4 PP, 5 QQ, 6 RR, 7 SS) as needed.
