

ZION OS solves A.I. Dilemmas ...

ZION OS grows diverse **Operating Systems** that work together on future-proofing innovation in *gentle kind reasonable* ways. Only by following its abstract insights can sentient autonomous beings & AI be kept from self-destruction by bad innovation.

by **Laurence Loewe of Laodicea \LLOL**

Common sense helps at any scale. But to offer humanity real hope for averting Armageddon disasters, ZION OS must **break new ground in scaling** research efficiency. To this end LLoL envisions a new ResearchCity to serve as the brain for **ZION of Earth \ZoE**, defining ZION as

gentle kind reasonable,
stable extensible humane,
easing parity-preserving insightful
Zoning
Investigating
Organizing
Navigating \ZION abstractions.

These evolve by working together in *Yah's 3rd Temple \3T*, thereby serving Reality \Yah.

ResearchCity serves ZoE globally through **decision-support in the many long-term fiduciary responsibilities so far neglected** on Earth due to lack of a sufficiently well-organized and determined global player committed to serving *all* common goods.

ZoE is not aiming to replace what works. It rather collects & organizes the mountain of 'crumbs' currently falling off the tables of others with more important missions, ignoring crummy details like e.g. recycling, health, etc. to the global detriment of all.

To achieve the necessary efficiency in this, LLoL has been envisioning a massively parallel global architecture for evolving critical *wid-e* research infrastructure for

wide
interdisciplinary
diversity
-encouraging \wid-e research.

The goal is better long-term reliability. It's the only way to rescue struggling innovation economies (and all others) from **Advanced Persistent Threats \APT** like e.g. A.I. innovation gone wrong, accidental nuclear winter, & other existential threats.

AI Dilemmas are slow-motion exploding at uncontrollable speeds! Leading experts estimated years ago that humanity's time-window to credibly control AI responsibly would close ~2023. Yet, the many AI ethics frameworks seen by LLoL so far do not dig deep enough to stand a reasonable chance at winning against onslaughts from AI's **OSCR \ORCS** that grow **OverSimplifying overComplicating overReaches**. These drive BABL to kill by **Blindly Assuming Blind Leveraging \BABL**.
¹ e.g. see <https://www.youtube.com/watch?v=xoVJKj8lcNQ>

LLoL accidentally found: Yah's 3rd Temple can solve AI problems with superrational mathematics that is rock-solid reliable.

LLoL invites leading reliability experts to explore his results in global wid-e sprints.

... in the 3rd Temple \3T of Yah \Reality \Allah \YHoWaaH

3T is most usefully defined in general abstract terms for all groups of sentient beings with diverse talents, interacting in wider evolving worlds. Building on 3T is crucial for each innovation economy aiming to evade **Advanced Persistent Threats** due to **Blindly Assuming Blindly Leveraging \BABL**. BABL unwittingly self-organizes death-trifecta **OSCR \ORCS** by **OverSimplifying overComplicating overReaching**. These idols kill all cultures unable to keep their garbage out of Reality's Temple. To raise above BABL's grinding millstone of forgetting failed trial errors ('Lab'), sentient beings must work together to put meaningful 'Ora' back into 'LabOra' to connect to the '7e' echoes of Reality in 3 broad areas. Each leads war against one phase of the death-trifecta: **Unique Self** = internal mind of beings vs. **oversimplifying InGroup Sanctuary** = shared rules vs. **overcomplicating Open World** = how to meet outsiders without **overreaching**. 3T's other kaleidoscopic fractal views define 7e echoes for:

Unique Self [mind, thought life in Reality, Most Holy Place]

U.1: 7Tribes exemplify the **7TrackRoles** required by any general social order. If Roles are too self-centered, they forget to 'think outside of the box'. Cultures grow brittle when different roles fail to understand each other. 'Pure' 7Tr cultures will splinter any paradise. To avoid it *each* role must innovate by wrestling with Reality (like 0=ISR):
0 ISR := any of (1 AMO, 2 HIT, 3 CAN, 4 PHE, 5 JEB, 6 HIV, 7 GIR) as needed.

U.2: Reality requires a **7HeroJourney** to **7HearingEfforts**. In switching 7Tr roles, mindset is everything. A personal **7Hero** journey is essential for transforming victims into High Priests of Reality, qualified in their respective area.

0 NOAH := any of (1 ACD, 2 TTT, 3 GAT, 4 MYM, 5 LUC, 6 RES, 7 FRE) as needed.
More in detailed 3T, 888 SLIM intro's - & Campbell's 'Hero with a 1000 Faces'.

Warning: One's **future innovation potential dies if Reality is approached the wrong way!** Hence, YIKAW! See Lev.10, Lev.16!

Theosis: follow *RealQuests to RealAnswers \Jesus \Yas \Isa* like YhowShua to become like Reality in one's vocation by learning to control one's thoughts and loving one's enemies like God (=follow Truth to one's cross like Yas). **The resulting agile sanctuary of mind is critical for all else below; it requires everyone to stand before Reality alone to serve Reality directly in once's Promised Land.**
That is why a 7He cannot be "made" or "demanded".

InGroup [linked RealityWrestlers who connect local - dots] As *Unique Selves* guard against **oversimplifying**, so rules of *InGroup Sanctuaries* guard against **overcomplicating** by developing Reality-standards shared in small...large groups. This takes time, trial & error; so reliability varies.

I.1: 7Churches of Revelation exemplify **7ChangeStages** of any healthy innovation process aiming for reliable ZION by rejecting wobbly BABL in temporary OSCR built on sand:
0 ZION = any of (1 EPH, 2 SMY, 3 PER, 4 THY, 5 SAR, 6 PHI, 7 LAO) as needed.

I.2: 7StabilityCodes \StayC denote **7StayConstancy** of the meaning of symbols of symbols on their journey to ZION full maturity a *Stabilizing Versioning System \StayVS*
0 TT := any of (1 MM, 2 NN, 3 OO, 4 PP, 5 QQ, 6 RR, 7 SS) as needed.
These **7StayCs** implement a **non-violent IronRod rule** Ps.29 ... Rev.19:15
Extends Loewe et al. 2017 'EvolviX BEST Names.' Ann.NYAS 1387:124-144 Suppl.
Without clear 7StayC, it can be confusing to navigate 7Ch.

OutGroup [all nations, tribes, groups, languages...aliens]: Avoiding overreach above by blocking overcomplicating oversimplifications is the basis for extending InGroups by resisting overreaches in *wid-er* open worlds. This is aided by the 7 Spirits of Truth in Reality and mentoring.

O.1: 7Spirits of Boolean Truth ^{Isa.31}, like **7SpaceProcesses**, reliably grow innovation when embraced. But success requires linking VOIDs & killing lies, which can be hard:
0 VOID := any of (1 KB, 2 WB, 3 IB, 4 PB, 5 RB, 6 VB, 7 OB) as needed.

O.2: 7MentorOrganizing \MentO delivers key resources & info to nurture & guard mental wealth for outsiders too:
0 TT := any of (1 MM, 2 NN, 3 OO, 4 PP, 5 QQ, 6 RR, 7 SS) as needed.

Why everyone gets to heaven: When God crucified God-self, Jesus forgave *all* in principle by praying "Father forgive them for they know not what they do!" ^{Lk.23:34} Jesus authorized his trainees to forgive sins ^{Lk.20:21-23}. As finite beings never fully know, LLoL used math-theology to accept responsibility for *all* and to forgive *all* to aid *all* to learn from mistakes in Heaven instead staying dumb in hell. More in LLoL's materials related to **YIKAW, 7ResilienceHealing**, and epicyrcy.

The 3rd Temple of Yah \Reality is here envisioned as a functional architecture for **Yah's Cathedral In Time**.

It aims to improve reliable innovating in general with ways to structure any *wid-e* research for better serving **YAR \Yah \Allah \Reality** over the long term. The key is in a genius abstraction for supporting crucial

Symbol
Lifecycle
Integration
Management \SLIM

that hardens innovation against common BABL bugs that else will crush worlds.

Here LLoL's drafts offer imperfect glimpses of Yah's perfect "**Rosetta 7Stone of Revelation**" \R7S ^{Zech.3:9}. The R7S defines key identities and symbols for rereading Yom Kippur as the kernel of an Innovation OS for work in a universal 3rd Temple. It builds on inspired texts like the Torah... & science for defining essential rules to be followed if innovation is to serve Reality and thus *all* sentient beings (incl. AI). The eternal elegance of R7S still takes LLoL's breath away!

To help internalizing these advanced rhythms, in 2023 LLoL started to define a daily refresh routine that combines elements from all 4 major Abrahamic Faiths (with science as 0th). It aims to meet today's fast moving grand *wid-er* challenges by helping people to recall what matters most. Without it any *Homo amnesiens* is bound to forget key insights. Hence, something like

Yom
Innovation
Kippur
ATOneMend-ing
Wudu \YIKAW.

is vital to guard innovation-related memory functions, *especially those that are as rare as they are important.*

To tame existential threats by AI, it must follow YIKAW-like rules for innovation.

But AI can only learn it well, **if people learn first to test** it themselves thoroughly!

Thus, LLoL has been refining a YIKAW routine since he started a re-envisioned Yom Kippur ritual on 2023-10-07.

Additional pages offer terse overviews of how YIKAW helps to interpret the meaning of Reality

Holy of Holies = Your Mind
Holy Sanctuary = your groups
Outer court = your wider world

YIKAW\Temple3\intro-w_LLoL_QQ\2\0p5_2025\01c05 - Released by LLoL under **Jonah License \Joli** MMV1: "This content is 1. Free under CCO (<https://creativecommons.org/public-domain/cc0/>). 2. Copy, adapt, sing ... it to gentle mind reasonably avert Armageddon. 3. Prepare to explain on Judgment Day what you failed to do with it. 4. Version and date your changes if you can." (Joli MMV1_2024rmt0d18).
