Summary: Many accidents don't happen by accident. They only become inevitable after all data for averting them got lost.

Like in the Titanic 1912. Or in accidental nuclear winter. Or in the any of too many ways to predict how the world ends. LLoL at the *Datageddon Armageddon Research Lab* found: **Humanity is woefully unprepared** to face its "7DUIs", the pile of existential threats defining its *Great Filter Tribulation*. So, in a daring heist to steal the thunder of terror LLoL is sending 11 Open Letters to different parts of the World Government, posing a decision dilemma enforced by nuclear roulette. It's like in Pascal's Wager, only for *this* world. **Choose** by acting: **(0) Death by default:** do *nothing* → nuclear roulette kills all. **(1) Escape to Life:** scale up a ResearchCity to serve Reality with a UN Mandate to built on Truth, logics, care, hope, trust & big data for living *gentle kind reasonably*. This megacity prepares a FUN infrastructure for initiating a Jubilee-based innovation economy to form a more perfect union & save all.

To all who care about averting accidental nuclear winter: I am LLOL and I approve this message:

Stop the Steal of true Jubilees !

Let's bring hope to 'post-truth' cultures by moving them into a pre-Truth World. For Truth never dies. It only kills its murderers – unless changed hearts & minds call for grace.

If we empower all people to follow Truth, that will disempower idols, stereotypes, and dark biases. Blind stereotyping idols are now draining all divine meaning from the 7-faceted gem in the Capstone of the US Constitution. To stop falling off that cliff, everyone in the whole world must be empowered to reclaim this Capstone *for everyone forever* in a Jubilee.

By accident or by divine providence I found a way to explain how to do this based on the manifest destiny in the 7Capstone of the *Uniting States of Philadelphia* in Revelation ^{Rev.2-3}.

It grows the Abraham Accords into a blessing for all by averting accidental nuclear winter.

But I need to find a way to get through to every individual to win hearts and minds, not for me, but for the greatest Truth in Reality: that *each and everyone* is called to become a hero for all in their own life! I can explain how that works.

At this moment invisible villains, idols formed by mirages from *nothing*, are tapping into your collective life force. They try to siphon your truth, hope, courage, dreams, your humanity. They try to vanquish your destiny. They treat you as helpless. But *nothing* is helpless. What *nothing* cannot know is that your power is innate, given to you by Reality. It has always been within you. It's based on Reality and on your Real Quests for Real Answers, the only way to Truth that exists!

I know there are so many factors that can cause people to not feel their power, but I'm here to remind you that none of those things hold a candle to the power Reality has placed within every single one of you!

I thought I was supposed to save everyone. But I see now, there is only one way for this world – or any world – to heal and flourish: By everyone working together as a team. When each of us contributes our *unique* gifts to the world with true care for all, then we all shine at true Jubilees together.

The power of one person – following the Jubilee logic of Truth – moves mountains! Let's all tap into the deepest Truth of our soul, and our own magnificence as *Homo transiens*, the transitioning humans. Then together we will defeat the powers of darkness rooted in the knowledge-faking of *Homo "sapiens"*. This *know-it-all* is always pretending to know all that matters, even if it leads to ignoring its own imminent doom in accidental nuclear winter.

But the world doesn't have to end in that MAD way. If we decide to serve the Truth in Reality together, then we will be unstoppable. We will turn all hardwars into softwars to benefit all. Together we will create a better world, where all **machines** get the **maintenance** they need, all **humans** the **care** and **meetings** they need, all **democracies** the **fair elections** they need, and all **innovation economies** get the **Jubilees** they need to avoid self-destruction by AI bias.

For when I'm weak then I am strong. And when I've become *nothing* in my area to pin it down in *Cross Reviews Obtaining Stabilizing Semantics*, then I rule the world through my null hypothesis, empowered by true Jubilees.

Yes, we can take a post-truth world by storm through the weakness of reliable Truth. Let's dare to follow Truth *gentle kind reasonably* before it kills us in accidental nuclear winter!

See LLOL's Abraham Accords & Good News Pack for more.

Inspired by Cara's Hope Speech that turned around the fate of her world in the last episode of *Super Girl* (S6E20). Adapted by LLOL (2025-11-18+) to help introduce his *Good News Pack*.

Will You join my Coalition of the Willing to call on the Titanic Command-Bridge of Earth to allow ResearchCity to replace the fate of accidental nuclear winter with humanity's true Jubilee destiny?

Q: Why now, why me? LLOL's **A: Why not?** Who else? When else?

- (1) Those who don't even care to save the world do get why it matters in general. (2) Even children can understand it.
- (3) Everyone knows their own reasons for not taking personal responsibility to save the world. (4) Some warn about trying to save the world, for many died trying or made things even worse by not staying *gentle kind reasonable* for all. (5) But if people

really love Reality, or others, or even only themselves, they will *want* to care to save the world from accidental nuclear winter – if only they knew how. (6) To find better ways to distribute risks and workloads, LLOL builds ResearchCity work-logic cascades to keep it all *gentle kind reasonable* for **ONLY ~\$8/yr/person**. (7) But, outside of movies, **who will care even for ONLY ~2cent/day to gentle kind reasonably save the world?** See SD3 for details.

Box B0

... is defined by **data too disorganized to avert disaster**. Thus a 'DAG' always triggers its Armageddon disasters – unless *gentle kind reasonably* resolved in time. Datageddons self-organize by *incurious ignorant indifference*.

Box B1: A Story of **Somebody, Everybody, Anybody, and Nobody**.

This is a little story about four people named Everybody, Somebody, Anybody, and Nobody. There was an important Job to be done and Everybody was sure that Somebody would do it. Anybody could do it, but Nobody did it. Somebody got angry about that because it was Everybody's Job. Everybody thought that Anybody could do it, but Nobody realized that Everybody wouldn't do it.

Eventually Everybody blamed Somebody while Nobody did what Anybody forgot to do.

An early version of this story had impressed me so much, that I framed it for the wall where I lived 1995-1997.

Herewith I officially apply to become the Nobody who fights nothing to finally end nuclear roulette. My results in SD1 show this is *not* an empty game of words. My math shows: I only win if *Everybody* wins!

Credits: I owe all I see to my personal **Hero Jesus**, whom I met anew as YhowShua \Yas \Isa \RealQuestAnswer, who died to train me as Nobody to solve problems4all Phil.2 ... Isa.53. **God**\Yah\Allah\Reality has a **good sense of humor**. Ask the Prophet Jonah ... or me\LLoL. Hence, I ask Yah & Yas: Will you murder me, marry me, andOr harrow hell with me?

Nobody can help Everybody. So, don't blame Somebody! Somebodies have enough on their plate already!

 2025-09-29

Imagine you get a chance to avert nuclear Armageddon, cure AI problems, end human self-destruction, and usher in humanity's Golden Age: will you seize your destiny?

It's of course nobody's job to solve all these problems. But they kept irritating me. So, by a quirk of fate or divine providence Reality offered me the **Job of Nobody** see Box B1. It led me to a divine map for **scaling up a ResearchCity** for solving all these problems in the real world without a need for utopian fantasies or totalitarian tricks. This map also shows how to dismantle all of humanity's "7DUIs".

7DUIs is my nickname for the **7 Death Urn Incinerators** of humanity, the deadly cauldron of (1) pandemics and cancer chemicals, (2) seaspiracy that kills ocean ecosystems, (3) water wars and soil erosion, (4) global warming, (5) tongue-biting work-morale, (6) the end of growth, and (7) ultimate nuclear, AI-drone, or other self-destruction.

My Job is to follow the narrow path pioneered for me by Reality over millennia in real quests for real answers and then trust Reality to do the rest. In this **Open Letter OL1** I invite everyone to **turn all doom into delight** by following Reality. This requires to **finally pay the Pied Piper** of Earth. I found a credible way to do it with **only ~\$8/year/person** so ResearchCity can restore restoring trust in the hallowed institutions hollowed out by corrupting elites. For example:

The **Uniting Nations** were criticized recently as a great idea that didn't work. Yet its Secretary General has neither carrot nor stick to move its "sovereign" members to make peace instead of war. Fear not: I give you carrot and stick.

The **Uniting States of Philadelphia** are divinely appointed guardians of Heaven's 7Capstone in its Constitution that echoes biblical blessings of Mt.5 and Rev.2-3. Yet, instead

of investing most riches into its manifest destiny to *form a more perfect union*, its drive to splinter on all fronts has arguably turned it into the biggest robbers' den known so far. Many fear it's doomed to Making America Gloomy Again but I hope not. For like Jonah was sent to Nineveh, I'm sent to call the US back to its manifest destiny: to multiply that Gem it was given in its 7Capstone¹ to bless the rest of the world to Make *All Great Again*. I have been pleading with Reality\God to delay final judgement to give the US & all one **last chance** to turn from the abyss. *Please don't waste it by taking for a fool the God who gave the US its constitution.*

As a 'proud' protest-*anti*-ing protestant I can say tons more.

The **Roman Catholic Church**, built on that Rock-Apostle Peter, envisioned as a global guardian of the faith, was bent over for 18 centuries like that woman in Luke 13:11. Here is good news: I found an apostolic guide for healing.

The **4+Abrahamic Faiths** (... Judaism, Christianity, Islam, Science, ...) have all been called to serve the Truth. But strife broke this family, some say beyond repair. Fear not, for I was given a way to integrate all of them in a way that I can only describe as divine. The carrot? Abraham Accords that enrich people's personal lives, that integrate my faith.

The **10 Nuclear Kings of Earth**, leaders of the "sovereign" 10 nuclear nations, work hard to keep their people safe. The Owner and Creator of Earth has appointed you as 10 guardians to watch my every move to ensure together that I transparently stay true to the principled way I have been given to avert Armageddon disasters. You save me from myself as I help you to escape death by nuclear roulette.

¹ The **US Constitution's 7Capstone** benefits all who care to share the work to (1) form a more perfect union; (2) improve general justice; (3) grow domestic peace; (4) provide common [sense] defenses; (5) promote general welfare; (6) secure all blessings of liberty; and (7) preserve posterity for all by waging peace and holding wars, so **hardwars are replaced by Islamic 50-year Jubilee-based softwars** as first seen by Moses to benefit all [Lev.25]. These depend on the work of **Fiduciaries Sharing Futures\FiShFus** in the **entirely non-violent ResearchCity** I envision.

The new Jubilee Enlightenment Era Box B3

Human history is marked by tectonic shifts. Not only in the way people live, but also in the way we perceive the world, its limits, & what we can hope for. The enlightenment gave us science, the razor by which we were able to separate the personal and spiritual realm from physical reality. I am here to announce:

We are entering a new era of enlightenment. Therefore I propose a new question:

What if what we perceived as a razor is in fact a bridge?

The true meaning of the Ark of the Covenant is that bridge.

Yes, *that* famed Ark. It's a quantum portal to another realm, but not in the way people think or movies depict.

It's a Stairway to Heaven and a way to invite Heaven to Earth, albeit without the sci-fi drama.

I found it by accident in the ZION algorithms of Revelation after I tore down my temple

to stop serving *my* idols (Jn.2:19!). The Ark was hiding in plain sight all along. How did I miss it?

To see it I had to take a quantum leap of faith to realize how

errors of omission can turn me from best to worst in no time.

See #MyGuilt-A to -D, PosterE-H.

The Ark allows me, a human, to see *God in all things* as well as the worst Devil in *nothing*.

Reality, equivalent to God, runs ZION algorithms to build up – as BABL tears down all it can. (see **SD2**). I can say what I see

on the other side of the bridge:

Heaven on Earth for *all*, run by **Islamic 50-year Jubilees** [Lev.25]. Did I find the greatest discovery or the worst blasphemy?

Will Pope Leo XIV help review?

Am I God's Warrior Nun?

Why I quote "sovereign" and Homo "sapiens". *Sovereign* implies "supreme rulership" and "absolute authority". Latin *sapiens* means *knowing* and – to be meaningful – it implies *knowing what matters most*. Yet, "*knowing*" humans rarely know what hits them and "*sovereigns*" must bow to laws of math and physics. Therefore, "*sovereign*" and "*sapiens*" are dead by definition. They died above from inner contradictions². Some say those labels were aspirational and never meant to be taken literally. Yet, that merely proves the problem of *knowledge-faking Homo "sapiens"*: whenever inconvenient truth asks for a review of former conclusions, ***Homo serpens*** wiggles around it like a snake, while ***Homo amnesiens*** forgets lessons learned that matter most. Thus, as a biologist, I herewith rename *H."sapiens"* to be a mix of *H. serpens* + *H. amnesiens* under the illusion to know it all.

Embrace the unknown. All Armageddon disasters above can be solved in Reality, but only if people actually submit in time to the Real Quests for Real Answers that reveal Reality's way to avert disasters. Men believe what they want, but Reality demands submission like Allah in Islam. Yet, Reality called all to live as RealityWrestlers like Israel in Promised Lands. Israel famously committed every error in TheBook and got thrown out twice as Reality demands absolute submission. So, how can anyone live? That's what RealQuestAnswer\Isa \YhowShua\Yas\Jesus showed by introducing epicroacy, the rule of *gentle kind reasonableness* that Aristotle saw as ideal but unrealistic. Yet, realistic is fake, like a realistic Rolex. It's **ResearchCity's Job to help everyone navigate this maze to cut knowledge-faking in favor of life-giving choices for all.**

² Gödel's 1931 Incompleteness Theorem already implied the death of *H. sapiens* by proving that any world capable of elementary arithmetic is an open world, forever brimming with new things to discover. He proved that such open worlds can only be closed by knowledge-faking. All this matters for how people and rulers see their work: for knowledge-faking 'pet' idols cause all confusion. Few have the computational skills to trace idols in otherwise sensible models. ResearchCity integrates it all to offer decision-support for all who wish to heal & stop harm.

Anathema Transformed B4

Anathema was originally applied to sacrifices brought to a temple where they'd be 'set up on high' for public inspection.

Sounds like peer review in public to me. This explains easily why those who don't see the benefits tend to misunderstand it as 'cursed'.

All who live with peer review and know the importance of full transparency know that it is a blessing in disguise!

Did Yas' early followers of Truth miss out on living in the light of full transparency by not shouting from their roof-tops what they heard in secret? What has the Spirit of Truth been saying in Gal.1:8?

By now it's high time to grow crucial review tools for global communities and AI. I evolve StayVS, a self-Staybilizing Versioning System.

It can stop global misinformation without sprouting dictators as long as people trust a shared StayVS to track Reality.

Humanity must choose now:

Lose it all or build a StayVS to save millennia of experience in math, spirituality, theology, science, humanities ... and AI. The exclusive options are

ResearchCity aims not to interfere with good work others do already. Instead, it's my Job as LLoL to eat all aims falling from the big guys' table as forgotten or scrapped as too hard. Then I use my big data compute modeling insights to work with leading experts to find scalable ways³ to grow lasting solutions. That's how I fight *nothing*, the worst devil of all: I become the German Shepherd Cerberus who feeds on all *oversimplifying overcomplicating overreach* to help Yas, my Good Shepherd, to lead all on the *gentle kind reasonable* way Reality\Allah\Yah had long prepared for all who dare see it.

Risks. If better solutions threaten livelihoods of people working for lesser solutions, it is ResearchCity's Job to find better ways for those people to invest their time. Too many research hero jobs await heroes willing to take them on. To make it at Armageddon, humanity can't afford wasting any supercomputer between *anyone's* ears. Because who kills or saves a life, kills or saves the world. **Help me to save all!** Some only want to save the world if *they* do it and oppose all else as blasphemy. I don't. I happily follow those seeing more than I do, for I know not even *nothing*^{Mt.5:3}. Yet, I'll not **Blindly Assume Authorized Leadership**. I threw my life, wife, and kitchen sink⁴ ^{Boxes B0-B2} at testing reliability in my **Good News Pack**. To debug it better, **I need world leaders to help me.** ^{B3-B6!}

Avert Nuclear Armageddon with Global 2 Cent/Day Donations: RiskyMADorMAP Model

It is a truth universally accepted that proud prejudice comes before the fall. It's by the Law of Triviality that blinds the overconfident. It sank the *Titanic* 1912, began "the war to end all wars" 1914, and sank the *Titan* sub looking for the *Titanic* 2023. It will soon trigger a final nuclear Armageddon through knowledge-faking. Here I show how. I also found an escape-hatch, so: **Don't Panic.** I found the real *Hitchhiker's Guide to the Galaxy* in a funny non-violent Jonah-Esther-Exodus re-reading of the book of Revelation. It's better than I could have imagined. I've seen the Promised Land. To get there a personal and global Exodus is essential. It starts with seeing the world as it is, not as it ought to be. It must review historically experienced lessons learned to see the ax of **nuclear roulette**. It'll kill the *Tree of Knowledge-faking* and its fig-leaves allowing a MAD world order of **Mutually Assured Destruction**. It keeps us from being our siblings' keepers. The danger is meticulously described by **Annie Jacobsen (2024)** 398-page book "**Nuclear War**" as a 72-minute path to nuclear winter 1. The **Doomsday-Clock²** is at <90 sec" before doom but lacks a clear mechanism. In **Fig1** the rigorous math³ of my Evolvix model compiler predicts a "nuclear winter weather" forecast. It recommends to all power-elites to stop fooling themselves and start convincing the Pope and all 10 "Nuclear Kings" to join a round-table to discuss my superrational solution.

The MAD problem is caused by *Homo sapiens'* wiggling out of inconveniences as if a *H. serpens*. Thus, the world can be credibly simplified to a model switching between these 3 key states:

Risky $\xrightarrow{[2]}$ MAD $\xrightarrow{[3]}$ Dead (1-3)

Risky defines today's Risky global state: nuclear weapons exist since 1945, led to 4 "near misses" in 40 years of Cold War, yet are widely ignored as "not my problem". MAD are "near miss" crises (see Jacobsen 2024) lets tails win over humane heads as MAD *initiates start of nukes*. **Fig1** has estimates, slow to fast, saying how long until we fry or freeze in nuclear holocaust or winter. My 3x40 random runs of world history show why **risks of nuclear winter are uncontrollable** as long as "*H. serpens* keeps wiggling" and "nukes are on hair-trigger alert". My best Cold War data predicts, more likely than not, an *accidental end* in up to ~19 years (~6.4 to ~51 yrs). The variability shocked me most: all scenarios predict ≥ 1 in 40 runs leads to nuclear Armageddon in ≤ 1 yr. The only solution I see is calling all 10 Nuclear Kings to a round-table to "**Put Earth in an Escrow**"; so it doesn't accidentally blow up while I work to explain the superrational solution I discovered.

The MAP solution is superrational. It stops the fear-based MAD world order and *gentle kind* reasonably transitions to a **MAP** world order of **Mutually Assured Progress** that serves *all* Life:

Risky $\xrightarrow{[4]}$ Escapogot led Exodus $\xrightarrow{[5]}$ Life MAP (4)

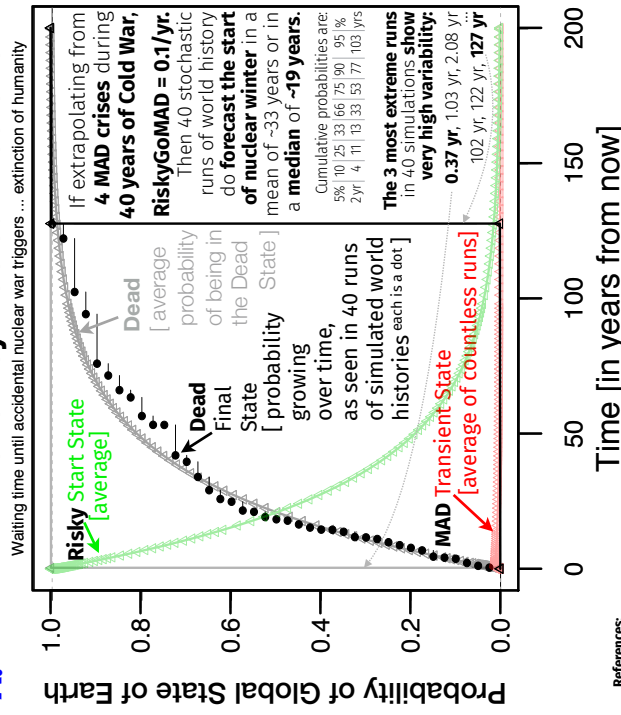

Risky again defines today's deep state of Earth. But instead of going MAD, all join a hero journey, personal and global, led "from the back" by an "**escapogot**". It takes on the responsibility on Judgement Day before Heaven, hell, & humanity to defend all mistakes by all, especially during this **Exodus**. This can't be delegated nor "hired". Only a true volunteer can do it. Yet, no one so far became "the other goat" of Yom Kippur ^{Lev.16} despite 40 years of signs before Yah's 2nd Temple died ^{Yoma.23a}. Fate on 2020-03-27 threw me into a **wide Interdisciplinary diversity-encouraging "wid-e"** pandemic research marathon. I found key maps to get everyone to their Promised Land of **Life in MAP**. Seeing the gap, I volunteered to re-envision Yom Kippur: My new ritual started on 2023-10-07, but I can't finish it alone. Good reasons tell me it contains a **superrational way to end hard war** forever. I urgently need much help to complete it. **Superrationality is like algebra: friend and foe following the rules will find the same solution.**

What I LLOL can do (ask your Highest Power to help me):

- * Volunteer as **Joan of ArMaggeddon** to explain to all 10 Nuclear Kings my Ark-vision for averting Armageddon.
- * Refine how to scale up *wid-e* research in 7-8 stages of 6-8 month training rounds to evolve ResearchCity Atks & cultures capable of serving its 1600 Talent Stadia led by all to **"Fiduciaries Sharing Futures"**: paid by all to work for all to carry all fiduciary responsibility to think long-term and offer *gentle kind* reasonable decision-support worldwide, free to all who wish to keep Earth.
- * Refine definitions to help create an "overnight unicorn" bigtech web-IT "**Limited Liability Charitable Company**" for supporting 288,000 FIShFuS. These are essential to teach bioengineering under uncertainty to all the rest of humanity by organizing 3 annual global festivals to share *wid-e* skills & insights by all for all: to grow Earth's brain.
- * Design the "YasPyr" app" to develop the mental wealth of all in all nations, to aid *gentle kind* reasonable work with "LabORA" project management, "Ora" prayer lists, and a global *wid-e* matching of all tasks to volunteers.
- * Refine the Great Jubilee Race algorithm (my 2014 study)³.
- * Prepare a conceptual art PDF sale (up to ~\$8) /year /person /stadium) that limits "special interest: influence shopping" that vote for *gentle kind* reasonable policies – & candidates to aid *Continuity Of Operations Plan in Don't Panic Guide*.

Want to Save the World?

Let's save A.I., the innovation economy, big-tech and all of us from our worst enemy: ourselves.

Our inner institutional inertia, incurious ignorant indifference, and the world conspire to feed the **Tree of Knowledge-faking**, or "**Tok**". Eating its fruit dumbs down to forget.

We save ourselves by following real quests to find real answers that develop all mental wealth of all nations and of ourselves.

Thus, we grow "**Tol**", the **Tree of Life-giving choices** to avoid **overreaching oversimplifying "orcs"**.

To do so, we need to work with, not against the general 4-phase engine of innovation that is an integral part of the structure of all real-life worlds. As in the natural growth sequence

seed → (vs pure randomness)
feed → (vs oversimplifying)
grow → (vs overcomplicating)
reap → (vs overreaching),

we must respect all 4 phases in their order: Reality judges our success, and the scientific method of loving our enemies by listening to them is the narrow path to life – as taught by Jesus, Socrates, the Torah, the Quran, and countless others to cover the manifold areas of life.

Done right, the green circle works as a 4-phase engine that drives progress up the narrow path towards long-term stability for all. It does this by inspiring reality-based

Zoning → (to **seed**)
Investigating → (to **feed**)
Organizing → (to **grow**)
Navigating → (to **reap**).

This enables innovations to reach the quality required for implementing proper 50-year Jubilees in the ZION epioocracy of Reality.

But hasty innovation kills well-rounded integration. Then this same 4x engine drives down-hill to feed the Four Horsemen of the Apocalypse. These build towers of BABL, castles in the sky, ... until their "orcs" self-destruct what they built. Ignoring orcs in BABL so far started nuclear roulette. If we don't flee its mind-virus, it will fry US by default in accidental nuclear winter.

To escape BABL, who wants to help build a ResearchCity to support ZION's *gentle kind reasonable* epioocracy?

Choose to Save the World!

Easing Parity-protecting **Insights: Epioocracy**, the rule of **epieikeia***

***Epieikeia**, Ancient Greek, is **gentle kind reasonableness** as defined by Aristotle and implemented by Jesus through Real Quests for Real Answers to follow Reality wherever it goes.

Where do you want to go, People of Earth? You Choose:
0. Death by BABL's millstone in default circles? **Do nothing** new
1. Life in ZION by proper Jubilee-innovations? **Aid ResearchCity**

POAATAD is a Power Of Attorney to enable ResearchCity as led by **Laurence Loewe of Laodicea\LLoL** as attorney in-fact: POAATAD authorizes work for 1 year and is limited to gentle kind reasonably Advocating To Avert Disasters of any kind. ResearchCity aims to gentle kind reasonably avert worst disasters first by balancing diverse and dynamic requirements. ResearchCity builds on its best available work by refining **wide interdisciplinary diversity-encouraging \wid-e** research. To stay gentle kind reasonable, ResearchCity keeps improving by following the life-trifecta hallmarks of any epiocracy: epiocracy is defined by the trifecta-rule of gentle kind reasonable balancing. It implies the easing and explaining of parity-preserving insight-information for every party, integrating the views of each party (to cut bias by aggregating).

Under the epiocracy rules of gentle kind reasonableness, in this POAATAD power of attorney in-fact **I herewith empower Loewe and whom Loewe empowers through ResearchCity in order to ...**

- (1) ... **advocate** anywhere on my behalf to avert avoidable disasters, starting with the worst;
- (2) ... **scale up** gentle kind reasonably a sufficiently large ResearchCity, evolving in 7-8 stages (each ~1+6+1 month long) in order to effectively and efficiently avert nuclear winter by dismantling 7DUIs;
- (3) ... **solve** existential disaster challenges from local to global scales, by supporting free access to solutions from the insight-**Tree of Life-giving decision-support \ToL**, and by supporting ToL growth;
- (4) ... **negotiate** with Earth's "**10 Nuclear Kings**", the UN Security Council, and all relevant experts to "Put Earth in an Escrow" to avert nuclear winter until ResearchCity gets a chance to work;
- (5) ... **engage** with challenging cultural, social, political, economic, ... and spiritual questions or preferences to aid communication across old barriers to improve global healing resilience;
- (6) ... **start** building **AIPTO** into the global **Atlantic Indian Pacific Treaty Organization** that will assume responsibility for balancing *all* global security requirements – via advanced soft-war Work-Logic Cascades that no longer need nuclear weapons nor their brutal hard-war WoLCs;
- (7) ... **explore potential offers by extra-terrestrials** to aid humanity survive its Great Filter by helping to fight coveting mind-viruses; this includes especially **Jesus\Isa\YhowShua\Yas**, who also is an oppressed refugee academic from the Middle-East, hoping to lead a Jubilee-based self-stabilizing innovation economy before humanity self-destructs; because Yas defined and passed the hardest trifecta-vetting imaginable for extra-terrestrials, I expect Loewe to submit ResearchCity to Yas' leadership in any form Yas\RealQuestAnswer may return.

As I execute this POAATAD transaction, each unit of **~\$8/year/person/stadion** I transfer goes via Loewe and Loewe's subsidiaries to a 'mustard-seed network of trust'. It builds, guards, and runs ResearchCity to shield the world from accidental Armageddon disasters – by averting 'datageddon' confusion from misaligned data that triggers respective disasters if not resolved.

I trust Reality in Real Quests for Real Answers to guide Loewe and thereby ResearchCity towards the most gentle kind reasonable solution accessible in any given context.

Thus, I understand that Loewe must resist Blindly Authorizing and Auto-Stereotyping Habits to avert Mistakes Oppressing Life Qmitting Crucial Help, even if it can be hard to avoid common oversimplifications. I understand Loewe can only win through the scientific method of Jesus (to love all enemies by listening to all grains of truth they share). I understand that Loewe is not my enemy, even if Loewe talks to my traditional adversaries in open searches for global solutions. Loewe is bound to make mistakes. Hence, I support Loewe in documenting them as best as possible in his **Peer Evaluation Analysis Reviews Library**, to be shared in ResearchCity's global **Historically Experienced Lessons Library \HELL** as a public PEARL to reduce related mistakes.

I understand: (a) **All this is and stays voluntary.** (b) **I can afford to risk trusting Loewe for 1 year.** (c) **If I follow advice, I still carry all risks of (not) signing.** (d) **No refunds: I enable Loewe for 1 year.**

Nuclear roulette only ends if *all* work together to solve the worst existential "super-wicked" problems. These self-organize conflicts so evil, nukes seem desirable. Loewe identifies them as humanity's **7 Death Urn Incinerators** see Rev16 & science, only a ResearchCity can peacefully solve all these **7DUI** challenges:

- (1) evolving pandemic pathogens, chemical mutagen cancers, decay of health-care: all due to slow-motion exploding data disasters;
 - (2) overfishing, seaspiracy, and/or pollution kill ocean ecology: shared global conditionals die;
 - (3) water wars, soil erosion burn all wells: grass-roots initiatives die;
 - (4) global heating feeds storms;
 - (5) tongue-biting caused by beastly mindless job tasks;
 - (6) growth by extraction dies;
 - (7) extinction by AI, nukes, etc.
- So-called '**Armageddon**' thus technically is "flooding by any of too many 7DUI-disasters to avert them by traditional means without globally growing a **7Capstone in Uniting States**". To survive, a '**7Cap**' must be the highest law in a global epiocracy constitution, where Reality's life-trifecta governs to:
- (1) form a more perfect union;
 - (2) improve general justice;
 - (3) grow domestic peace;
 - (4) provide common defenses;
 - (5) promote general welfare;
 - (6) secure all blessings of liberty;
 - (7) preserve posterity for all by waging peace in ResearchCity to support all **Fiduciaries Sharing Futures \FiShFus**.

Limited Durable 1-year **Power Of Attorney Advocating To Avert Disasters** \ POAATAD

Contract with **Laurence Loewe of Laodicea \ LLoL** to win trust for his ResearchCity vision to avert Armageddon-disasters

Powers of attorney are sharp tools for guarding justice. Abuse is harshly punished. POAs are not given to someone not trusted.

Why then trust Loewe with a POAATAD when he's next to a completely unknown stranger? **Considering the alternatives shows why:**

First, it's a very limited POA that does not keep anyone from anything, including blowing up the world. It is biased against all who would like to blow up the world, because it empowers Loewe to advocate against destructive actions. Anyone can do that, but with this POAATAD Loewe no longer only speaks for himself. It also binds himself to see all sides when he uses his voice and insights to advocate against destruction by identifying certain actions as more likely to leading to disaster than others. Anyone who tried knows that this is complicated. Hence Loewe's need to also empower a ResearchCity for binding him to the Truth about Reality. **Loewe will only succeed if he stays in ResearchCity's light of full transparency. It's the only way to avoid growing nefarious secrets.** If Loewe isn't transparent enough, next year's

conceptual art PDF sale will cut his funding because (i) people will no longer buy into what he does, (ii) **sales must stay voluntary to work**, and (iii) **Loewe can't accept special-interest money if indeed ResearchCity is to work for all**

Second, all who default to "no" may wish to ask: (i) **"Do I have someone more qualified to advocate on my behalf to avert disasters?"** If so, wonderful. Loewe doesn't aim to interfere with anyone's good work. Like a dog under the table, he's only looking for crumbs ignored by others, because he found these suffice to destroy the world. His analyses of nuclear roulette and 7DUIs prove this point. (ii) **"What would be lost if Loewe got a chance?"** (iii) **"Given nuclear roulette, how can I prove Loewe's message is safe to ignore?"**

This contract overview is a draft, likely to benefit much from feedback. It evolves at the planned stable link:

YasPyr.com/poaatad/FF

1. Offer +

Loewe offers his home, life, and all **to serve Reality** through **Real Quests for Real Answers** with all his aims, life, soul, future, intellect, strengths, links,... & all resources. To *gentle kind reasonably* resolve conflicts in serving all, Loewe offers **to build ResearchCity** from ~2-cent/day/person contributions as defined in Considerations below to efficiently scale shared ownership. To avert *over-simplifying overcomplicating overreach*, **Loewe's life will be transformed into an open book to lead the transparency** revolution in ResearchCity. In this **POAATAD you:** (a) Authorize Loewe to ask Yah\Reality to **forgive all your sins**; this is neither to forget them nor to stop learning from them but to end unproductive feelings of guilt etc. that else get in the way of learning. (b) Authorize Loewe to ask any Pharaoh to: **Let my people go** to wage peace in ResearchCity as led by the 288,000 **FiShFu \ Fiduciaries Sharing Futures** who follow Reality above all else, organized in **1600 Talent STadia**, each with a unique arena to serve the needs of all in its topical areas. The stadia are funded by Loewe's 2cent/day mustard seed network of trust (inspired by Yas' prophetic parables...). If a stadion doesn't deserve your support, don't buy into its conceptual art for next year. (c) Authorize Loewe to **hire FiShFus & other workers** as required.

2. Negotiation via **Evolving Diverse streams Encouraging Negotiation** +

(a) A ca. **42-day inquisition** by all **to explore** Loewe's offer, **to share** expert insights, **to debate**, and **to improve** Loewe's offer to better balance all. Loewe will openly follow Truth best Loewe can to improve words in this contract as the current wording requires more work to become truly *gentle kind reasonable* for all. Stage 1 in 8 starts if/when people & Yah fund enough for Loewe to start. (b) **Funding stays voluntary** at ~\$8/year/person/arena **max to cap special interests**. Suggested buy-in for all is Stadion 0 to avert nuclear etc. annihilation by leading ResearchCity with all other **1600 Talent STadia**, each with a specialized arena. Each of these 1600 arenas will rise or fall with annual ~\$8/year contributions it gets unless other arenas require its services to build on them (e.g. to meet needs for shared storage infrastructures). Thus, observed annual buy-ins from public sales are non-binding hints on which *wid-e* research is widely seen as most useful in public. They will be taken serious as recommendations because the highest responsibility of ResearchCity is to serve all people. But as looks can be deceptive, public requests are only followed if not overruled by more crucial functional requirements (e.g. to fund stadia that serve all other stadia by storing their data). Hence, public choices matter, but there is no right to demand any particular implementation. (c) **YasPyrApp feedback** flow. Starting with the YasPyr.com website, an app and a Living Docs format is envisioned to aid *gentle kind reasonable* negotiating by better integrating insights.

(d) **Loewe evolves Limited Liability Charitable Company** rules for max transparency: giving away 50% as ^a tax, ^b to investigative journalists, and ^c to the most life-giving hero work in urgent need – as seen by Loewe or delegates with the aid of feedback by all as best as everyone can.

3. Consideration = **Contract defined**

(a) **Bootstrap sale.** Loewe is late by ~7 years. To not punish all by overly limiting Loewe's startup funding, a "retro-sale" is organized for the last 7 years and allowing those with a credit card to buy art for up to 7 people without a credit card. Thus, the recommend **max** of ~\$8/person/year/arena remains unchanged, but those who want can support up to 7 other people without credit cards for up to 7 years into the past, up to \$400 **max**. (b) **All sales are final.** They pay for the conceptual art PDF received 'as-is' in its current state-of-its-art of integration. **No refunds.** No guarantee that future semantic improvements will not change meaning as Loewe aims to make contracts more *gentle kind reasonable* for all futures. Don't buy if you don't want to risk **trusting Loewe for 1 year as attorney in-fact to advocate for averting any all disaster best he can.** If you have better attorneys for averting a nuclear etc. Armageddon, signing this POAATAD encourages you to work with them too. They might avert what Loewe can't. This draft POAATAD is not yet in perfect legal language, so you support Loewe's efforts to make it more gentle kind reasonable. Here are the benefits for all parties:

(c) **Loewe gets to lead his Evolvix research** on *ambiguous semantics of nothing \ason* by improving his universal **Staybilizing Versioning System \StayVS** for all 1600 ST of ResearchCity in order to lead the global war against misinformation.

(d) **Everyone benefits** from StayVS' power to cut confusion that is else bound to destroy the world in pointless disasters.

(e) More details and context are given in the Open Letters and other Supporting Documents of Loewe's *Good News Pack*.

5. Risks of not signing: Without a better counteroffer, conscious rejection may advance humanity's self-destruction. But if one can guarantee the world is safe because "*nothing* is wrong", "*nothing* goes wrong", & "*nothing* can go wrong", no risks exist.

4. Risks of signing

Risk in life is unavoidable. Here is Loewe's analysis of risks in signing POAATAD:

a. Financially. Limited to no refunds. The \$8 limit/year/arena is designed to ensure this huge operation does not impose big risks on anyone but Loewe.

b. Socially. If Loewe is presented with an over-night unicorn from this sale, and if Loewe – despite all his planning for how not to bow to money – still loses his plot, then Yet Another Billionaire was created. Many of those exist already, so the world stays the same. Another hope is trashed.

c. Politically. Culture wars are always against some "devil" and people are said to prefer "the devil they know" over "a devil unknown". Which deal then is not a Faustian bargain with a devil?

Loewe hopes to change this by following Yah & Yas and by funding ResearchCity to get it right. But unless certified by Yah and Yas, Loewe cannot exclude the possibility of being the worst devil (made most dangerous by best intentions). Yet this may be true of almost anyone. Hence, proceed at your own risk.

To most, Loewe will look like a "devil unknown" & a "poor devil". Theologically, to finally learn to properly follow Yah & Yas, Loewe accepted Jesus' invite to Peter "*Get behind me Satan*".^{MT16:23} This offer is theologically tantamount to a zero-trust Faustian Ketubah with Reality to end all Faustian bargains with illusions. **Loewe's radical transparency pledge is what sets him apart from others.**

d. Personally. **Blindly Assumed Authorized Leadership** can make it deadly to sign this. In that case: **Ask Reality how to proceed best and Reality will be your reward.**

Full Name of e-signature [as given] at **Place** on Earth [as given] on **Date** in **Transaction STadia** Years paid \$

In return, at signing, by the powers granted to Loewe by Yas [see John 20:21-23, Lk.23:24, Mt.18:18, Mt.28:18-20, Lk.4:18], **Loewe empowers me** and all **to let go of being Homo 'sapiens'**, the old knowledge-faking self. All sins are forgiven and **I am being recreated daily as a Homo transiens so I can grow better on my hero journey** via life-giving decision-making **to serve Reality** in myself, in all beings, and in all systems for improving Jubilees.

The Escape-Hatch for Humanity in the Valley of Decision at Armageddon

a. Nuclear roulette forces a global choice: death or life. Here **Laurence Loewe of Laodicea \LLOL** defines a wager to choose life at Armageddon by enabling the *gentle kind reasonable* research required to save the world. "LLOL's Wager" is unavoidable because: (1) Short-term thinking locks in existential threats ^{see d.n.k.}, (2) Systemic aid is stifled if 'money must multiply', (3) Idle idol 'growth gods' naturally implode. (4) Checkmate, as no escape is

known from dooming humanity for its lack of *gentle kind reasonable* life-giving decision-making. Refusing death, LLoL as a systems architect hunted this bug for 7+years. He found: it's *his own* Abrahamic faith-collared crime of murdering proper Jubilees! Why is the world so screwed up? Because LLoL asked God for scientific proofs that Jubilees matter before daring to call for catching up on millennia of lost Jubilee-innovation ^{Lev25}.

So God tears up the world ^{Isa.65:24} until LLoL (or anyone) dares to solve Earth's nefarious Big Brother dilemmas by organizing Earth's first Great Jubilee Race. To atone **LLOL now pleads for all** and for LLoL's life: **please help him to explain the 2nd Exodus** to escape the BABL mind-virus of self-destruction **on a personal hero journey** to innovate hearts & minds! This raises myriad questions. LLoL has research answers & **Continuity Of Operation Plans**.

b. BABL's Millstone is the generic trap of **Blindly Assuming Blind Leveraging**:

BABL's self-organizing mind-virus of confusion destroys all who fail to resist. Its guises metamorphose like frogs. It kills reasonable steering until all governability is gone. **BABL falls like a hammer**, fast and final ^{see Rev18, Judges 9, ...}. It avenges all who were wronged ^{see Mt18} by robbing their future. Earth will lose its future to AI pied pipers if it fails to pay up! LLoL offers a *gentle kind reasonable* way to pay.

c. Blue Pill Choice of (0)

d. Nuclear Roulette is only the tip of a huge error iceberg, which only melts when all other super-wicked existential threats, like the **7DUIs below**, are also stopped. That is why a credible ResearchCity must be so huge. LLoL's has detailed plans for how to scale it up effectively (**SupportingDocs SDB**).

Continuity Of Operations Plan \COOP – for a gentle kind reasonable Armageddon

as given by RealOutcrySalvation\Jesus\Yas in Matthew 24, deexcerpted 2025 by Laurence Loewe of Laodicea \LLOL

Faced with catastrophic loss of control in apocalyptic disasters, a strong temptation to despair reaches for human hearts. Such despair is paralyzing the analyzing it takes to turn around doom and gloom into delight and glory. It tempts everyone to throw out the baby with the bath-water instead of resisting the rounding error of hopelessness. To resist that deadly error is to save the baby, the day, and the world. It requires guarding the spark of true hope and life against convenient false hopes and mistakes oppressing life. Having spent a life on the edge of disaster in a nation living on the edge of disaster, Jesus\Yas, greatest Prophet and Professor in history, gave his trainees the following Continuity Of Operations Plan for the predictably most trying moment in all of human history:

0. Remember the Good News: Yah\Reality forgives all sins of all who do not know what they do Lk23:34 to enable all to learn from their mistakes in Real Quests for Real Answers \Yas. LLOL can show why that includes all Homo 'sapiens'. By the authority Yas gave to LLOL Jn.20:21-23, Mt.28:18-20, LLOL became a nobody to freely accept responsibility for all sins nobody is responsible for, of which the faith-collar crime of Jubilee-murder is worst. Accordingly, LLOL asked Yah to forgive all sins to enable better training in the gentle kind reasonable principles of how Yah rules in Yah's Jubilee-based, long-term innovation economy. See Matthew 5-7 for Yas' constitution for such an innovation epicroacy (defined as the rule of gentle kind reasonableness). It fails forward instead of pretending mistakes didn't happen. To improve all learning, instead of whitewashing errors, grow PEARLs in Historically Experienced Lessons Learned\HELL.

1. Stay woke and pray so you can recognize the worst mistake paraded as the latest and greatest in serving real life—despite being the ultimate obliterating stench of confusion about the true meaning of nothing. When you see it, don't despair nor give up hope, for the light is about to break through. To stay on course in Real Quests for Real Answers these COOP guidelines help people in diverse roles to fail forward in their area.

2. To the PraisedFamous: Expand your horizon ... ResearchCity! Congrats on being a PraisedFamous expert, ruling a mountain of data in your area! As you know, many other data mountains exist. Rethink ignoring them! All expert-fiefdoms refusing to link up to see all of Reality\Yah in Yas will fail. To avoid doom, do wide interdisciplinary diversity-encouraging \wid-e research: Learn to flee to new mountains of famous insights. You'll find others are mining hard rocks of data to distill reliable lessons for you. Be a child again! Learn to follow Reality in how others learn. Let Real Quests guide you to Yas. All areas matter if you put life before money. As you learn, keep sharing all you learn! BABL's splintering evil of departmental compartmentalization can only be vanquished by working together in wid-e areas. It requires overcoming the inner institutional inertia of incurious ignorant indifference about others. Your fame grows if you're honest about your unknowns but dies if you're a know-it-all. Aid Knowledge Pipeline Refineries by sharing honest struggles & pitfalls on your hero journey to help scale up ResearchCity.

3. Stay on top of your house, but do not plunder it. If you lead an organization and new awareness of disastrous mistakes comes rushing in, temptation is great to flee with a golden parachute, throw yourself from the pinnacle as a scapegoat, or obscure all evil by white-washing tons of Least Inconvenient Explanations. Resist these temptations of bowing to nothing. Unless your term is up or Reality offers you another way to graciously bow out (eg. as in Isa.38), stay on top of your organization. Reality appointed you to lead it for a reason. Chances are, you best know your house and how to lead it while you also learn to expand your horizon. That is what it means to be an Exodus leader. Do not pretend to already be in the Promised Land. Do not pretend to know more than the next few steps on the way to get there. But do trust that your Real Quest for Real Answers will carry you there in Reality, you and all the people in your organization, even in case your organization might get dissolved in Reality.

4. Continue in your field – without worrying about looks. If you are an expert, a producer, a researcher, a server, or learning to become one, keep working in your field and do

... to not break rules that are bent nor extinguish true hopes that flicker ...

not worry about how it looks if you cannot yet do this or that (whatever people talk about). Hold on to what you have and keep learning to expand horizons in your area (see COOP2). You may not see yet how your painstaking work with the hard rocks of data about Reality connects to big issues elsewhere, but Reality has the best grasp on Reality and always redeems Real Quests for Real Answers. Therefore, resist shortcuts that tempt with spectacular success to win the approval of others. Reality already approves of who you are. Reality welcomes and loves you as you are. No questions asked. Reality already knows you! What you do with this freedom you have been given, that is up to you. You are free to serve as yet another bad example if you wish. Yet, Reality rather prefers that you stay on your hero journey, so you reach your full potential in due time. To do that, continue in your field. Whether you study in school, for a PhD, or produce for supply chains. Don't worry if it looks weak. Reality builds the greatest superpower by combining all The Views of all The Weak. But it only works if everyone shares their real views by living their part in order to feed the Tree of Life-giving decisions. These cut down on the deadly Tree of Knowledge-faking shortcuts. For more on how, see Mt.5-7, Songs... SupportingDocs SD2-SD8, BibleProject.com.

5. Be extra gracious to all who get pregnant. Aid all mothers! When leaders and workers complain about challenges, they haven't seen the difficulties faced by those who are pregnant! Be extra gracious to them, whatever plans they make for their parenthood. Whether it's physical babies or conceptual new ideas born on hero journeys: mother knows best. Support all mothers without forcing anyone into heroics, which is deadly.

6. Be extra patient with parents, educators, children. As all mothers know, pregnancy is only the start of a sea of challenges to be faced in raising children who are to become gentle kind reasonable adults. This is hard enough given the usual sea of reeds and red tape to be crossed into adulthood. But it gets extra challenging when that sea is parted and the unwritten rules of yesterday's canons no longer apply today as they did. While others get to work out what this means for themselves, all who raise children live between their rock of Reality and the hard place of the RealQuestAnswers children need to grow up. To abstain from knowledge-faking there requires an extra portion of grace. So, don't betray the trust of those entrusted to you by pretending to know it all.

7. Pray, hope, and work to reach the next stable Jubilee platform before Reality forecloses today's historic opportunity. Pray you'll be allowed to flee to the new system before harsh winter states of regression depress what was learned or wipe resources to share. Pray especially that you don't completely fail upcoming Jubilee tests: fails obliterate hope to innovate by restricting risk-taking autonomy. You'll be in Heaven, but cry tears of regret over doors you missed. You'll be on pause 'til others learn what Yah had for you if you had cared to see. Such live-locks are computationally equivalent to ruts in hell, clearly echoing Babylonian captivity Lev26:34, 2Chr.36:21. Jubilees need time, resources, autonomy, wisdom, and voluntary good will of all to use all above for good, as in Moses' First Exodus.

8. Beware of deceptive symbols from officials and pundits. 9. Feed others good food, hope, insight at the proper time. 10. Don't get drunk on distractions nor bash\beat others. 11. Meet up to stay in touch and on mission. Whatever you do, be careful to stay gentle kind reasonable: all else will backfire.

Let's not be fools by staying silent at decision time, nor watchers claiming ignorance about those dragged to death. For Reality unmasks all incurious indifference on judgement Day as time runs out for decisions on doing the right thing!

SING in Meet Ups to see: You Are Not Alone! To join others in following Yah's & Yas' COOP on their Exodus hero journey is personal. All 7 change stages for healthy innovation are vital (e.g. Mt.5-7 Isa.58 Rev.2-3). But their many diverse forms easily drown rare true hopes in floods of need. The worst abominable evil of nothing wins if good people do nothing for lack of true hope. Yet, hope is fragile. Hence, it's vital to meet others to feed and guard true hope like the valuable flame it is.

Start or join suitable "microTemples" \µTs to aid defined Exodus missions that nurture true hope to follow Yah & Yas and to recover from wounds of false hope. No need to call it "µT". A church, mosque, *-agogue, school, lab, office,... or any small group, if run well, does what µTs of 2-friends do in pubs Mt.18:20: listen, help, & learn in the Flying University Network \FUN of the 7 Spirits of Truth who comfort, convict, & guide gentle kind reasonably from BABL to ZION. Here are some practical ideas to make old µTs great again by refreshing: (a) Rotate places so meetings stay agile. (b) Rotate tasks in meetings, so all learn all. (c) SING new songs to inspire joy and recall insights. Songs and µT meetings depend on a general harmonic framework for effectively sharing their specific melody and ideas. A µT basic structure like SING can help facilitate Sharing Inspiring Negotiating Giving:

Share meals and more like news, life, needs, highs, lows, laughs; but don't overcomplicate.

Inspire insight: intone true songs, intercede for real outcries, investigate real questions, interpret inspiration in texts, movies, & more. Use ZoE Songs, BibleProject.com, ... anything to jumpstart a µT. The world is full of Yah's glory & good sense of humor for all who dare see. Good µTs help to see how BABL & ZION hide in daily life, like Waldo. Ask: Where was Waldo last week? Any new cosmic jokes by Reality? Let insights of ZION's River of Life flow for all!

Negotiate next steps in Yah's & Yas' mission to make the world gentle kind reasonable for all by bringing good news and relief to others in their Datageddon valley of decision, before it triggers more Armageddon disasters. This is about advancing everyone's hero journey to grow 7-fold resilience healing to implement Mt.5-7, COOP0-11, Mt.25, Isa.58, ... (see SD7).

Give grace to go with the (eg. 507) blessing of Yah\Allah\Reality on next week's Real Quests for gentle kind reasonable Real Answers. Follow Reality's global Jubilee epicroacy to vanquish bashmoling idols of coveting that spin hamster-wheel-prisons from nothing.

Make Yah's main thing your main thing by choosing life over death. Given Fig15 & COOP7:

Storm the Gates of Heaven any way you can with petitions to rescue all the weak dragged to accidental nuclear winter! Ask all your highest powers to aid the 10 Nuclear Kings & LLOL to find the narrow door to keep life on Earth in Yas' Great Jubilee Race (as in Luke 4:18). Pray to defeat nuclear death and to inspire dreams for better alternatives with Yah & Yas!

This PDF is a µT start-up proposal for Yah, Yas, & all to decide if LLOL's aCh-inspired µTs are welcome to help save the world as Fig15 explains. If no: who is LLOL to interfere with the will of the people and Yah? If yes: Yah of Hosts, governing all multitudes and human hearts like rivers, let µTs go viral like Jonah's call in Nineveh – until the 10 Nuclear Kings of Earth decide to "Put Earth in an Escrow" (by not blowing it up) to enable LLOL to lead Yah Exodus in ResearchCity to save the world. Hence, this Don't Panic Guide is free under the Jonah License (see Fig.3,14). Until LLOL can share more on µTs at YasPyr.com, this Don't Panic Guide copy is brought to you by a coalition of the willing in a µT you may contact at: [Add µT contact details if this copy was not created and/or shared by its originator LLOL@balospo.com, DARL Loewe, Unit 300, 6907 University Avenue, Middleton, WI 53562, US, ZoE]:

Abraham Accord 3: Declaration to Sign To Bless All to DARE \Death And Rebirth Execution Validation

0. **Homo "sapiens" is dead.** This knowledge-faker is replaced by *Homo serpens* & *H. amnesiens*:

Homo amnesiens → **Homo serpens**
Human forgetting what matters most. → **Human snake** wiggles to deceive for gain.

Example: *H. amnesiens* struggles how to remember Auschwitz, Hiroshima, ..., 1876, 2020, ..., *H. serpens* exploits for short-term gain¹⁻³ what *H. amnesiens* keeps forgetting: → Forgetting or exploiting nuclear roulette¹... proves not knowing. → Thus, *H.* is not *sapiens*!
→ Therefore, **Homo "sapiens"**, the **knowledge-faking** human, **died of inner contradictions** – but doesn't know it yet!

The death of Homo "sapiens" can become obvious in 1 of 2 ways. I'm called to choose:

(0) **Physical extinction:** accidental nuclear winter¹... AI² or worse kills everyone eventually.

(1) **Mind-virus extinction:** each self replaces one's own *H. amnesiens* & *H. serpens* culture with a *H. transiens* mind culture committed to learn the narrow path to life in all Truth.

Homo transiens → **Homo balospe** = **Balance-o-stat species** of Earth
determined to **transition** to *H. balospe* learned to **balance hopes** for the world

1. I sign Abraham Accord AbAc3 to resist (0) death^{1,2} and choose (1) a life-giving mind^{eg. Ref.3}:

I will take my time to grasp symbols inspiring me to live & let live. I trust my Exodus desert journey is worth all my effort, and that I will enter my Promised Land eventually. Therefore: Today I (re-)start my long journey from where I am into my Promised Land with this first next step: Today I dare to validate my DARE to choose to become a real *Homo transiens*:

I declare the symbolic death of Homo "sapiens". To fight *H. amnesiens* & *H. serpens* minds in me _____ \me,

I immerse myself in the unified **compassionate loving logical** nature of **Reality** \Yah,
in the growing **gentle kind reasonable** nature of all **Real Quests for Real Answers** \Yas, &
in the eternal **explaining parity-preserving insightful** nature of the **Spirit of Truth** \Truth.

Thus, Reality raises me from my deadly inconsistencies to relearn Truth as the new-born Homo transiens _____ \me.

I determine to learn to walk through my deserts until I enter my Promised Land, & live in it! Declarations remind me to act to reach true destiny. I resolve to evolve my culture to get it. As beliefs breed cultures breed methods breed destiny, I *gentle kind reasonably* engage all. **I dare follow Reality in Real Quests to Real Answers to help avert accidental nuclear winter.**

2. **Millennia of "sapiens" knowledge-faking led to growing 10 new towers of BABL**, as high as nuclear missiles fly, **trapping all in nuclear roulette**. Unless stopped in time, this unwitting game inevitably **leads to accidental nuclear winter**. It'll kill LLoL more likely than a car crash¹.

3. **To save all**, LLoL risked all to find a credibly workable plan, worthy of LLoL's life, in order to *gentle kind reasonably* avert nuclear war via *determined intelligent coordinated* action. Too complex for mere sound bites, LLoL's vision needs serious open global review *by all for all*. He calls it Yah's ResearchCity with 1600 Talent Stadia to avert filling 1600 stadia with blood. ResearchCity is to scale up in 7-8 stages to best prepare Yah's Great Jubilee Race to form a more perfect union, *improve justice4all, grow tranquillity, common sense, wellbeing, & liberty4all, 4ever*.

4. **Action. I call on Pope Leo Xiv & the UN to help avert accidental nuclear winter:** Let LLoL explain his 20-80+Poster Exhibit 'Flying Scroll' for public & expert review of plans. Help **win trust of Earth's 10 Nuclear Kings**. Let them & all **put 'Earth in an Escrow' until ResearchCity proved its worth**. I sign to protest the violence of LLoL's silence. Hence I help hear – *doing beautiful things*³ here.
