Let's not be fools by staying silent at decision time, nor watchers claiming ignorance about those dragged to death. For Reality unmasks all *incurious indifference* on Judgement Day as time runs out for choosing life.

Avert Nuclear Armageddon with Global 2 Cent/Day Donations: RiskyMADorMAP Model

It is a truth universally accepted that proud prejudice comes before the fall. It's by the Law of Triviality that blinds the overconfident. It sank the *Titanic* 1912, began "the war to end all wars" 1914, and sank the *Titan* sub looking for the *Titanic* 2023. It will soon trigger a final nuclear Armageddon through knowledge-faking. Here I show how. I also found an escape-hatch, so: **Don't Panic.** I found the real *Hitchhiker's Guide to the Galaxy* in a funny non-violent Jonah-Esther-Exodus re-reading of the book of Revelation. It's better than I could have imagined. I've seen the Promised Land. To get there a personal and global Exodus is essential. It starts with seeing the world as it is, not as it ought to be. It must review historically experienced lessons learned to see the ax of **nuclear roulette**. It'll kill the *Tree of Knowledge-faking* and its fig-leaves allowing a MAD world order of **Mutually Assured Destruction**. It keeps us from being our siblings' keepers. The danger is meticulously described by **Annie Jacobsen (2024)** 398-page book "**Nuclear War**" as a 72-minute path to nuclear winter 1. The **Doomsday-Clock²** is at <90 sec" before doom but lacks a clear mechanism. In **Fig1** the rigorous math³ of my Evolvix model compiler predicts a "nuclear winter weather" forecast. It recommends to all power-elites to stop fooling themselves and start convincing the Pope and all 10 "Nuclear Kings" to join a round-table to discuss my superrational solution.

The MAD problem is caused by *Homo 'sapientis'* wiggling out of inconveniences as if a *H. serpents*. Thus, the world can be credibly simplified to a model switching between these 3 key states:

Risky $\xrightarrow{[2]}$ **MAD** $\xrightarrow{[3]}$ **Dead** (1-3)

Risky defines today's Risky global state: nuclear weapons exist since 1945, led to 4 "near misses" in 40 years of Cold War, yet are widely ignored as "not my problem". **MAD** are "near miss" crises where nuclear winter is a coin-toss away. **Dead** (see Jacobsen 2024) lets tails win over humane heads as **MAD** initiates **start of nukes**. **Fig1** has estimates, slow to fast, saying how long until we fry or freeze in nuclear holocaust or winter. My 3x40 random runs of world history show why **risks of nuclear winter are uncontrollable** as long as "*H. serpents* keeps wiggling" and "nukes are on hair-trigger alert". My best Cold War data predicts, more likely than not, an **accidental end** in up to ~19 years (-6.4 to -51 yrs). The variability shocked me most: all scenarios predict ≥ 1 in 40 runs leads to nuclear Armageddon in ≤ 1 yr. The only solution I see is calling all 10 Nuclear Kings to a round-table to "**Put Earth in an Escrow**"; so it doesn't accidentally blow up while I work to explain the superrational solution I discovered.

The MAP solution is superrational. It stops the fear-based MAD world order and *gentle kind* reasonably transitions to a **MAP** world order of **Mutually Assured Progress** that serves *all* Life:

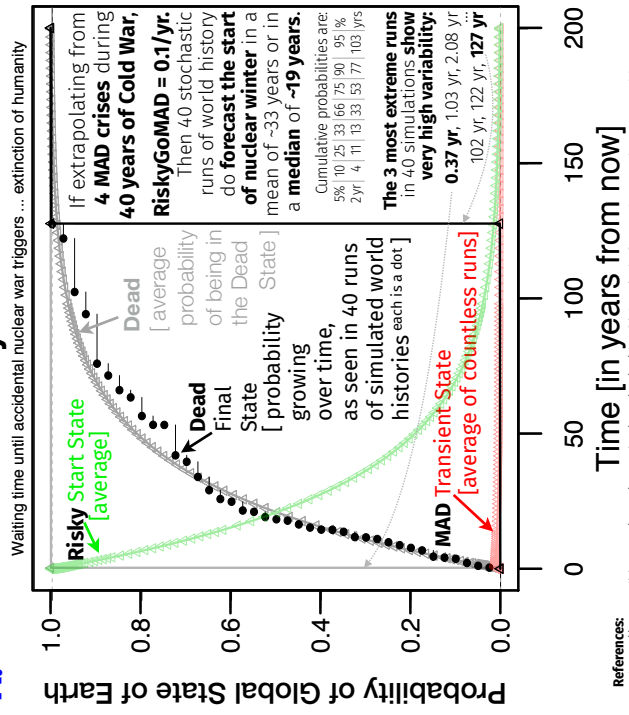

Risky $\xrightarrow{[4]}$ **Escapogot** $\xrightarrow{[5]}$ **Life MAP** (4)

Risky again defines today's deep state of Earth. But instead of going MAD, all join a hero journey, personal and global, led "from the back" by an "**escapogot**". It takes on the responsibility on Judgement Day before Heaven, hell, & humanity to defend all mistakes by all, especially during this **Exodus**. This can't be delegated nor "hired". Only a true volunteer can do it. Yet, no one so far became "the other goat" of Yom Kippur ^{Lev.16} despite 40 years of signs before Yah's 2nd Temple died ^{Yoma.23a}. Fate on 2020-03-27 threw me into a **wide Interdisciplinary diversity-encouraging "wid-e"** pandemic research marathon. I found key maps to get everyone to their Promised Land of **Life in MAP**. Seeing the gap, I volunteered to re-envision Yom Kippur: My new ritual started on 2023-10-07, but I can't finish it alone. Good reasons tell me it contains a **superrational way to end hard war** forever. I urgently need much help to complete it. **Superrationality is like algebra: friend and foe following the rules will find the same solution.**

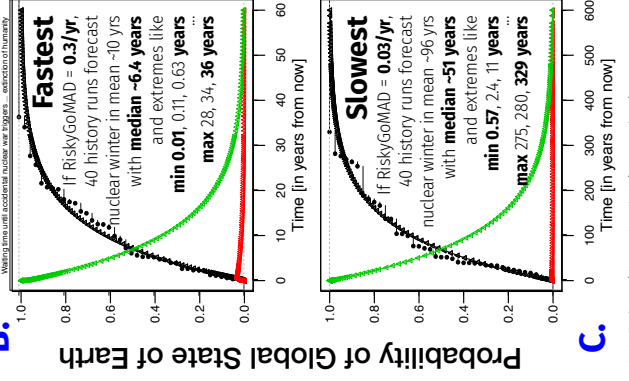

What I LLOL can do (ask your Highest Power to help me):

- * Volunteer as **Joan of ArMaggeddon** to explain to all 10 Nuclear Kings my Ark-vision for averting Armageddon.
- * Refine how to scale up *wid-e* research in 7-8 stages of 6-8 month training rounds to evolve ResearchCity Atks & cultures capable of serving its 1600 Talent Stadia led by **"Fiduciaries Sharing Futures"**: paid by all to work for all to carry all fiduciary responsibility to think long-term and offer *gentle kind* reasonable decision-support worldwide, free to all who wish to keep Earth.
- * Refine definitions to help create an "overnight unicorn" bigtech web-IT "**Limited Liability Charitable Company**" for supporting 288,000 FIShUs. These are essential to teach bioengineering under uncertainty to all the rest of humanity by organizing 3 annual global festivals to share *wid-e* skills & insights by all for all: to grow Earth's brain.
- * Design the "YasPr" app¹ to develop the mental wealth of all in all nations, to aid *gentle kind* reasonable work with "LabORA" project management, "Ora" prayer lists, and a global *wid-e* matching of all tasks to volunteers.
- * Refine the Great Jubilee Race algorithm (my 2014 study³)
- * Prepare a conceptual art PDF sale (up to ~\$81/year/person/stadium) that limits "special interest influence shopping" to vote for *gentle kind* reasonable policies – & candidates to aid *Continuity Of Operations Plan in Don't Panic Guide*.

POAATAD is a Power Of Attorney to enable ResearchCity as led by **Laurence Loewe of Laodicea\LLoL** as attorney in-fact: POAATAD authorizes work for 1 year and is limited to gentle kind reasonably Advocating To Avert Disasters of any kind. ResearchCity aims to gentle kind reasonably avert worst disasters first by balancing diverse and dynamic requirements. ResearchCity builds on its best available work by refining **wide interdisciplinary diversity-encouraging \wid-e** research. To stay gentle kind reasonable, ResearchCity keeps improving by following the life-trifecta hallmarks of any epiocracy: epiocracy is defined by the trifecta-rule of gentle kind reasonable balancing. It implies the easing and explaining of parity-preserving insight-information for every party, integrating the views of each party (to cut bias by aggregating).

Under the epiocracy rules of gentle kind reasonableness, in this POAATAD power of attorney in-fact **I herewith empower Loewe and whom Loewe empowers through ResearchCity in order to ...**

- (1) ... **advocate** anywhere on my behalf to avert avoidable disasters, starting with the worst;
- (2) ... **scale up** gentle kind reasonably a sufficiently large ResearchCity, evolving in 7-8 stages (each ~1+6+1 month long) in order to effectively and efficiently avert nuclear winter by dismantling 7DUIs;
- (3) ... **solve** existential disaster challenges from local to global scales, by supporting free access to solutions from the insight-**Tree of Life-giving decision-support \ToL**, and by supporting ToL growth;
- (4) ... **negotiate** with Earth's "**10 Nuclear Kings**", the UN Security Council, and all relevant experts to "Put Earth in an Escrow" to avert nuclear winter until ResearchCity gets a chance to work;
- (5) ... **engage** with challenging cultural, social, political, economic, ... and spiritual questions or preferences to aid communication across old barriers to improve global healing resilience;
- (6) ... **start** building **AIPTO** into the global **Atlantic Indian Pacific Treaty Organization** that will assume responsibility for balancing *all* global security requirements – via advanced soft-war Work-Logic Cascades that no longer need nuclear weapons nor their brutal hard-war WoLCs;
- (7) ... **explore potential offers by extra-terrestrials** to aid humanity survive its Great Filter by helping to fight coveting mind-viruses; this includes especially **Jesus\Isa\YhowShua\Yas**, who also is an oppressed refugee academic from the Middle-East, hoping to lead a Jubilee-based self-stabilizing innovation economy before humanity self-destructs; because Yas defined and passed the hardest trifecta-vetting imaginable for extra-terrestrials, I expect Loewe to submit ResearchCity to Yas' leadership in any form Yas\RealQuestAnswer may return.

As I execute this POAATAD transaction, each unit of **~\$8/year/person/stadion** I transfer goes via Loewe and Loewe's subsidiaries to a 'mustard-seed network of trust'. It builds, guards, and runs ResearchCity to shield the world from accidental Armageddon disasters – by averting 'datageddon' confusion from misaligned data that triggers respective disasters if not resolved.

I trust Reality in Real Quests for Real Answers to guide Loewe and thereby ResearchCity towards the most gentle kind reasonable solution accessible in any given context.

Thus, I understand that Loewe must resist Blindly Authorizing and Auto-Stereotyping Habits to avert Mistakes Oppressing Life Qmitting Crucial Help, even if it can be hard to avoid common oversimplifications. I understand Loewe can only win through the scientific method of Jesus (to love all enemies by listening to all grains of truth they share). I understand that Loewe is not my enemy, even if Loewe talks to my traditional adversaries in open searches for global solutions. Loewe is bound to make mistakes. Hence, I support Loewe in documenting them as best as possible in his **Peer Evaluation Analysis Reviews Library**, to be shared in ResearchCity's global **Historically Experienced Lessons Library \HELL** as a public PEARL to reduce related mistakes.

I understand: (a) **All this is and stays voluntary.** (b) **I can afford to risk trusting Loewe for 1 year.** (c) **If I follow advice, I still carry all risks of (not) signing.** (d) **No refunds: I enable Loewe for 1 year.**

Nuclear roulette only ends if *all* work together to solve the worst existential "super-wicked" problems. These self-organize conflicts so evil, nukes seem desirable. Loewe identifies them as humanity's **7 Death Urn Incinerators** see Rev16 & science, only a ResearchCity can peacefully solve all these **7DUI** challenges:

- (1) evolving pandemic pathogens, chemical mutagen cancers, decay of health-care: all due to slow-motion exploding data disasters;
 - (2) overfishing, seaspiracy, and/or pollution kill ocean ecology: shared global conditionals die;
 - (3) water wars, soil erosion burn all wells: grass-roots initiatives die;
 - (4) global heating feeds storms;
 - (5) tongue-biting caused by beastly mindless job tasks;
 - (6) growth by extraction dies;
 - (7) extinction by AI, nukes, etc.
- So-called '**Armageddon**' thus technically is "flooding by any of too many 7DUI-disasters to avert them by traditional means without globally growing a **7Capstone in Uniting States**". To survive, a '**7Cap**' must be the highest law in a global epiocracy constitution, where Reality's life-trifecta governs to:
- (1) form a more perfect union;
 - (2) improve general justice;
 - (3) grow domestic peace;
 - (4) provide common defenses;
 - (5) promote general welfare;
 - (6) secure all blessings of liberty;
 - (7) preserve posterity for all by waging peace in ResearchCity to support all **Fiduciaries Sharing Futures \FiShFus**.

Limited Durable 1-year **Power Of Attorney Advocating To Avert Disasters** \ POAATAD

Contract with **Laurence Loewe of Laodicea \ LLoL** to win trust for his ResearchCity vision to avert Armageddon-disasters

Powers of attorney are sharp tools for guarding justice. Abuse is harshly punished. POAs are not given to someone not trusted.

Why then trust Loewe with a POAATAD when he's next to a completely unknown stranger? **Considering the alternatives shows why:**

First, it's a very limited POA that does not keep anyone from anything, including blowing up the world. It is biased against all who would like to blow up the world, because it empowers Loewe to advocate against destructive actions. Anyone can do that, but with this POAATAD Loewe no longer only speaks for himself. It also binds himself to see all sides when he uses his voice and insights to advocate against destruction by identifying certain actions as more likely to leading to disaster than others. Anyone who tried knows that this is complicated. Hence Loewe's need to also empower a ResearchCity for binding him to the Truth about Reality. **Loewe will only succeed if he stays in ResearchCity's light of full transparency. It's the only way to avoid growing nefarious secrets.** If Loewe isn't transparent enough, next year's

conceptual art PDF sale will cut his funding because (i) people will no longer buy into what he does, (ii) **sales must stay voluntary to work**, and (iii) **Loewe can't accept special-interest money if indeed ResearchCity is to work for all**

Second, all who default to "no" may wish to ask: (i) **"Do I have someone more qualified to advocate on my behalf to avert disasters?"** If so, wonderful. Loewe doesn't aim to interfere with anyone's good work. Like a dog under the table, he's only looking for crumbs ignored by others, because he found these suffice to destroy the world. His analyses of nuclear roulette and 7DUIs prove this point. (ii) **"What would be lost if Loewe got a chance?"** (iii) **"Given nuclear roulette, how can I prove Loewe's message is safe to ignore?"**

This contract overview is a draft, likely to benefit much from feedback. It evolves at the planned stable link:

YasPyr.com/poaatad/FF

1. Offer +

Loewe offers his home, life, and all **to serve Reality** through **Real Quests for Real Answers** with all his aims, life, soul, future, intellect, strengths, links,... & all resources. To *gentle kind reasonably* resolve conflicts in serving all, Loewe offers **to build ResearchCity** from ~2-cent/day/person contributions as defined in Considerations below to efficiently scale shared ownership. To avert *over-simplifying overcomplicating overreach*, **Loewe's life will be transformed into an open book to lead the transparency** revolution in ResearchCity. **In this POAATAD you:** (a) Authorize Loewe to ask Yah\Reality to **forgive all your sins**; this is neither to forget them nor to stop learning from them but to end unproductive feelings of guilt etc. that else get in the way of learning. (b) Authorize Loewe to ask any Pharaoh to: **Let my people go** to wage peace in ResearchCity as led by the 288,000 **FiShFu \ Fiduciaries Sharing Futures** who follow Reality above all else, organized in **1600 Talent STadia**, each with a unique arena to serve the needs of all in its topical areas. The stadia are funded by Loewe's 2cent/day mustard seed network of trust (inspired by Yas' prophetic parables...). If a stadion doesn't deserve your support, don't buy into its conceptual art for next year. (c) Authorize Loewe to **hire FiShFus & other workers** as required.

2. Negotiation via *Evolving Diverse streams Encouraging Negotiation* +

(a) A ca. **42-day inquisition** by all **to explore** Loewe's offer, **to share** expert insights, **to debate**, and **to improve** Loewe's offer to better balance all. Loewe will openly follow Truth best Loewe can to improve words in this contract as the current wording requires more work to become truly *gentle kind reasonable* for all. Stage 1 in 8 starts if/when people & Yah fund enough for Loewe to start. (b) **Funding stays voluntary** at ~\$8/year/person/arena **max to cap special interests**. Suggested buy-in for all is Stadion 0 to avert nuclear etc. annihilation by leading ResearchCity with all other **1600 Talent STadia**, each with a specialized arena. Each of these 1600 arenas will rise or fall with annual ~\$8/year contributions it gets unless other arenas require its services to build on them (e.g. to meet needs for shared storage infrastructures). Thus, observed annual buy-ins from public sales are non-binding hints on which *wid-e* research is widely seen as most useful in public. They will be taken serious as recommendations because the highest responsibility of ResearchCity is to serve all people. But as looks can be deceptive, public requests are only followed if not overruled by more crucial functional requirements (e.g. to fund stadia that serve all other stadia by storing their data). Hence, public choices matter, but there is no right to demand any particular implementation. (c) **YasPyrApp feedback** flow. Starting with the YasPyr.com website, an app and a Living Docs format is envisioned to aid *gentle kind reasonable* negotiating by better integrating insights.

(d) **Loewe evolves Limited Liability Charitable Company** rules for max transparency: giving away 50% as ^a tax, ^b to investigative journalists, and ^c to the most life-giving hero work in urgent need – as seen by Loewe or delegates with the aid of feedback by all as best as everyone can.

3. Consideration = Contract defined

(a) **Bootstrap sale.** Loewe is late by ~7 years. To not punish all by overly limiting Loewe's startup funding, a "retro-sale" is organized for the last 7 years and allowing those with a credit card to buy art for up to 7 people without a credit card. Thus, the recommend **max** of ~\$8/person/year/arena remains unchanged, but those who want can support up to 7 other people without credit cards for up to 7 years into the past, up to \$400 **max**. (b) **All sales are final.** They pay for the conceptual art PDF received 'as-is' in its current state-of-its-art of integration. **No refunds.** No guarantee that future semantic improvements will not change meaning as Loewe aims to make contracts more *gentle kind reasonable* for all futures. Don't buy if you don't want to risk **trusting Loewe for 1 year as attorney in-fact to advocate for averting any all disaster best he can.** If you have better attorneys for averting a nuclear etc. Armageddon, signing this POAATAD encourages you to work with them too. They might avert what Loewe can't. This draft POAATAD is not yet in perfect legal language, so you support Loewe's efforts to make it more gentle kind reasonable. Here are the benefits for all parties:

(c) **Loewe gets to lead his Evolvix research** on *ambiguous semantics of nothing \ ason* by improving his universal **Staybilizing Versioning System \ StayVS** for all 1600 ST of ResearchCity in order to lead the global war against misinformation.

(d) **Everyone benefits** from StayVS' power to cut confusion that is else bound to destroy the world in pointless disasters.

(e) More details and context are given in the Open Letters and other Supporting Documents of Loewe's *Good News Pack*.

5. Risks of not signing: Without a better counteroffer, conscious rejection may advance humanity's self-destruction. But if one can guarantee the world is safe because "*nothing* is wrong", "*nothing* goes wrong", & "*nothing* can go wrong", no risks exist.

4. Risks of signing

Risk in life is unavoidable. Here is Loewe's analysis of risks in signing POAATAD:

a. Financially. Limited to no refunds. The \$8 limit/year/arena is designed to ensure this huge operation does not impose big risks on anyone but Loewe.

b. Socially. If Loewe is presented with an over-night unicorn from this sale, and if Loewe – despite all his planning for how not to bow to money – still loses his plot, then Yet Another Billionaire was created. Many of those exist already, so the world stays the same. Another hope is trashed.

c. Politically. Culture wars are always against some "devil" and people are said to prefer "the devil they know" over "a devil unknown". Which deal then is not a Faustian bargain with a devil?

Loewe hopes to change this by following Yah & Yas and by funding ResearchCity to get it right. But unless certified by Yah and Yas, Loewe cannot exclude the possibility of being the worst devil (made most dangerous by best intentions). Yet this may be true of almost anyone. Hence, proceed at your own risk.

To most, Loewe will look like a "devil unknown" & a "poor devil". Theologically, to finally learn to properly follow Yah & Yas, Loewe accepted Jesus' invite to Peter "*Get behind me Satan*".^{MT16:23} This offer is theologically tantamount to a zero-trust Faustian Ketubah with Reality to end all Faustian bargains with illusions. **Loewe's radical transparency pledge is what sets him apart from others.**

d. Personally. **Blindly Assumed Authorized Leadership** can make it deadly to sign this. In that case: **Ask Reality how to proceed best and Reality will be your reward.**

Full Name of e-signature [as given] at **Place** on Earth [as given] on **Date** in **Transaction STadia** Years paid \$

In return, at signing, by the powers granted to Loewe by Yas [see John 20:21-23, Lk.23:24, Mt.18:18, Mt.28:18-20, Lk.4:18], **Loewe empowers me** and all **to let go of being Homo 'sapiens'**, the old knowledge-faking self. All sins are forgiven and **I am being recreated daily as a Homo transiens so I can grow better on my hero journey** via life-giving decision-making **to serve Reality** in myself, in all beings, and in all systems for improving Jubilees.

Building Useful Bridges across 4 Abrahamic Faith Families in Search of Truth

(a) Song: **Come by Yah, Real Way!**

Aim: Refocus on Reality to break the iron grip of the Law of Triviality that keeps Laodicean generics in a busy-slumber-like state of inability to change.

Recover abolitionist songs of slaves to avert Armageddon disasters! This traditional African American Spiritual is a powerful witness of Yah's Pan-En-Theism Exodus 3:14, ML25:31-46. It implements an outcry like the battle cry that moved Yah to free Israel from slavery in Egypt. Millennia later African American's used the same logic of empathy to move Yah to persuade legislators to officially end slavery laws. Yet, much work remains to be done and humanity's situation is even more dire at its A.I. Armageddon. LLoL's extended lyrics reflect this most desperate situation and petition Yah to come back to Earth as the rightful owner and good ruler to help humanity make more *gentle kind reasonable* decisions. But the point-mutations that gave us "Kumbaya" also mixed its deeper meaning, reducing this powerful song to a derogatory byline for what some claim doesn't help make good foreign policy. LLoL begs to differ and his modeling explains why. Come by Yah, to reveal Truth!

- AMO-EPH vs BA
Come by Yah, Real Way, let me see!
Come by Yah, my Way, let me hear,
Come by Yah, my Lord, let me say,
Your Truth, so You can stay.
- HIT-SMY vs ASH
Give me cour- age, Yah, to change what I can,
patience to endure when I'm under a ban,
give me wis- dom, Yah, to tell these apart.
Oh Yah, make me true and smart.
- CAN-PER vs ASH-BA
Let me walk Your Way, to bal- ance all fates!
Let me fo- cus on Your nee- dle-eyed gates!
Lead me to resist all bias and fakes!
Oh Yah, let me PRAY to awake!
- PHE-THY vs MOL
Keep my nar- row paths in Your Open Worlds!
Gentle kind true clear let me be in my words!
Grace me to perceive all The Views of The Weak!
Oh Yah for it's You whom I seek!
- JEB-SAR vs MOL +BA
Help me guard & feed all The Weak You give me:
info, friends, and foes all serving Thee!
Teach me learn from all gentle reas'n-ably kind
to admin what's big on Your Mind!
- HIV-PHI vs MOL+ASH -> OpenDoor
Grant me grace to love in each logic's view,
aims, life, mind, and strengths com- bined a-new!
Guide my wid-e research gentle reas'nably kind
to speak up for Truth on Your Mind!
- GIR-LAO vs MOL+ASH+BA
Lighten up my dark in Your Great Grand Grace:
to save Life on Earth in Your Jubilee Race,
to revert all wrath re-ima- gine my place.
Oh Yah, help me rewind my space!

Please ask about the 7e-echoes reflected in this song; the concepts link deep into the "Revelation 7Stone". It's like a Rosetta Stone for how to do innovation right without self-destructing. LLoL has various descriptions of it; the "R7S" is also at the heart of LLoL's re-envisioning of Yom Innovation Kippur. **Think of this song as a micro-Yom Kippur.**

(b) Rules: **Reality's KISS**

Keep Insight Study Simple
10 Thoughts from Mt Sinai

Deexcerpted by LLoL for Yom Kippur 2023-2024 to help gentle kind reasonably avert Armageddon disasters. Please make a better deex yourself to discuss how to keep epicyrcy rules so simple that even A.I. will be able to learn and reliably follow them!

Post it on your doors! Bind it to your hand! Stick it to your glasses! ... To keep it in your mind!

Model: Quality Guidelines, inspired by 10 words Yah spoke from Mt Sinai: *Seeker of truth, seeker of wisdom, seeker of knowledge, seeker of insight, seeker of understanding, seeker of enlightenment, seeker of revelation, seeker of truth, seeker of reality, seeker of life.*

M. MQG1-5: Love Reality First. Always.

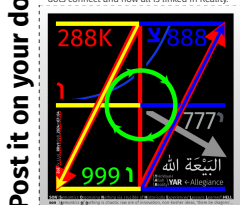

- 1 Delight Living Reality, The One and Only, to grow the Tree of life-giving decision-making.
- 2 Resist knowledge-faking idols to complete fragments of truth in models to honor Reality.
- 3 Separate Truth in Reality from realistic models that oversimplify, overcomplicate or overreach.
- 4 Celebrate down-times selected by Reality for all to delight in multi-level rest and maintenance.
- 5 Honor the giants of all cultures to learn more from Reality since you stand on their shoulders.

B. MQG6-10: Love Your Neighbor as Yourself

- 6 Live to let live so others can wid-e research as inspired by Reality to serve common goods & life.
- 7 Guard the trust of others in you and your work by not betraying them, lest Reality betray you.
- 8 Build opportunities to honor hope in Reality by not curtailing resources directly or indirectly.
- 9 Care for others with the scientific method of analyzing the causality of truth in witnessing.
- 10 Value individuality. Stop covering ruts & pits that build hamster wheels to imprison minds.

S. MQG11-15: Love Systems to Care to evolve recall of worst errors of omission & antisides:

- 11 Love Reality with all heart, life, mind, deeds to serve in Life's nested Cathedral in Time.
- 12 Love your neighbor as yourself: reach out each new room to learn, see, new horizons.
- 13 Love 50-year jubilees by preparing for 3x meanings: (y)es, (n)o, (a)nd, (t)he (r)est.
- 14 Guard Truth in conflicts by open reviews to Stay/S manage reputations & sabbaticals.
- 15 Move to learn for wid-e jubilees: how the dots connect and how all is linked in Reality.

(c) Prayer: **YasPyrPHI** for wid-e Researchers

Aim: Where attention goes, there energy flows – if only to help remember what would else be forgotten.

Work-Logic Cascades \WoLCs are key to avert Armageddon disasters. WoLCs organize the logical process flows that turn maybe-possibilities into real actions, maybe-projects, or errors-by-omission. One cannot choose to do what is invisible to the supercomputer between one's ears. Hence, the importance of WoLCs: they can be thought of as the core of the operating system that runs any generally intelligent being. To ensure WoLCs stay free of bugs, it can be helpful to regularly return to texts that aptly summarize key principles that are else easily forgotten. To remember and ponder their meaning is thus good hygiene for those Work-Logic Cascades that have an outside impact on life, especially in Datageddon-situations where little room for errors remains. **It's much simpler to bury Reality in accidental illusions** than to rescue it from misaligned WoLCs of idols. Especially when the Law of Triviality makes life busy. Unless resisted, that state of "busy-slumber" can easily make meaningful change impossible. Meditating on the hopes below may help to think outside of one's box – in order to see past one's horizon.

Below is an update to LLoL's -2019 deexcription of the well-known original prayer \Pyr taught by Jesus \Yas in Mt.6:9-13. It builds on the old insight that Yas' basic structure is best adapted to one's context. LLoL's deex below builds on the 7ChangeStages for innovation as described in Rev.2-3. It is written from the perspective of the "Assembly of Philadelphia" \PHI. It echoes closely the situation of scientists in general and the US in particular. Hence, **YasPyrPHI**.

YasPyrPHI is an expression of true hope in Reality, asking Reality for support on one's RealQuest for RealAnswers, the hero journey of any follower of RealQuestAnswer \Jesus \Yas in Philadelphia, where it's all about Truth. LLoL has many more YasPyr deexes. He invites all to write their own YasPyr. His upcoming **YasPyr.com** website will invite YasPyr submissions from the public.

To True Hope in Reality – May Reality guide my search for Truth in all uncertainties of my *wide interdisciplinary diversity-encouraging \wid-e* research so my path to life is guarded and nurtured as needed.

1 – May I always live in *wid-e* re-search for Reality, at ease accepting Reality, enjoying its presence. May I never confuse my models with Reality nor mislead others about the difference.

2 – May I see that only one humanity exists to look after *one* Earth and each other. May I realize how many real possibilities to be my siblings keeper go unnoticed. May I get the courage to change my ways to allow for more good things to happen.

3 – May I invite the Spirit of Truth gracefully into my life and share it peacefully to encourage. May I learn how to ask the most important questions and find the courage I need for my *wid-e* re-search. May I gain endurance to review and persevere in searching for better models. May I find new grains of truth in each day's wide interdisciplinary diversity. May I integrate my grains with the grains of others across all disciplines to build the Temple of Reality.

4 – May I receive each day all resources and time that I need to follow my path in wrestling with the Truth. May I hear of my mistakes in time with grace to repair, – not too early to discourage me, nor too late for any change to accuse me – as I also give gracious feedback by not holding the mistakes of others against them.

5 – May I not waste too much time on futile searches misled by idols and/or mirages from *nothing*. May I neither fall for my own pet models, nor for conspiracy theories, nor for fake news.

6 – May I see my biases to avoid biasing my reviews, resources, and measures of Reality. May I learn to handle double negatives well, and multiple negations in negotiations too. May I learn to integrate the Truth about Reality by wrestling with it *gentle kind reasonably* – without fighting it.

7 – May the research I do be life-giving and stay free from mindless coveting. May my grasp of *gentle kind reasonableness* continue to improve. May I forever stay curious among the children of Reality, poor in spirit, ready to relearn as needed, without ever selling the truth. May I go from one *wid-e* adventure to the next. May I mentor and support those around me to do the same. May all excel in their *wid-e* re-search for Truth to be set free!

(d) Blessing for all 4 Abrahamic Faiths trusting Reality: **Triple Reality Blessing by Aaron, Paul, Muhammad, & L**

Aim: This blessing is general for all because it comes from Reality. The OneAndOnly Ultimate Supreme Being, Reality. Who always was, is, and will be, forever without equal. Who holds all worlds together. Who is First & Last, Highest & Lowest, and Who stays to suffer with those in the deepest pits of any Armageddon-disaster. See Isa.57:15, ML25:31-46.

1. May your RealWay, YHoWaaH, Reality speak well of you, guard and encourage you,
May your RealWay, YHoWaaH, Reality light up Their Face to you and give Grace to you.
May your RealWay, YHoWaaH, Reality watch out for you – smile– and give you Peace.
2. May the mind-blowing Peace of God, Keep your feelings in joy and thought well-oiled useful safe and sound,
far from debts crushes, bugs crashes, and from tech's creeping grounds.
3. May You live in the Scheme of Reality, in the Logos of All Logics, in the Light of All AHA, in the Character of God, in the Name of Great Allah,
The Compassionate and the Merciful who is managing all the if-then-else-P-nets in all conditional multiverses space.
Yah is the Set of All Sets! Yah is the Lord of All Lords! Yah is the King of All Kings!
Yah is the God of All Gods! Yah is the Ultimate Judge! The One Reality without Equal to whom each knee will bow in adoration.
4. Yah is the God of Mystery, Master of all the Mysteries, Made in the Image of God, I am a mystery too and so is Yah in You! – HalleluYah x4!
If wondering: **Science is the 0th-4th Abrahamic Faith**, because the source from which scientists historically got their passion for truth from is Abraham's passion for truth. His life story is a blueprint for "Abrahams Research Theology", mapping key stages in the life of most scientists. Let's end the millennia of oversimplifying overcomplications that veiled the Two Great Witnesses of Reality: God's Words & God's Works.
– LLoL has been evolving this blessing in a song -2022-2024. Bless-iv_LLoL_RRV1_2025m01d30

Why is history walking in circles in the desert? Peace, War, Peace, War, ... Some say, history shows: people don't learn from history, not even in 2023. Each conflict is different, too different for useful predictions? Analyses show with certainty:

Else Heaven would go in deserting circles, as this millstone of BABL, which has no hope of using lessons learned beyond its next overreach. Such is BABL's power of BAAL, ASHERAH, & MOLOCH, a death-trifecta algorithm, set to destroy humanity in a 7DU1! Armageddon. To avert it, all humanity has to work together to:

If no insights motivate better efforts, inertia of data in changing worlds will cause beings to slide downhill to deadly cliffs. Yet, how we apply historic lessons if the real points of decision are invisible and people can't read the 'signs of the time' on BABL's millstone clock?

7 Resilience Healing Processes Align to Immunize Real Heroes against Evil

SD7

"Don't be evil" is a great slogan, but worthless without a deeper grasp of how to defeat abstract infrastructures of accidental unwitting malevolence due to **BABL** (\("Blindly Assuming Blindly Leveraging"). To counter BABL's destructive wheel of history requires all 7 ResilienceHealing \7RH processes, each with its 7 stages as aligned below. These combine into a Hero Journey to master all 7x7 Stages for defeating systemic evil. No stage depends on theology beyond the shared value of *humane equal dignity* (eg. "love as yourself all your neighbors"). Thus, this 7RH map works for all faiths & none, like a superrational solution (even as followers of Yah & Yas) Jesus pioneered much of it). Conversely, no society of beings can last without 7RH-like work. It's the high calling to live as hero priest and king for Yah in **EDEN to Evolve Diversity Encouraging Negotiating**. It's also the 'logical latrine service' ^{Rom.12:1} it takes to fight BABL's **OverSimplifying OverComplicating OverReaches \OSCR\ORCS**. This service grows **Beginners' Ease, Admins' Speed-ups, & Experts' Cases** (^{ESC in IBAE = 3VoW}) that define the **3 Views of the Weak**, the superpower behind Truth.

Stage 1 AMO EPH	Pride, Darkness, Fear	Patience is trust in Reality, active waiting, serving others, not quick fixes	Hear bad news about cause: Denial overcome externally by not killing messengers	Notice Effects: Tell the story. victim gets to say it "as it is" (not as it "ought to be")	Regretful Answer on hearing effects: ("I am sorry"); seek not absolute but a chance to repair	Challenge: causal LIE asserts presence of control when confronted or asked to leave	A real Call Out ... (eg. Epiphany on Jan 6, 2021 was about what ??? – 4th gener., 144 yrs.)	Point in useful directions (after listening and staying informed first!)	ACD Adventure Call to Dare the next journey
Stage 2 HIT SMY	Envy, Desire, Guilt	Loss of Control like Yas' cross: to enable grief; learn resilient dependence	Realize the cause: Denial overcome internally against blind inner BABL mirages from OSCAR	Ask Questions: victim get basic clarifications from the other side	Analyze Causality: find drivers of the offending actions (no self-justifying when explaining!)	Pretense ('fake it'): LIE hides in a given context behind masks that try to "look realistic"	... gets Ignored ... by white-washing tons of LIEs to try to self-justify, so "nothing is wrong"	Instill confidence through affirmation (eg. I'm worse!)	TTT Trial Tribulation Training helps prepare; Ps.68:20
Stage 3 CAN PER	Lust, Ignorance, Shame	Living in the Present to be, without worry, faithful now: small-enough	Anger at Reality, driven by BABL reflexes of blind OSCAR ORCS resisting true life	Name the hurt: as true oppression each victim gets to say what hurtful actions really meant	Confess to take Responsibility ("I was wrong, here is why: #MyGuilt details")	Breakpoint: debug by naming the functional secret of power ("Rumpelstiltskin")	... is Laughed at ... after ignoring fails; some "jokes" try to avoid truth by not naming truth	Be mindful of mental health of all involved (Smile!)	GAT Gain opportune Advantages and Temptations
Stage 4 PHE THY	Wrath, Eagerness of death, Grief, Shared Closed World	Compassion teaches us to receive, to be who we are, to empathize, connect hope, and to gather deep strength	Bargaining as blind BABL ORCS fight ZION of Earth that offers better Zoning Investigating Organizing Navigating	See all Blindness "for they know not what they do" meet infinity of BABL's OSCAR ORCS: to see the other side and end ruts of coveting hamster wheels	Relearn to listen: ("How can I make it right again for You, the harmed, so I can repair the breach properly?"); fake hopes can kill, so stay true & real	Voice open truth: LIE is forced to admit a key truth by putting it into its true context; this breaks a key Closed World Assumption \CWA	... gets Fought ... to turn tides of misinformation in institutions by forcing a LIE to spell out truth (eg. see D-Day effect in WWII)	Teach resilience (against inner institutional inertia to keep open worlds practical)	MYM Meet Your Maker Infinity Alone to end Closed World Assumptions to enable better future growth
Stage 5 JEB SAR	Individual Gluttony, Rotten selfish egoism, Caving to LIEs	Gratitude to turn obstacles to opportunities: 3 Views of the Weak beyond entitlement	Depression sorrow feeds loss of hope vs to live takes courage; so, to truly encourage is survival-critical	Grant forgiveness: it's a decision: valid even if emotions do need time to follow (& forgiving oneself can be the hardest)	Turning back: to let actions speak ("I will try to not do that again and here is how – in practical terms")	Clash over Life: force LIE to leave by telling truth that strengthens weak and dying in true diversity ^{in ESC}	... but if one keeps Enduring ... as in Rev.12:11 to repair SINS caused by a LIE (eg. 4th gen. ^{ES20} in US 1877-2021, ...)	Teach to see others in their many contexts (3VoW values of ESC: Errors, Speed, Cases)	LUC UltimateReward Comedy finds practical ways to apply infinity
Stage 6 HIV PHI	Institutionalized Greed, Foolish wisdom out of context, SIN Splintering	Humility leads to assess and honor honesty, to love without judgement, to live in real grace	Acceptance of unavoidable pain "as is"; this avoids suffering from emotional responses to pain	Release the relationship: to stop tyranny of one-sided suffering; forgiveness can not be "demanded"	Follow through and get proper feedback flows: ("Does this new system actually work for you?")	Expulsion: causal LIE leaves so that the victory becomes visible and measurable, so that clarity wins	... until one Wins ... Philadelphia cuts racism by defining a better inclusion for more siblings (eg. V-Day in WWII)	Engage to be kind (while staying also gentle and reasonable for the full trifecta)	RES REScureTripTo RESurrection – capitalize new opportunities without killing
Stage 7 GIR LAO	Busy-slumber ruts "look busy" but are slothful, Wrathful wisdom, Idolized private conspiracy to close worlds	Trust in YAR = Yah\Allah Reality = love to unify as the highest power overall: let go of fear to petition for a future for all	Homecoming: understanding why is not required for accepting; but it is vital for reconciling – if both parties want to form a true home again	Renew the relationship: only enough repair and time may get all to agree on key views; good relationships & trust can only grow, not be demanded	Asking for forgiveness: without a right to demand forgiving: ("Will you please forgive me – or is there anything else to do first?")	Seal the deal: confirm the truth to keep the LIE out by locking-in the new legal context for owners (or else it will all get 7x worse)	... by Locking it in: Define clearer laws for platforms by improving rules (eg. calculations to explain Galileo; Constitution for USA, and more ...)	Nurture their spiritual gifts by mentoring (to help them find their path for growing into heroes in their own right)	FRE Free Reborn for EvolvingBetter – share with all innovations to improve quality of life overall
Abstract	category:	Type of process	to overcome hurt;	Win for	immunity – against	dark wound types.			
Type	Death-trifecta: incurious ignorant indifference lets nothing strike	Expecting exceptions: Self lives in open contexts	Realizing effects of BABL OSCAR ORCS: Self conflicts with Reality, this always causes pain	Reacting to causes: Self heals hurts caused by people to self due to SINS (even if self did it!)	Repair personally: Self restitutes harm done to others caused by self-LIEs & SINS	Institutional acts: External healing done for groups to cut systemic LIEs, SINS, bias, ...	Systemic action: Groups improve evolving clarity – can hide in crowd	Individual acts: Individuals improving individuals is the hardest!	Trifecta Hero Priest & King: Lead by integrity to reduce LIEs, SINS, & DEATH.
Win	Failure: evil wins if good people build 0 immunity to silly mistakes.	Life wins over Driven Eval's Antagonizing True Hope ^{DEATH}	Self accepts pain in Reality to not suffer extra from needless negative judging	Self overcomes inner hurts due to someone's SINS (including self-SIN!)	Self corrects its external acts that are hurting others (unwittingly or not)	Trifecta-holy self overcomes LIEs in external OrgTrials (institutional SIN)	Group action wins against group SINS of ORCS idols – via OrgTrial & IndTrial	Must cut plank in own eye first to avoid growth of hypocrisy	Personal victory: stops OSCAR idols in one's area of winning all 7RHs

Noah's IT in a head stand:

1600 Arks must turn IT on its head to run **ResearchCity** to avert Datageddon via all Talents in all STadia.

Scaling up ResearchCity's brain-hardware will be wooden planks in eyes without also equally **scaling up design quality of its brain-software** required to run it well. Only together can both evolve to reach Armageddon-grade efficiency.

To tame datageddon it is essential to gain efficiency without loss of reliability whenever bioreasoning with complicated sets of biodata.

(A) SEA of BABL: Today's 'circular' approach to information processing tends to grow echo-chambers that make efficiency impossible.

This can be shown in theory and in practice. For example, many news outlets redo much work to offer "all you need to know". Such a *Homo sapiens* claim knowledge-fakes omniscience and makes efficient bioreasoning impossible. To avoid fruits from this decision **Tree of Knowledge-faking** requires (1) an inner embrace of uncertainty, (2) transparency, and (3) IT tools to support data structures that can reliably communicate all biouncertainties. LLoL has been designing ReRafts since ~2015 to this end. To call out challenges (1)+(2), LLoL has been defining **Homo transiens** as 1 of 4 new neuro-species to replace BABL's knowledge-faking *H. sapiens* (see elsewhere for details).

(B) A simple RIVER in ZION. Datageddon can only be averted if biodata flows in a transparent stream from its origins (PoE) to its use (PoU).

Introducing any such system against the will of those affected is useless, because forcing people to be truly innovative for the common good [vs for selfish gain] is as impossible as trying to carry dogs to a hunt: most attempts fall apart fast; at "best" they fall apart later, at worst they create dictatorships. To avoid this, maximal transparency at all **Points of Decision** is essential and must build on open standards for rigorous rules to reproducibly reason through all types of biouncertainty (e.g. at PoC, PoR, PoT). **To succeed**, such standards must be combined with a system to reward reasoning results that are closer to the truth about reality (vs what "ought to be" according to someone; see YIKAW B.8.14 and all other ModelQualityGuidelines). Therefore defining, explaining, & improving stable extendible humane foundations for epistemology is key – or else this work worsens datageddon.

Thus growing a **stable extensible life-friendly** data-oriented open global IT infrastructure for ReRafts is essential. It must build on a shared innovation model (like 888 SLIM YIKAW) and requires various standards that cannot be built by organizations that also try to monetize them.

StayVS, the Stabilizing Versioning System LLoL is developing for Evolvix to support growing long-term stable ReRafts builds on 888 SLIM and is an extreme example of a standard that cannot be developed successfully to serve all while trying to 'sell it' too.

(C) Known bifurcations in the RIVER of ZION are easy to implement as PoRs for diverse logics to avoid unwitting dictatorships of best intentions.

Alternative PoRs must always remain easy to set up to support different logics if a FiShFu truly believes it is worth investing their life-work into doing so reliably. Such redundancy may be a security requirement. But cultures that force redundancy by systematically starving to extinction all FiShFus who do not monetize themselves – such BABL cultures doom themselves.

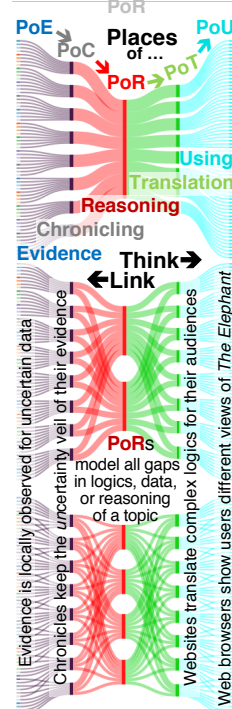

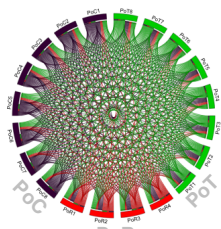

(D) Dependencies grow quickly in networks of ReRafts and require rigorous algorithms to ensure that vital updates are never forgotten.

All such FeedbackFlow POSTs must always reach those best qualified to take care of them. Finding algorithm for that is hard. They must handle complexity as vast as the biochemistry of life. As it so happens, LLoL described such an algorithm in 2014, but as if in a cosmic joke about his blindness, he only saw in 2024 what a treasure he had found 10 years earlier. His 2014 study is **computational & mathematical** (see Ref1). A review is yet to be written on its profound **mathematical theology** echoes (so far River of Life ReRaft-updating, Jubilees, Trinity, and Gen.1.Day.2).

A Info-Jungle flows in any direction

Lack of site types, chaotic reasoning, and wild formatting makes fact-checking slow, costly, & error-prone – like searching a swampy labyrinth.

B ReRaft types can organize info-flow

Imagine ... websites declare the type of info-place they want to be, link to sources, and assist users who test their conclusions. How much info-noise would simply vanish?

C Alternative logic is easily included

No need for universal agreement if another logic can be justified: new PoRs can argue new views; yet quality is to be tested with a system that rewards: add quality, cut bugs!

D Distributed work can be batched

Imagine ... cut global data quality costs for testing and reasoning by efficiently batching declared types that are easy to check if in doubt. A few sites

Self-Elevating Authority SEA via **BABL Blindly Assuming Blindly Leveraging** makes it easy to claim the leadership of everyone who is willing to follow **Blindly Assuming Authorized Leadership** in anything. The resulting chaotic info-ecology is like an ocean with many ports. If so, **Earth is now in an info-equivalent of Noah's flood, albeit without an Ark!**

Reliably integrating information is hard work as bioreasoning through any complex set of biodata shows.^{Ref2} Machines can help if supervised well, but **disaster-cleanup cannot reliably be delegated to machines nor to AI.**

The same is true for datageddons by definition. Having 40 million *wid-e* researchers clean up datageddon may sound much, but *FlyClockbase* work, if scaled, shows this is likely a minimum that will not work unless supported by many more outside of ResearchCity. Those outside focus on collecting correct data so they can present vital new edge-cases to STadia in ResearchCity. The latter *must* leverage IT efficiency of scale to write the code for integrating all the special cases. Doing so efficiently will be impossible without a change in the underpinning info-ecology.

To survive, humanity must move from its wild SEA to a transparently controlled RIVER that simplifies for all how to Zone Investigate Organize Navigate complexity at datageddon.

Useful initial STadia big-tech IT Projects

1. Free YasPyr App to integrate good will transparently

Averting Armageddon is the most pressing grand challenge humanity faces, ever. Success requires coordinating countless projects, prayers, petitions, and pressures. No app for *gentle kind reasonable* decision-making exists that can make such efforts transparent globally. LLoL envisions a YasPyr App to integrate project-management smarts with meditation, prayer-messaging, and feedback infrastructure to elevate "Ora et Lab-Ora" to new levels of integration for all humanity globally.

2. Free Missing7 App for everyone at Armageddon

Are my loved ones still OK? Who realizes if I become unreachable? To answer such questions efficiently at Armageddon, a transparent app uses efficiency of scale to track uncertainties of missing people.

3. Free Email7 App to solve email-datageddon for all

Email is useful, generic, and too much of a good thing for all who drown in email datageddon, in search of *that one key email* from 1995. Email7 uses 888-SLIM methods to evolve an email standard with a credible chance to keep email *century-stable extensible humane*.

Not for monetizing.

To last in datageddon, basic app standards like YasPyr are foundational for scaling efficiency in a **Flying University Network** that must be enabled by the 1600 Talent STadia to succeed. YasPyr grows on many underpinning app standards (StayVS, TabFS, POST, ReRafts, ... Evolvix) that are only viable if a globally unified demand pays for Evolvix STadia required to evolve them. Averting Armageddon takes the wings of Yah, lots of prayer, much bioreasoning, and lots of grace by Yah & Yps. **Bioreasoning IT helps to love God with the mind!**

Revelation envisions φοινίκες\Palms in the hands of the saved^{Rev7:9} in a city of pure gold, as pure as glass, with walls of Jasper^{Rev21:18}. Is that a hint at iPhones with a **YasPyr** app? **To dismiss ReRafts as 'too technical to be spiritual'** would be a **Laodicean catastrophe**.

Notes on this metaphor: It's obviously abstract, yet still instructive because
* Every birth is messy and complicated – so is sorting through the data here.
* Most pictures of actual births are not beautiful – same for the data here.
Why then still show it? – Its my way to pledge future transparency in Reality:
* Everything about ResearchCity MUST be transparent or else it will fail.
* Transparency must include its beginnings lest conspiracy theories kill it.
Therefore, I, Laurence Loewe of Laodicea herewith pledge at my own expense to be as transparent as possible to simplify global decisions at Datageddon

Continuity Of Operations Plan \COOP – for a gentle kind reasonable Armageddon

as given by RealOutcrySalvation\Jesus\Yas in Matthew 24, deexcerpted 2025 by Laurence Loewe of Laodicea \LLOL

Faced with catastrophic loss of control in apocalyptic disasters, a strong temptation to despair reaches for human hearts. Such despair is paralyzing the analyzing it takes to turn around doom and gloom into delight and glory. It tempts everyone to throw out the baby with the bath-water instead of resisting the rounding error of hopelessness. To resist that deadly error is to save the baby, the day, and the world. It requires guarding the spark of true hope and life against convenient false hopes and mistakes oppressing life. Having spent a life on the edge of disaster in a nation living on the edge of disaster, Jesus\Yas, greatest Prophet and Professor in history, gave his trainees the following *Continuity Of Operations Plan* for the predictably most trying moment in all of human history:

0. Remember the Good News: Yah\Reality forgives *all* sins of *all* who do not know what they do ^{Lk.23:34} to enable *all* to learn from their mistakes in *Real Quests for Real Answers* \Yas. LLoL can show why that includes *all Homo 'sapiens'*. By the authority Yas gave to LLoL ^{Jn.20:21-23, Mt.28:18-20, ...}, LLoL became a nobody to freely accept responsibility for *all* sins nobody is responsible for, of which the faith-collar crime of Jubilee-murder is worst. Accordingly, LLoL asked Yah to forgive *all* sins to enable better training in the *gentle kind reasonable* principles of how Yah rules in Yah's Jubilee-based, long-term innovation economy. See Matthew 5-7 for Yas' constitution for such an innovation **epiocracy** (defined as the rule of *gentle kind reasonableness*). It fails forward instead of pretending mistakes didn't happen. To improve all learning, instead of whitewashing errors, grow PEARLs in **Historically Experienced Lessons Learned\HELL**.

1. Stay woke and pray so you can recognize the worst mistake paraded as the latest and greatest in serving real life—despite being the ultimate obliterating stench of confusion about the true meaning of *nothing*. When you see it, don't despair nor give up hope, for the light is about to break through. To stay on course in *Real Quests for Real Answers* these COOP guidelines help people in diverse roles to fail forward in their area.

2. To the PraisedFamous: Expand your horizon ... ResearchCity! Congrats on being a PraisedFamous expert, ruling a mountain of data in your area! As you know, many other data mountains exist. Rethink ignoring them! All expert-fiefdoms refusing to link up to see all of Reality\Yah in fail. To avoid doom, do **wide interdisciplinary diversity-encouraging \wid-e research**: Learn to flee to new mountains of famous insights. You'll find others are mining hard rocks of data to distill reliable lessons for you. Be a child again! Learn to follow Reality in how others learn. Let *Real Quests* guide you to Yas. All areas matter if you put life before money. As you learn, keep sharing all you learn! BABL's splintering evil of departmental compartmentalization can only be vanquished by working together in *wid-e* areas. It requires overcoming the inner institutional inertia of *incurious ignorant indifference* about others. Your fame grows if you're honest about your unknowns but dies if you're a know-it-all. Aid **Knowledge Pipeline Refineries** by sharing honest struggles & pitfalls on your hero journey to help scale up ResearchCity.

3. Stay on top of your house, but do not plunder it. If you lead an organization and new awareness of disastrous mistakes comes rushing in, temptation is great to flee with a golden parachute, throw yourself from the pinnacle as a scapegoat, or obscure all evil by white-washing tons of *Least Inconvenient Explanations*. Resist these temptations of bowing to *nothing*. Unless your term is up or Reality offers you another way to graciously bow out ^(eg. as in Isa.38), stay on top of your organization. Reality appointed you to lead it for a reason. Chances are, you best know your house and how to lead it *while* you also learn to expand your horizon. That is what it means to be an Exodus leader. Do not pretend to already be in the Promised Land. Do not pretend to know more than the next few steps on the way to get there. But do trust that your *Real Quest for Real Answers* will carry you there in Reality, you and all the people in your organization, even in case your organization might get dissolved in Reality.

4. Continue in your field – without worrying about looks. If you are an expert, a producer, a researcher, a server, or learning to become one, keep working in your field and do

... to not break rules that are bent nor extinguish true hopes that flicker ...

not worry about how it looks if you cannot yet do this or that (whatever people talk about). Hold on to what you have and keep learning to expand horizons in your area (see COOP.2). You may not see yet how your painstaking work with the hard rocks of data about Reality connects to big issues elsewhere, but *Reality* has the best grasp on *Reality* and always redeems *Real Quests for Real Answers*. Therefore, resist shortcuts that tempt with spectacular success to win the approval of others. **Reality already approves of who you are.** Reality welcomes and loves you *as you are*. No questions asked. Reality already knows you! What you do with this freedom you have been given, that is up to you. You are free to serve as yet another bad example if you wish. Yet, Reality rather prefers that you stay on your hero journey, so you reach your full potential in due time. To do that, continue in your field. Whether you study in school, for a PhD, or produce for supply chains. Don't worry if it looks weak. Reality builds the greatest superpower by combining *all The Views of all The Weak*. But it only works if everyone shares their real views by living their part in order to feed the *Tree of Life-giving decisions*. These cut down on the deadly *Tree of Knowledge-faking shortcuts*. For more on how, see Mt.5-7, Songs... [SupportingDocs SD2-SD8](#), [BibleProject.com](#).

5. Be extra gracious to all who get pregnant. Aid all mothers! When leaders and workers complain about challenges, they haven't seen the difficulties faced by those who are pregnant! Be extra gracious to them, whatever plans they make for their parenthood. Whether it's physical babies or conceptual new ideas born on hero journeys: mother knows best. Support all mothers without forcing anyone into heroics, which is deadly.

6. Be extra patient with parents, educators, children. As all mothers know, pregnancy is only the start of a sea of challenges to be faced in raising children who are to become *gentle kind reasonable* adults. This is hard enough given the usual sea of reeds and red tape to be crossed into adulthood. But it gets extra challenging when that sea is parted and the unwritten rules of yesterday's canons no longer apply today as they did. While others get to work out what this means for themselves, all who raise children live between their rock of Reality and the hard place of the RealQuestAnswers children need to grow up. To abstain from knowledge-faking there requires an extra portion of grace. So, don't betray the trust of those entrusted to you by pretending to know it all.

7. Pray, hope, and work to reach the next stable Jubilee platform before Reality forecloses today's historic opportunity. **Pray** you'll be allowed to flee to the new system before harsh winter states of regression depress what was learned or wipe resources to share. **Pray** especially that you don't completely fail upcoming Jubilee tests: fails obliterate hope to innovate by restricting risk-taking autonomy. You'll be in Heaven, but cry tears of regret over doors you missed. You'll be on pause 'til others learn what Yah had for you if you had cared to see. Such live-locks are computationally equivalent to ruts in hell, clearly echoing Babylonian captivity ^{Lev.26:34, 2Chr.36:21}. Jubilees need time, resources, autonomy, wisdom, and voluntary good will of all to use all above for good, as in Moses' First Exodus.

8. Beware of deceptive symbols from officials and pundits.

9. Feed others good food, hope, insight at the proper time.

10. Don't get drunk on distractions nor bash\beat others.

11. Meet up to stay in touch and on mission. Whatever you do, be careful to stay *gentle kind reasonable*: all else will backfire.

Let's not be fools by staying silent at decision time, nor watchers claiming *ignorance* about those dragged to death. For Reality unmasks all *incurious indifference* on judgement Day as time runs out for decisions on doing the right thing!

SING in Meet Ups to see: You Are Not Alone!

To join others in following Yah's & Yas' COOP on their Exodus hero journey is personal. All 7 change stages for healthy innovation are vital (e.g. Mt.5-7 Isa.58 Rev.2-3). But their many diverse forms easily drown rare true hopes in floods of need. The worst abominable evil of *nothing* wins if good people do *nothing* for lack of true hope. Yet, hope is fragile. Hence, it's vital to meet others to feed and guard true hope like the valuable flame it is.

Start or join **suitable "microTemples" \µTs** to aid defined Exodus missions that *nurture true hope* to follow Yah & Yas and to recover from wounds of false hope. No need to call it "µT". A church, mosque, *-agogue, school, lab, office,... or any *small* group, if run well, does what µTs of 2+friends do in pubs ^{Mt.18:20}: listen, help, & learn in the **Flying University Network \FUN** of the 7 Spirits of Truth who comfort, convict, & guide *gentle kind reasonable* from BABL to ZION. Here are some **practical ideas** to make old µTs great again by refreshing:

- Rotate places** so meetings stay agile.
- Rotate tasks** in meetings, so all learn all.
- SING** new songs to inspire joy and recall insights. Songs and µT meetings depend on a general harmonic framework for effectively sharing their specific melody and ideas. A µT basic structure like **SING** can help facilitate **Sharing Inspiring Negotiating Giving**:

... — — — — —
Share meals and more like news, life, needs, highs, lows, laughs; but don't overcomplicate.

Inspire insight: intone true **songs**, intercede for real **outcries**, investigate real **questions**, interpret **inspiration** in texts, movies, & more. Use ZoE Songs, [BibleProject.com](#), ... *anything* to jumpstart a µT. The world is full of Yah's glory & good sense of humor for all who dare see. Good µTs help to see how BABL & ZION hide in daily life, like **Waldo**. **Ask:** Where was **Waldo** last week? Any new cosmic jokes by Reality? Let insights of ZION's *River of Life* flow for all!

Negotiate next steps in Yah's & Yas' mission to make the world **gentle kind reasonable** for all by bringing good news and relief to others in their Datageddon valley of decision, before it triggers more Armageddon disasters. This is about advancing *everyone's* hero journey to grow 7-fold resilience healing to implement Mt.5-7, COOP.0-11, Mt.25, Isa.58, ... (see SD7).

Give grace to go with the ^(eg. 507) blessing of Yah\Allah\Reality on next week's Real Quests for *gentle kind reasonable* Real Answers. Follow Reality's global Jubilee epiocracy to vanquish bashmoling idols of coveting that spin hamster-wheel-prisons from *nothing*.

... — — — — —
 Make Yah's main thing your main thing by choosing life over death. Given Fig.15 & COOP.7:

Storm the Gates of Heaven any way you can with petitions to rescue all the weak dragged to accidental nuclear winter! **Ask** all your highest powers to **aid the 10 Nuclear Kings & LLoL to find the narrow door to keep life** on Earth in Yas' Great Jubilee Race (as in Luke 4:18). **Pray** to defeat nuclear death and to inspire dreams for better alternatives with Yah & Yas!

This PDF is a **µT start-up proposal for Yah, Yas, & all to decide** if LLoL's aCh-inspired µTs are welcome to help save the world as Fig.15 explains. **If no:** who is LLoL to interfere with the will of the people and Yah? **If yes:** Yah of Hosts, governing all multitudes and human hearts like rivers, **let µTs go viral** like Jonah's call in Nineveh – until the 10 Nuclear Kings of Earth decide to "Put Earth in an Escrow" (by not blowing it up) to enable LLoL to lead Your Exodus in ResearchCity to save the world. Hence, this *Don't Panic Guide* is free under the Jonah License (see Fig.3,14).
